UHLE BLANKS YANKEE SLUGGERS

L. A. GIVES IN TO BIG 'ARMY'

Santa Ana Veterans Assist In Ninety-first's 'Capture' of Angel City

150 FROM HERE GO TO VAST ASSEMBLY

Many Features Planned for Entertainment of Heroes from All Over Coast

Los Angeles was the Mecca today for scores of fighting men from Santa Ana and Orange county as well as from all over the Pacific coast.

Heroes of the Argonne, members of the famous Ninety-first, were in Los Angeles to celebrate the third anniversary of their baptism of fire.

It was estimated that 150 Santa Ana men, who were members of the Ninety-first division, attended the celebration in Los Angeles today and were holding themselves in readiness for the big program of parades, speeches and banquets tomorrow.

Fully 15,000 members of the division were in Los Angeles today, it was estimated.

The Santa Ana delegation left by autos all during the day. A large number left from the courthouse shortly after noon. Many of them were men who trained at Camp Lewis, went to France and got into the thickest of fighting six weeks before the armistice was signed. They are "vets" of the Argonne forest, where the backbone of the Teuton resistance was broken. Some of them had been wounded in the fighting. More than one Orange county man lost his life while a member of the "fighting Ninety-first."

Los Angeles "Surrenders"

Reports from Los Angeles indicated that the city has "surrendered" to the men of the Green Pine insignia. Mayor George E. Cryer issued a formal welcome to the visiting veterans. He said:

"To the members of the Ninety-first division:

"As the harbinger of that larger welcome that I know is in store for each of you, I take this opportunity to greet you.

"Los Angeles is glad to have you as her guests, and I trust that the warmth of welcome will be surpassed only by the extent of our hospitality."

Today's program consisted of the official opening of the division headquarters in the American Legion clubrooms, the arrival of the huge San Francisco delegation and general get-together arrangements. Separate unit banquets are to be held tonight at 7:30.

Tomorrow's program calls for trips to beaches and to motion picture studios during the morning, as planned by separate units, a parade through the Los Angeles streets at 1:30 and at Exposition park at 2:15.

BASEBALL RESULTS

AMERICAN LEAGUE
(First game)

St. Louis 1 5 2
Boston 2 9 0
St. Louis—Dayis and Severeid; Boston—Pennock and Walters.

Philadelphia 3 9 1
Pittsburgh 4 9 0
Philadelphia—Ring and Henline; Pittsburgh—Morrison and Gooch.

Harding Ousts Democrat to Make Way for Republican Job Hunter

WASHINGTON, Sept. 24.—The Harding administration made it clear today that all federal jobs traditionally viewed as political berths shall go to Republicans.

It was expected that the summary dismissal of T. C. Thoreson, Democrat, serving in the federal land office at Salt Lake City, would be a warning to other holdovers from the previous administration.

Thoreson was asked to resign, but refused, and President Harding promptly ordered his dismissal.

EX-FEUDIST IS CONVICTED FOR PART IN CLASH

West Virginia Jury Finds J. C. McCoy Guilty of Murder In Trial of Mine War Cases.

WILLIAMSON, W. Va., Sept.—24.—J. C. McCoy was convicted of murder in the first degree today in connection with the three-day industrial battle here last May.

The jury recommended mercy and McCoy will be sentenced to life imprisonment.

McCoy is a grand-son of Randall McCoy, leader of a clan in the Hatfield-McCoy feud. He is the first to be convicted of murder in connection with the mine warfare in Mingo county.

Mediation May Prevent Clash In Border Row

VIENNA, Sept. 24. — Mediation with both sides offering concessions today promised to end the dispute over Burgenland.

Dr. Schober, Austrian chanceller, announced that Czecho-Slovakia and Jugo-Slavia had sent an ultimatum to Hungary informing that country that unless she evacuated the disputed territory by today a state of war would be declared.

Burgenland, formerly a part of Hungary, was taken from her by the peace treaty, but Hungarian troops marched into the territory. Today's cables from Vienna indicate that Austria-Czecho-Slovakia have formed a temporary pact to prevent Hungary from reclaiming the disputed territory by force.

"30" BULLETINS

WASHINGTON, Sept. 24.—The senate today confirmed the appointment of Joseph C. Grew of Massachusetts as minister to Switzerland and John D. Prince of New Jersey as minister to Denmark; David B. Carson of Tennessee, to be commissioner of navigation in the department of commerce; Charles W. Pugsley of Nebraska to be assistant secretary of agriculture.

WASHINGTON, Sept. 24.—All ordinary governmental expenses for the past fiscal year can be met by the $3,324,000,000 raised by the revised tax bill, according to the majority of the finance committee, submitted to the senate today by Chairman Penrose. The measure is not designed, the report states, "to create a current surplus and thus encourage unnecessary spending."

William Rich, aged 19, a packing-house employe, is in the Orange city jail on a charge of an attempted offense against a 5-year-old girl. Mrs. Florence Reed of Orange swore to a complaint against Rich. Justice Armor fixed the preliminary for next Wednesday at 2 o'clock. Rich has not raised $1000 bail.

SEATTLE WINS CONVENTION

DETROIT, Mich., Sept. 24.—Seattle, Wash., today was chosen as the 1922 convention city for the twenty-third national encampment of the Veterans of Foreign Wars. The veterans have been in session here all week.

Clear Way For Job Parley

GIRL NABBED AS ALLEGED CHECK TRAIL BARED IN SO. CAL.

Said to have confessed to having passed spurious checks in eight Southern California cities aggregating more than $530, Mrs. Anna Violet Reynolds, 17, and Alfred Frank Reynolds, 28, who, the girl claims, is her husband, were being held in the county jail here today pending the filing of complaints against the couple.

According to local officers, the couple have been operating in Santa Ana about three days. Mrs. Reynolds went to the Hill and Carden store Thursday and made an $8.60 purchase. She bought a hat and a silk shirt for her husband. Mrs. Reynolds told Warren Amos, who waited on her, that her husband was working on the Santa Fe between this city and San Diego. She presented a check for $25, which was readily accepted.

The next day, it was stated, Mrs. Reynolds went to the E. S. Gilbert and Company store. There she bought some women's wearing apparel and a baby's coat, the total purchase price being $11.90. She presented another check for $30 and received the difference in cash.

Woman Sought

As soon as the checks came back from a local bank marked "no account" proprietors of the two local stores sought the woman. Warren Amos enlisted the aid of Officers Scott and Stewart and Constable Jesse Elliott and City Marshal Jernigan. Amos saw the woman on the street with the man whom she later said was her husband, and he was wearing the shirt and hat bought the day before.

Late yesterday the woman approached Officer Scott at the corner of Fourth and Sycamore streets and asked where the sheriff's office was. Scott saw that the woman answered the description of the one sought. He told her that he would escort her to the sheriff's office as he was going that way and she consented to follow him.

Instead of going to the sheriff's office with her, Scott took the woman to the police station. There she was questioned by the authorities and made an alleged confession. Officers learned that she and her husband had registered at the Elwood rooming house under the name of "F. C. Ryan and wife."

Confession Alleged

With a full description of Reynolds, officers had little difficulty in identifying him. He was arrested on Fourth street and brought to the police station. According to officers who questioned the pair, the woman said, in the presence of her husband:

"It's all off. We might as well 'fess up."

According to the purported confession made by Mrs. Reynolds, she and her husband cashed six checks in Los Angeles aggregating $140; four in Pasadena, totaling $110.50; three in Long Beach, totaling $110; two in Riverside, totaling $45; two in San Bernardino, $30; one in Santa Monica, $15; one in Ocean Park, $20; and one in San Diego, amount not recalled.

Mrs. Reynolds says she and her husband cashed the checks under the names of Ellington, Price, Foster and Reynolds. She declared it was "the easiest thing she ever did."

Reynolds gave his residence as Cleveland, Ohio. Mrs. Reynolds also said that she was from Cleveland. The authorities say there is no doubt that she is more than 17 years old.

City Marshal Jernigan says the woman is "wise" to the juvenile status in the courts and is merely pretending she is 17 in the hope that she will be dealt with accordingly.

Fears Russ Famine Horror in 1922 as Seed Crop Low

By EDWIN HULLINGER
United Press Staff Correspondent

MOSCOW, Sept. 24.—Russia faces another famine—which will come next year and will reap death among the poor of the province with even more swiftness than it did this year.

This was the prophesy of M. Kameneff, the Soviet director of famine relief, expressed in an exclusive interview with the United Press today.

Kameneff declared the farmers had been unable to obtain sufficient seed for autumn planting.

"The 1920 harvest was entirely consumed by the middle of October. Thereafter the Volga district gave absolutely nothing. Everything we ate had to be imported from the other provinces of Russia, where the harvests were only 45 per cent normal," he declared.

ARMORED CARS ROUT RIOT GANGS IN NEW REVOLT IN BELFAST

DUBLIN, Sept. 24 — British police are secretly patrolling the entrance of all Irish ports to steamers, it was believed here today. Passengers arriving here reported their ships had been searched. British authorities claimed Sinn Fein was arming. They feared an outbreak among the Republicans who have been drilling actively.

United Press Leased Wire

BELFAST, Sept. 24.—Corps of armored cars patrolled the streets of Belfast today after a wild night of rioting.

Fighting which broke out shortly after midnight spread throughout all sections of the city. Gun men hidden in doorways poured their fire into the streets. Rioting crowds surged along the main thoroughfares and order was not restored until the military swept through the streets with their Hotchkiss guns.

The number of dead and wounded could not be determined.

A bomb, hurled in Harland street, was the signal for the rioting. The entire east side district seethed with rifle and revolver fire as the detonation of the bomb died away.

Hundreds of gunmen in the area of Newston's road seized a railway station and the river bridges. They hid in places of vantage and poured a leaden fire along the main thoroughfare. Citizens in tramway cars became panicky and fled the district. Soon all cars were stopped.

The military, speeding through the streets in armored cars, fired their small arms without effect. It was only when they opened up on the rioters with their Hotchkiss guns that the revolters threw down their arms and fled. The gangs dispersed before the guns, but some of them rooted themselves in points of vantage and sniped until dawn. They took their injured with them.

Gompers Asks Unity in Union Ranks at Miners' Convention

United Press Leased Wire

INDIANAPOLIS, Ind., Sept. 24.—Samuel Gompers, American labor chief, interrupted factional battles in the coal miners' convention here today long enough to call for unity of action by organized labor.

The veteran labor leader came here from Washington at the invitation of President John L. Lewis, of the United Mine Workers, who sought his mantle at the Denver convention of the American Federation of Labor.

It was understood Gompers and Lewis discussed the suit filed against the United Mine Workers of America, its officers and members by the Borderland Coal corporation. The corporation sought in the suit to prevent unions from interfering with employes in the Thacker and Williamson coal fields of Mingo county, West Virginia and Pike county, Kentucky.

In the session last night President Lewis and Alexander Howat, head of the Kansas miners, had a bitter debate on the floor of the convention. Lewis said Howat harmed unionism by calling "wildcat" strikes. Howat resented this and shouted:

"That Kansas industrial court can go to hell. I called the strikes because they were necessary."

Finger Prints Bring Arrest of Fugitive

SACRAMENTO, Sept. 24.—Erwin Rannell, who escaped here from a Berkeley detective, September 14, has been caught in Marysville, according to an announcement made by C. S. Morrill, state superintendent of the bureau of criminal identification and investigation.

Rannell was arrested in Marysville yesterday under the name of George E. Cappin. His finger prints and identification characteristics were forwarded to the state bureau here. They corresponded to those of Rannell and Berkeley officials were notified. Rannell was arrested in Marysville on a cahrge of forgery. Rannell is 27 years of age. He escaped from a Berkeley detective, who was taking him to a house in this city, where Rannell said he had secreted a safe deposit box. As the machine was being stopped Rannell jumped out and ran behind the house, disappearing up an alley.

CONVICT S. F. MAN ON MURDER CHARGE

MARYSVILLE, Calif., Sept. 24.—Jack McGill of San Francisco was forced to tell his sweetheart, Veda Kosted today, that he had been convicted of first degree murder for the killing of John Koplos, pool room proprietor.

Miss Kosted is held in the women's ward of the county jail, charged with complicity in the murder. McGill, who was found guilty late last night, after a jury trial, refused to tell his sweetheart until this morning.

Vets of Civil War Gather In 55th Reunion

INDIANAPOLIS, Sept. 24.—Civil war veterans, clad in the blue of their fighting days, shook hands in reunion once more here today as they gathered for the fifty-fifth annual encampment of the Grand Army of the Republic, which opens tomorrow.

Gray hairs and furrowed cheeks were the only evidence of age, as the vets became boys once more and paraded to the fife and drum or sat around the city on specially provided benches, swapping yarns in reminiscence.

Antietam, Gettsburg and Chickemauga were re-fought, while the former sailors relived the clash between the Monitor and the Merrimac.

There were several thousand fewer veterans expected at the encampment this year than in previous years. Thousands have died or become too feeble since a year ago and many stayed at home because they were in Indianapolis last year and didn't wish to come to the same city two years in succession.

Tomorrow will be devoted chiefly to reunions. On Monday credentials will be presented and Governor McCray will receive the visitors in the state house Monday night. The first business session will be held Tuesday.

With shoulders thrown back in defiance of age, the veterans will march to martial airs in their annual encampment parade Wednesday. This and the campfire on that night will mark the climax of the encampment

Borah Will Carry His Fight on New Pact to People, Word

WASHINGTON, Sept. 24.—Preparations are being made by the administration to begin withdrawing American troops from Germany immediately after ratification of the peace treaty, Senator Lodge, chairman of the foreign relations committee, declared today in the senate during consideration of the German, Austrian and Hungarian treaties.

WASHINGTON, Sept. 24—The senate today took up the peace treaty with Germany in open session.

On motion of Senator Lodge the treaty, with the reservations adopted by the senate foreign relations committee, was read and Lodge opened the debate.

Senator Borah of Idaho will carry his fight against the new German peace treaty to the people if the senate ratifies the pact.

"The fight to keep America out of European affairs has just begun and the ratification of the new treaty with Germany, which would take us in, will not end it," Borah declared today in an exclusive interview with the United Press.

"This fight will be carried to the people. It is the second chapter of the league of nations fight. The people overwhelmingly repudiated the league and when they find that this treaty would involve America in European affairs as long as the treaty stands, they will repudiate it."

With consideration of the German treaty set for today in the senate, Borah was confronted with a fight that seemed certain to end in defeat.

ADMINISTRATION HOPES TO FIND WORK FOR ALL BY WINTER

By HERBERT W. WALKER
United Press Staff Correspondent

WASHINGTON, Sept. 24. — The hope of the administration is that a nation-wide voluntary organization to provide work for the millions of men now jobless will result from President Harding's unemployment conference, which opens here Monday.

Secretary of Commerce Hoover will show to the delegates the imperative need for prompt action to relieve the situation. Just as he did during the war, when a food shortage threatened the world, Hoover will appeal to the patriotism of the country for the establishment of an unemployment organization.

Names New Delegates

Secretary Hoover announced today the naming by President Harding of three additional delegates to the unemployment conference. They are:

Clarence J. Hicks, New York, assistant president of the Standard Oil company.

James A. Campbell, Youngstown, Ohio, president of the Youngstown Sheet and Tube company.

Charles M. Babcock, St. Paul, highway commissioner of Minnesota.

These names bring the total number of delegates up to 51. Several more acceptances will probably be announced later today. In all about sixty were invited to serve.

Seeks Nation1Wide Aid

Governors, mayors, leading employers and representatives of labor in all parts of the country will be asked to form the voluntary organization. Activities probably will be directed by the United States employment service, which it is hoped to put on a working basis.

President Harding, who will open the conference, will urge the need for voluntary co-operation to make a big decrease in unemployment before winter comes and the hope of the administration is that the conference will so focus the attention of the country on the need for prompt action that the new organization can be established.

Outline Many Plans

Conference officials are expected to suggest to the delegates the following possibilities as offering hope of stimulating employment:

1—Construction of school houses and other public buildings.

2—Resumption of home building on a large scale.

3—Expansion of water works, electric lighting plants, street railways and other public utilities, especially where municipally owned.

4—Road building.

5—Development of irrigation projects.

6—Revival of the textile and other basic industries.

It has been learned that 1,500,000 school children are suffering now from lack of adequate school houses. The shortage of homes is estimated at in excess of 1,000,000.

TO DEPORT CONVICT

SAN FRANCISCO, Sept. 24.—Joe Fuski, San Quentin inmate, convicted on a statutory charge against a Sacramento girl, has been ordered deported, Commissioner of Immigration White today informed E. E. Grant, of the state law enforcement league. The warrant for deportation has already been issued.

Premier Drafts New Plan to Bring Peace In Ireland

LONDON, Sept. 24.—Premier Lloyd George has evolved a new formula for settlement of the Sinn Fein problem which will be acceptable to both sides, it was learned here today.

This new formula will not necessitate a compromise from the the position of either side, it was said.

It was believed Eamonn De Valera's desire for a conference would prompt him to accept this reported new proposal as it will not provide that he withdraw from his previous stand, in which he insisted the Irish delegates were representatives of a free nation.

MODIFICATION OF RULING ON PACKERS PLAN

Daugherty Seeks Change In Decision Confining 'Big Five' To Meat Business.

WASHINGTON, Sept. 24. — The department of justice today indicated it has decided definitely to re-open its campaign for proposed modifications of the Palmer consent decree, restricting the activities of the "big five" packers to the meat industry.

Attorney General Daugherty filed a motion with the District of Columbia supreme court asking it to vacate a recent order following the National Wholesale Grocers' association to intervene in the consent decree proceedings for the purpose of preventing any modification of the decree.

56 Passengers Saved as Fire Sweeps Vessel

PANAMA, Sept. 24.—The steamer Goethals of the Panama railroad line is afire in the harbor of Port Au Prince, Haiti, the master of the steamer reported here today.

The fire is sweeping the vessel and there is little hope of saving her, he said. Fifty-six passengers have been taken ashore.

The captain asked that another ship be sent to complete the journey from New York to Cristobal.

HUGE EXPORTS ACROSS BORDER IN HALF-YEAR

OTTAWA, Sept. 24.—According to figures published by the External Trade division of the Dominion Bureau of Statistics, Canada's trade with the United States is reaching a more normal level.

In 1920 goods imported from the United States were valued at $660,509,487, while exports only amounted to $488,974,570, with a resultant balance of $371,534,917 in favor of the United States.

In 1921, for the year ending June 30, Canada imported goods from the United States with a value of $766,393,077, and exported goods valued at $501,933,266, reducing the trade balance in favor of the United States for the year to $264,459,811.

SARDINE PACKING TO BE RESUMED

ST. JOHN, N. B., Sept. 24.—The Booth Fisheries, Ltd., one of the largest fish packing corporations in the world, will resume sardine packing operations in their plant in West St. John very shortly.

Eastern Golfer Has Edge on Gardner in Clash For Title

ST. LOUIS COUNTRY CLUB, CLAYTON, Mo., Sept. 24—Jesse ("Siege-gun") Guilford of Boston, today was crowned national amateur golf champion when he defeated Bob Gardner, of Chicago, seven up and six to play.

United Press Leased Wire

ST. LOUIS COUNTRY CLUB, CLAYTON, Mo., Sept. 24.—Jesse Guilford, Boston, finished the morning round six up over Robert A. Gardner of Chicago, in the finals of the amateur golf championship tournament here today.

With only eighteen holes to go, Guilford has an almost unbeatable lead and is the probable successor to Champion Chick Evans as premier American golf amateur.

After playing sterling golf for the first nine holes Gardner cracked and lost six holes out of the nine to Guilford by bad putting.

Guilford's game was as solid as Gibraltar. Going out in 36 he was home in 37. He had put two holes over par and this he balanced by shooting two birdies the last the spectacular home hole.

At the turn Guilford was one up. Here he started to play as beautiful golf as has been seen in this tournament. He won the tenth with a par four by a tremendous 250 yard drive, a perfect approach and two putts, while Gardner was taking a five.

Then Gardner ran into some fatal hard luck. His drive on the 369 yard eleventh landed in a bad lie beneath a tree. His second was in a trap and after taking two more he picked up his ball and conceded the hole.

This seemed to disconcert Gardner. He succeeded in halving the twelfth but dropped the next three holes by erratic work on the greens. On the fourteenth he missed a two footer. Gardner won back the sixteenth with a par three while Guilford was shooting out of a trap and overrunning the cup on his third shot.

On the 361 yard 17th Guilford hooked his second into a trap and Gardner was on with a fine approach. Guilford missed his fourth and Gardner had an eighteen nicher for a win.

A great gallery followed the play which started under threatening weather and ended under a blazing sun.

CLEVELAND NEAR TIE IN RACE

Indian Heaver Holds New York Safe While Teammates Make Nine Runs

35,000 FANS SEE IMPORTANT BATTLE

Speaker Returns to Fray and Plays Spectacular Game In Center Field

By HENRY FARRELL
United Press Staff Correspondent

POLO GROUNDS, NEW YORK, Sept. 24.—Cleveland won the second game of the "little world's series" here this afternoon by defeating the New York Yankees 9 to 0.

Harry Harper, the lone southpaw of the Yanks, started in great form, which has characterized his recent

He rallied in the fifth, but wavered again in the sixth, and Manager Huggins jerked him out and sent in Bob Shawkey.

George Uhle, graduate of the Cleveland sandlots, was the whole works. He held the hard hitting Yanks to four measley hits and breezed through the game.

Uhle held the great "Babe" Ruth to one single hit and kept Meusel, the slugging mate of the "Babe," hitless.

The game was witnessed by a crowd of 35,000.

The third game of the series will be played tomorrow. Ray Caldwell, former Yankee, is expected to pitch for the Indians, while New York probably will make a stab for the advantage in the series with Carl Mays, the underhand pitcher.

First Inning

Cleveland—Evans looked at the first ball pitched, a strike. He tried for the second and missed. Evans fouled to Schang on an easy chance. Wamby came to bat and the crowd yelled "Two out!" Wamby out on fly to Miller. Speaker was given a tremendous ovation when he walked to the plate. Speaker popped to Ward. No runs, no hits, no errors.

New York—Uhle grooved the first one on Miller. Milled flied to Speaker, who made a brilliant running catch of it over in left field. The crowd cheered wildly. Peck singled over second, a bounding drive that Wamby couldn't quite reach. The crowd went into hysterics when Ruth srutted to the plate. Uhle gave the swat king a wide one and then split the plate wide open. Ruth walked when Uhle failed to get him to bite on low balls. Meusel reached two and three and then went out on a fly to Speaker, who held both runners at their bases. Mails was warming up. Pipp out, Wamby to Burns, on a fast play. No runs, one hit, no errors.

Second Inning

Cleveland—Wood out, on a hot liner to McNally. Gardner reached two and three and then popped to McNally. Sewell out, Pipp to Harper, who covered first. Harper got in the way of Sewell's spikes and limped off the field. He was not hurt, however. No runs, no hits, no errors. Harper had a world of stuff and was playing the corners to perfection.

New York—Ward out, Gardner to Burns, after the Cleveland third baseman fumbled his hot drive. McNally singled on a smash that nearly took Uhle off his feet. Schang walked on four straight balls. Harper was given a big hand. "Babe" Ruth, coaching at third, was motioning to the stands for encouragement. Harper went out, Wamby to Burns, on easy chance, Schang taking second. Miller drew three balls and then watched a fly go by. Miller walked. Speaker was roving around in center pulling and eating grass and looking to the bull pen, where "Custer" Mails was still warming up. Peck forced Miller, Sewell to Wamby. No runs, one hit, no errors.

Third Inning

Cleveland—Burns out, Peck to Pipp. Peck made a spectacular stop in deep short. O'Neill out, Peck to Pipp. Uhle walked after Harper had two strikes on him. Evans singled to center. Uhle rounded second and went to third when Miller fumbled the ball. Uhle scored and Evans reached third when Miller's throw got away from McNally. Wamby walked. Harper was getting wild and Mays and Ferguson started warming up. Speaker walked on four straight balls, filling the bases. Schang made a desperate attempt for Wood's foul, but it fell in a box. Wood fanned. One run, one hit, two errors.

New York—Ruth fouled to Gardner, who ran almost into the stands for the catch. Meusel popped to Wamby. Pipp walked on four

UHLE LETS YANK SLUGGERS DOWN WITHOUT RUN

(Continued from Page One)

straight balls. Ward out, Uhle to Burns. No runs, no hist, no errors.

Fourth Inning

Cleveland—Gardner walked. Sewell flied to Miller. Burns doubled to left. Ruth held Gardner at third by fast fielding. O'Neill walked, filling the bases. Uhle walked, forcing in Gardner. The crowd yelled: "Take him out." Evans doubled off the left field wall, clearing the bases. Harper was then relieved and Bob Shawkey replaced him. Shawkey grooved the first one on Wamby. Wamby flied to Meusel, Evans dashing back to second. Speaker flied to Ruth. Four runs, two hits, no errors.

New York—McNally out, Wamby to Burns. Schang walked. Shawkey flied to Evans. Miller flied to Wood. No runs, no hits, no errors.

Fifth Inning

Cleveland—Wood went out, Peck to Pipp. Gardner flied to Ruth. Sewell fouled to McNally. No runs, no hits, no errors.

New York—Peck drew three balls and he went out, Sewell to Burns. Ruth singled to left. Meusel fouled to O'Neill. Ruth out stealing, O'Neill to Sewell. No runs, one hit, no errors.

Sixth Inning

Cleveland—Burns was safe when Ruth dropped his fly. It was an easy chance and Ruth appeared as much surprised as the stands. O'Neill singled over second, sending Burns to third. Uhle walked for the third time. Jamieson, batting for Evans, forced Burns at the plate, Pipp to Schang, on a fast play. Wamby singled over second, scoring O'Neill and Uhle and sending Jamieson to third. Wamby was caught napping at first, Shawkey to Pipp. Jamieson scored on a wild pitch. Speaker out, Shawkey to Pipp. Three runs, two hits, one error.

New York—Jamieson playing left field for Cleveland. Pipp walked. Ward out to Speaker, Pipp holding first. McNally forced Pipp at second, Gardner to Wamby. Schang out, Burns unassisted. No runs, no hits, no errors.

Seventh Inning

Cleveland—Meusel went to left field and Roth went to center field. Ruth going to the bench. Devormer took Schang's place behind the bat for the Yanks. Wood flied to Miller. Gardner singled to left. Sewell singled over second, but Gardner was out trying for third, Miller to McNally, Sewell reaching second, on the play. Burns out, Pipp unassisted. No runs, two hits, no errors.

New York—Shawkey singled to center. Miller lined to Burns, for a double play. Burns was standing on the bag and Shawkey had no chance to get back. Peck flied to Speaker. No runs, one hit, no errors.

Eighth Inning

Cleveland—O'Neill doubled off the right field wall, making second in a slide after Roth tried a one-handed catch. Uhle sacrificed, Devormer to Pipp, O'Neill pulling up at third. O'Neill was run down between third and home on Jamieson's infield hit, Pipp to McNally to Devormer to McNally to Pipp on the baseline, Jamieson reaching third on the play. Wamby out, McNally to Pipp. No runs, one hit, no errors.

New York—Roth fouled out to O'Neill. Meusel flied to Jamieson. Pipp flied to Wamby. No runs, no hits, no errors.

Ninth Inning

Cleveland—Speaker flied to Roth. Wood tripled to right field and scored on Gardner's sacrifice fly to Meusel. Sewell walked. Burns flied to Miller. One run, one hit, no errors.

New York—Ward flied to Wamby. McNally safe at first on Gardner's fumble. McNally was caught between first and second, Burns to Wamby to Burns to Sewell. Devormer out, Wamby to Burns. No runs, no hits, no errors.

JOINS SALES FORCE

A. B. Cone, a veteran automobile man, has joined the sales department of the Davis garage and is now on duty. Cone comes to Santa Ana from the San Joaquin valley, where he had headquarters at Fresno.

Gun and Locksmiths—Hawley's.

MAN IN MARIJUANA CASE GETS 30 DAYS

C. Rodroquez, of Talbert, was brought into the justice court here today on a charge of having marijuana in his possession. He was given thirty days in the county jail.

Pasquel Perez, of Smeltzer, arrested a week ago today at the Santa Fe station, late yesterday was given a term of 15 days. He was "afraid to go home in the dark." An officer charged him with vagrancy.

WATER DISTRICT LETS DITCHING CONTRACT

BYRON, Sept. 24—The Knightsen irrigation district has awarded a contract for $39,000 to John A. Modin and M. C. Preston of Byron for constructing all laterals and ditches in the 10,000 acre system. Some sixty-five miles of ditches will be dug. The contract calls for the completion of the work by April 1, 1922.

Work will be started shortly, and a portion of it will be sub-let. The board of directors of the Knightsen district have fixed the tax rate for 1921-22 at 1.28. The district lies in eastern Contra Costa county, eight miles from Byron. Water will be furnished by the canals of the Balfour-Guthrie company, irrigating the Brentwood section.

GROUND IS BROKEN FOR BURBANK PARK

SANTA ROSA, Sept. 26.—Ground was broken for the Luther Burbank Creation park here as one of the main events of Home-Coming week, with appropriate exercises.

Luther Burbank, assisted by ten smal lchildren, turned the first earth in the new forty-acre oak-studded block of land purchased by the public for the Burbank gardens park.

CAPITALISTS INSPECT NEW POWER PROJECT

GREENVILLE (Plumas Co.) Sept. 24.—Mortimer Fleishhacker, president of the Great Western Power company of San Francisco, accompanied by a party of New York capitalists have arrived here, en route to the Prattville section to make an inspection of the new hydro-electric project.

They followed the workings from Prattville down to Caribou, taking in the whole of the power company's system.

REUNION OF OVERSEAS WIVES BIG SUCCESS

CALGARY, Alberta, Sept. 24.—Calgary has just staged a novel reunion for the wives of soldiers who have settled on the land. Many of these wives were married in the Old Country during the war, and were new to Western Canadian conditions.

Calgary women conceived the idea of bringing them here during fair times and giving them not only a short course in household and farm economics, but also a good time socially. The affair has been a great success and will be made an annual event.

CARS TURN OVER.

Two badly damaged cars but no physical injuries to the drivers resulted at Anaheim today when a light car driven by Nunos Ramos collided with a heavier machine driven by Frank Mauerhan, of Anaheim, at the corner of North street and Placentia avenue, that city, and turned over. The accident happened at 7 o'clock this morning.

ANAHEIM LOSES.

Anaheim high school football team was today downcast but not discouraged over the results of its first game of the season, played yesterday, in which they lost to Los Angeles Polytechnic high school by a score of 27 to 0.

READY TO LEAVE

County officials and City Engineer Edward Dahl were ready today to leave tonight for Victorville, San Bernardino county, to inspect the plant of the Southwest Portland Cement company. The officials are going on invitation of the head of the cement company, who will show them through the plant.

BUICK PARADE OPENS NEW AGENCY IN S. A.

With a parade of Buick machines, including the famous Buick airplane car, the formal opening of the new Buick agency at 319 West Fifth street, took place at 1 o'clock today.

The Reid Motor company had assembled several models of the new Buick and this afternoon was receiving many interested visitors. The opening will continue tonight, when it is expected visitors will flock to the showrooms in large numbers to see the latest in Buick creations.

SACRAMENTO AFTER LEAGUE CONVENTION

SACRAMENTO, Sept. 24.—Sacramento delegates to the convention of the League of Municipalities at Santa Monica next week were instructed by the city council to request the league to hold a convention in Sacramento in 1922 or 1923.

The delegates from Sacramento will be Dr. E. M. Wilder, city councilman; Dr. George Joyce Hall, city health officer; Robert L. Shinn, city attorney, and M. J. Desmond, city clerk.

Because City Manager Clyde L. Seavey reported he might be unable to attend the convention, Robert L. Shinn was appointed alternate for him.

Desmond will demonstrate the proportional representation system of voting at the convention.

MAN IN EMBEZZLEMENT CASE IS SOUGHT HERE

Wells A. Rathburn, proprietor of a garage at Long Beach, today swore to a complaint charging S. M. Frank, address unknown, with embezzlement. Rathburn alleged that Frank bought a Ford automobile, paid $149 down, and still owes a balance of $447.87.

Because of the fact that Frank is supposed to be in Orange county with the car, the complaint was issued here instead of in Los Angeles county.

ODD FELLOWS PLAN BIG CONSOLIDATION

SAN JOSE, Sept. 24.—Plans to consolidate the three encampments of Odd Fellows in this territory into one big encampment are being discussed by members here. If this action is taken it will make the encampment one of the strongest in the order in California.

This question will be discussed at a meeting to be held in the hall of the order on East Santa Clara street on Tuesday evening. Following the discussion the royal purple degree will be conferred on a class of candidates by a crack degree team composed of members picked from the Santa Clara, Barnes and San Jose encampments.

The Buick Areocar is the product of the Howard Auto Co. San Francisco shops. It develops a speed of sixty miles per hour. It will head the Buick parade on Saturday.

City and County

"Beautifying Yards and Homes" is to be the subject of an address to be given at an open meeting of the Monday club next Monday evening at the home of Robert C. Northcross, 1318 Spurgeon street. The speaker will be Miss Florence Yoch, landscape architect, of Los Angeles.

* * *

Mrs. Julia E. Houghawout, of this city, has been granted a pension of $30 a month, and Asher E. Lankford, of Orange, has been given a pension of $15 a month, according to advices from Washington. Mrs. Haughawout is the widow of the Rev. Frederick S. Haughawout, who died recently at the family residence on Hickey street.

* * *

A Ford automobile belonging to Mrs. Ella Carpenter, of Santa Ana, and a Chevrolet owned by Fred Link, of Anaheim, today were in need of repairs, following an accident at the corner of Helena and Center streets, Anaheim, yesterday. The fender and body of the Chevrolet were damaged. Broken lights, springs and radius rod and a smashed right fender comprises the injury to the Ford.

* * *

Members of the Young Men's Bible class of Spurgeon Memorial church today were anticipating a large attendance at the class meeting tomorrow, as a result of the membership contest that is waging. The contest has aroused a keen interest in the development of increased attendance at the class meetings, it is said.

* * *

W. D. Ranney, manager and vice president of the Excelsior Creamery company, left today for the East on a business trip. He will visit Buffalo and Chicago and return by way of St. Paul, where he will attend the National Dairy Show. Ranney expects to be gone about a month.

* * *

Funeral services were held at 2:30 p. m. today in the Orange Methodist church for Mrs. Fannie E. Lighthall, 68, whose death occurred Wednesday at the home of her daughter, Mrs. R. F. Duryea, of Orange. Mrs. Lighthall had been a resident of Orange county for the past 26 years.

* * *

A number of Orange county editors were today planning to attend the annual meeting of the Southern California Editorial association next Monday in the Chamber of Commerce rooms, Los Angeles. The session will open in the morning at 9:30 o'clock and will continue throughout the afternoon.

* * *

San Juan Capistrano's motion picture "fans" were on the "qui vive" today for the new theater there will open tonight, with Harry Carey in "The Wallop" as the feature attraction. It is possible that Carey will appear in person, according to Fred Cason, owner and manager of the amusement house. The theater cost close to $10,000 and will operate five times a week, it is announced.

* * *

Mason Brown, of Anaheim, asked for permission of the railroad commission today to transfer to Harry D. Riley, of Anaheim, an automobile passenger line operating from Anaheim to the Anaheim Beef company plant.

* * *

Harold English, 14, son of John English, of King street, who narrowly escaped death Wednesday when he was dragged by an automobile, is reported recovering nicely. As soon as he recovers from the effects of the shock the doctors will make an X-ray of a cut on his forehead to determine whether the skull has been seriously injured. No complications are expected and the rapid recovery of the boy is assured.

* * *

Edward Stark, business man and bible student of wide reputation, will lecture at the Temple theater tomorrow morning at 10:30, on a subject that has been heard with much interest during the past year throughout the whole world: "Millions Now Living Will Never Die!" The lecture is to be based upon scripture, and the speaker plans to give prophetic, historic and sicentific evidence that the world is going through a change if dispensations, and the incoming dispensation will be the "golden age" that peoples and nations have hoped and prayed for. The lecture is free and no collection will be taken.

* * *

Miss Gladys Dillenbeck, of Hickey street, graduated from the Orange County Business college this week and was placed by the college in the office of the county purchasing agent at the courthouse, as office stenographer.

* * *

Brigadier and Mrs. Clarence Boyd, the divisional commanders of the Salvation Army for Southern California, accompanied by their sons, Harold and Kenneth, will conduct meeting at the Salvation Army tent on Sycamore street, near Third, Saturday evening and Sunday morning, afternoon and evening. Brigadier Boyd has been in Southern California about four years. The Salvation Army in the South under his command has been steadily advancing. Harold Boyd, the eldest son, is a student at the University of California, where he is studying medicine in order to give his services to the Salvation Army as a foreign missionary. Kenneth is still in school.

* * *

William Hewins, of St. Ann's Inn, in his schedule of liabilities and assets as filed with Ben Tarver, referee in bankruptcy, reveals assets of $324,543.39 and liabilities of $247,135.76, according to his statement today. The figures published yesterday with reference to his assets and liabilities were incorrect. Hewins holds a contract to purchase the hotel property at $185,000, and he says he has made payments on the contract.

* * *

P. E. Parsons, 70, is still in a semiconscious condition at his home in Orange, as the result of a fall down an elevator shaft in that city on the morning of September 16.

GREAT FAIR TO SURPASS BEST IN HISTORY

One hundred thousand square feet of exhibit space, filled with Orange county's choicest fruits, flowers, and products of every kind—that in brief is the story of the fifth annual Orange County Fair, which opens at Huntington Beach Wednesday morning at 10 o'clock and continues until Saturday night, presenting four days of entertaining and educational delights.

This year, as never before, the 65,000 residents of the district are co-operating to make the great products exposition a success and it will without a doubt surpass all previous efforts, no matter how commendable they might have been.

One hundred thousand square feet of displays that make the "home folks" gladder than ever they reside in this favored locality—that make the newcomer, fresh from the East, determine to locate permanently where the flowers bloom the year 'round and where the "winters don't come at all."

Everybody for It

The people of Huntington Beach, to a man, woman, boy and girl, have entered heart and soul into the Fair project and everything possible is being done to afford entertainment and comfort for the thousands of visitors, and to further the myriad interests of this "Nature's Prolific Wonderland." They have worked untiringly and as the opening day approaches they see the Fair taking a form more comprehensive than ever before.

All week the tents have been in place and a whole force of electricians, carpenters, and other workmen have been busy stringing wires, building booths, and doing all the other tasks necessary to the preparation of the Fair grounds, ready for the 25,000 or more people who are expected to see the fair next week.

Twelve thousand tickets, good only on Friday, Sept. 30 (School Children's Day), have been printed and are being distributed by County Superintendent R. P. Mitchell, one each to every student in the Orange county elementary and high schools. But inasmuch as the fair is a big educational feature and one that all children should see, the fair Committee has arranged that on the other three days of the Fair—Wednesday, Thursday and Saturday, that the children's admission shall be only 15 cents. This was done in the hope that the younger generation would be well represented at the exposition, along with the thousands of "grown ups."

There are three coupons to each ticket, so that the purchaser of a ticket may enter the fair tents in the morning, again in the afternoon, and again in the evening, all for one admission. Season tickets will be sold up to the opening day for $1.50 to accommodate those wishing to attend daily.

Bigger and Better

The various departments of the fair are larger than last year and several new departments have been added, including dairy cattle and dairy products, pigeon show, baby show, etc., and all the others have been enlarged to a broader plane.

The Farm Bureau, and its 1100 members, will deserve a great deal of praise for the continued success of the County Fair, for they are working untiringly and are gathering the agricultural, horticultural, and other exhibits from the countryside, all the way from La Habra and Yorba Linda down to Capistrano. These will largely be grouped in one of the main tents, as community exhibits, and alongside will be the Farm Bureau's own extensive and well decorated display, exemplifying the work undertaken during the current year as Farm Bureau projects.

Four bands, and some of the best vaudeville entertainers to be secured in Southern California, will help to entertain Fair visitors, along with the Merry-go-round, Ferris wheel, and numerous other features. A program of water sports, including some sensational featues by nationally known swimmers, along with local talents, has been arranged for every morning at 10 from the Huntingtno Beach pier, and on the closing night of the Fair an attraction of distinctly novel type is promised. Athletic events, sponsored by the Y. M. C. A., Boy Scouts, and school authorities will be held at various times during the week.

Four more days, and the greatest fair Orange County has ever held will be under way. The remaining days will see a hurry and bustle about the "bip tops," necessary to complete everything in readiness for the opening Wednesday morning at 10.

SOFT MOLASSES COOKIES

Three-quarters cup sour milk, one and a half cups molasses, half cup melted butter or other fat, five cups flour, two tablespoons ginger, one teaspoon salt, one and three-quarters teaspoons soda, one cup chopped raisins. Mix molasses, butter and milk; sift flour, ginger, salt and soda together; add to molasses mixture slowly, stirring constantly; add floured raisins and roll out to one-quarter-inch thickness on slightly floured board; keep the dough as soft as possible; bake in moderate oven twenty minutes. This makes about forty-eight cookies.

OATMEAL WITH RAISINS

One teaspoon salt, three cups boiling water, one cup oatmeal, half cup chopped raisins. Add salt to boiling water; add oatmeal slowly and boil ten minutes; add raisins. Cook in double boiler at least forty-five minutes. Any cooked or dry cereal is improved by the addition of raisins.

U. S. WILL PAUSE IN MEMORY OF UNKNOWN DEAD

Santa Ana and Orange county will join with the rest of the nation in honoring the unknown dead of the World War by pausing for two minutes during the noon hour of Armistice day, November 11.

President Warren G. Harding is preparing a proclamation for Armistice day, advices received here state, in which he will request that business of the nation be suspended for the two minutes while a grateful people turns in grateful remembrance of the heroes who laid down their lives to maintain the integrity of the United States.

Plans have been completed for bringing the body of an unknown soldier from France. It is expected to arrive on the cruiser Olympia November 9, and will lie in state in the capitol until the morning of November 11. It will then be escorted to Arlington cemetery.

The mourning party will include all holders of the Congressional Medal of Honor who come, one World War veteran out of every ten thousand from each state, and an officer and an enlisted man from each army and navy unit.

From American military posts everywhere in the world minute guns of mourning will sound from sunrise until after the burial ceremonies.

There has been considerable discussion among legion men and others on holding a big Armistice day celebration in Orange county and it is probable that plans will soon take definite shape.

HINTS FROM PARIS

PARIS, September 24.—It is hard to convince some women that their charms differ from those of others. This seems to be the idea of Jacques Worth, the noted dressmaker. He tells this story:

"I made Mlle. Spinelli, the actress, a gown that showed her form very plainly and she wore it to the races. It was designed to order. A lady of more than 40 years, rather plump, saw it and ordered one exactly like it. In filling the order I took the liberty of making slight changes my patron's physical being called for. Then I sent it to her home.

"The next day she called me on the telephone and was highly indignant that the gown was not exactly like the one worn by the actress.

"'What's the matter?' she demanded. 'Don't you think my shape is as good as hers?'

"'Madam,' I replied, 'you shall have the gown just as you wish it, if you desire it so.'

"And," concluded Worth, "the changes were made. Why not?"

Hats For Bobbed Hair

French milliners have recently designed hats meant to wear on heads where hair is bobbed. I have not seen any yet, but the makers say they will be "in keeping with the unusual back arrangement of bobbed hair." After these hats get started in Paris they will invade America, no doubt, and will be sold in stores where bobbed-hair clerks have been banned. Rather unique situation, I should think.

Rabbit Fur Popular

Rabbit fur is becoming the style in Paris for trimming gowns and wraps. Monkey fur, it seems, has become scarce. Society is adopting the new decoration without hesitation.

Fishing Tackle—Hawley's.

DELICACIES OF SOUTH ARE DESCRIBED

SHENANDOAH, Pa., Sept. 24.—One of the most enjoyable trips that we have made is the ride by auto from Pittsburg into Shenandoah by way of Mauch Chunk, called the Switzerland of America, says A. S. Wyman in the Los Angeles Times. In Mauch Chuck we were taken to one of the oldest hotels in this part of the country and while the party were visiting the coal mines and riding on the oldest railroad in the world, the Switch-Back, I made a visit to the kitchen to see if the cook would give me some recipes of the delicious dishes that attract the travelers to this hotel. The cook is an old southern woman who has been the head of the culinary department of this house for twenty years and the most popular dishes that she prepared are the ones that were the most popular twenty years ago. All of the meats, vegetables and fruits are grown on the hotel farm and are brought fresh to the kitchen daily. She, like nearly all others I have talked with, wants to end her days in Southern California, and in return for my information about California she gave me some of her pet recipes. They are old, but they are much better than many of the newer recipes used by cooks today.

Chicken Pudding

Her chicken pudding was a delight. It is made by stewing two young disjointed chickens in a saucepan with two tablespoonfuls of butter and a seasoning of salt, pepper and chopped parsley. When chicken is tender, drain off nearly all of the gravy and all the chopped giblets, season and place in a separate dish or sauce boat. Place in a baking dish layers of the cooked chicken and finely minced boiled ham and over all pour a batter made by beating three eggs into two cupfuls of sifted flour and one tablespoonful of melted butter. Bake in a medium oven and serve with the gravy. This also can be cooked in individual earthenware baking dishes, and, served with browned sweet potatoes, would make an excellent supper or luncheon.

Brunswick Stew

As she was from the South, I asked her if she knew how to make the Brunswick stew, famous throughout the Southern states as a barbecue dish. She told me that this stew was originated by the hunters and was made with tree squirrels, but she had always made it with chickens and had served it as a thick soup for supper, as it took all day to make.

For eight to ten persons allow two three or four-pound chickens; clean and cut them as for a stew and place in a stew pan with a tight-fitting cover and add a seasoning of salt, white pepper, red pepper and one finely chopped onion, cover tight and simmer for three hours. Remove from fire, extract all the bones and add two cupfuls of corn, fresh or canned, three cupfuls of diced potatoes, four cupfuls of tomatoes, one cupful of lima beans, and one peeled and diced carrot, one peeled and diced cucumber and one cup of sliced okra. Add two tablespoonfuls of butter, cover tightly and simmer until all the vegetables are so soft that you can not tell one from the other. Serve with timbales of boiled rice. Be careful that it does not burn.

Her corn on the cob is cooked in half milk and water with a little sugar added and she says that it will make old, tough corn tender.

Bread Pudding

For a bread pudding she covers four cupfuls of crumbled bread with four cupfuls of sweet milk and adds half of teaspoonful of mace and one teaspoonful of cinnamon. This is cooked until the bread is soft, care should be taken that it does not burn. When cold, add three well-beaten eggs, one pound of chopped seeded raisins, four tablespoonfuls of melted butter, one and a half cupfuls of sugar, and a quarter of a teaspoonful of salt; mix well, pour in a deep dish and bake in a quick oven. Serve with French sauce.

For the French sauce beat to a cream half a cupful of butter and one and a quarter cupfuls of brown sugar. When well creamed, beat in the yolk of one egg, place in a double boiler and cook until thick, stirring constantly. Remove from the fire and add half a cupful of orange juice and a grating of nutmeg.

Jackson Cake

Some of her cakes are sold to the town people and among the best are the Jackson and fruit cakes which are made with sour milk and cream. For the Jackson cake, beat to a cream one cupful of butter and two and a quarter cupfuls of powdered sugar. When well creamed beat in the yolks of five eggs and, when smooth and light add one cupful of sour cream, four cupfuls of flour sifted with one teaspoonful of soda, beat smooth and add the well-beaten whites of the five eggs. Flavor with lemon and bake in a shallow pan about two and a half inches deep. When cold, cover with chocolate icing.

For the fruit cake, beat to a cream one cupful of butter and one and three-quarters cupfuls of sugar, add five well-beaten eggs, one cupful of sour milk, one pound of well floured seeded raisins, half a pound of candied pineapple, cut in small cubes, one and a half cupfuls of seedless raisins and four cupfuls of flour sifted with a level teaspoonful of soda and one teaspoonful each of ground mace, cinnamon and nutmeg. Pour into paper-lined pans and bake in a moderate oven one hour. When cold, cover with white icing and decorate with walnut halves and pineapple cubes.

Ginger Cookies

For ginger cookies sift four cupfuls of flour with half a cupful of sugar, two tablespoonfuls of ginger, two teaspoonfuls of cloves and half a teaspoonful of salt; add to this half a cupful of lard one one cupful of mollasses. Work to smooth dough. Roll out on a floured board, cut with a biscuit cutter, stick with a fork and bake in a quick oven. Cheap and easy to make.

RAID HOUSES IN DRIVE TO GET MEXICAN GUNS

Marking the opening of a campaign through which he expects to disarm practically every Mexican in the county, Sheriff C. E. Jackson and Deputy H. S. Warner made a raid on four houses at Talbert last night and arrested one Mexican, Elmer Mendez, on a charge of carrying a concealed weapon.

Guns found in each of the Mexican homes were confiscated by Jackson. He told the owners that they had no business with the guns and that he would have to take the weapons and tag them for safekeeping.

Mendez had a .42 caliber revolver in his possession when searched by Officer Warner.

He was arraigned in the justice court this morning and gvien a sentence of 90 days in the county jail.

RAISIN ICE CREAM

One and a half cups raisins, one cup water, two cups milk, two eggs, half cup sugar, one teaspoon vanilla, one pint cream. Chop raisins and cook slowly in water until water has almost boiled away; heat milk; beat eggs and sugar together and add hot milk; cook in double boiler until mixture thickens, stirring constantly; add raisins and chill; add vanilla and cream and freeze.

Pure Lard 12½c today at Chaffee's.

Market News

United Press Leased Wire

EXCHANGE DULL IN SHORT DAY SESSION

NEW YORK, Sept. 24.—The Evening Sun financial review today said:

There was no important change in industrial shares in today's short session of the stock market with a few individual exceptions. U. S. Food Products was again under presure and international Mercantile was strong. The steels just about held their own which was better than the Petroleum group succeeded in doing.

Business in stocks was quiet and really carried little siginificance. The bond market displayed far more animation by comparison and the forward movement, which has been in evidence in the last fortnight or more, was continued.

Bank clearings this week, according to the estimate of the Financial Chronicle, totalled $6,777,454,088 against $7,176,876,962 last week and $8,487,190,487 in this week last year.

NEW YORK STOCKS

NEW YORK, Sept. 24.—Rails again featured the opening today. Southern Pacific opened at 80 7-8, up 3-8; Baltimore and Ohio at 30 1-2 gained 1-4 and Northern Pacific was up 1-2 at 79. One thousand shares of Big Four were taken at 40, up 2. This ordinarily is an inactive stock.

Steel Common made an early high at 80 1-2. Oil stocks showed little change.

Baldwin and American Locomotive were up, while coppers were fractionally higher.

Opening prices included:

Sinclair, 20, unchanged; Asphalt, 51-3-4, up 1-2; Mexican Petroleum, 103-3-4, unchanged; Bethlehem "B" 55 1-2, up 1-4; Reading, 73 3-4, up 1-4; Utah, 50 1-8, up 3-8; New York Central, 73-1-2, unchanged; Texas company, 36, up 1-8; General Motors, 10 3-8, off 1-8; Northern Pacific, 79, up 1-2; Southern Railway, 21 1-4, up 1-4; Studebaker, 74, off 1-8; Union Pacific, 123, up 3-8; Southern Pacific, 80 7-8, up 3-8.

The market closed steady.

Closing prices:

U. S. Steel, 79 5-8, off 1-2; Baldwin, 88 1-2, unchanged; Asphalt, 50 7-8, off 3-8; U. S. Rubber, 49 1-2, up 1-4; Tobacco Products, 67 1-2, up 5-8; Reading, 73, off 1-2; Southern Pacific, 80 3-8, off 1-8; Crucible, 64, up 1-2; Mexican Petroleum, 101 7-8, off 1 7-8; Studebaker, 74 1-2, up 3-8; International Paper, 79, up 1-2; Union Pacific, 122 1-4, off 3-8; Lehigh Valley, 54 1-4, up 1-2.

CHICAGO BOARD OF TRADE

CHICAGO, Sept. 24.—Prices on the Chicago Board of Trade went lower in today's short session. The decline was due chiefly to lack of demand and interest in the market on the last day of the week. The market opened irregular and then declined shortly after the first hour of trading. Provisions were irregular.

Septmeber wheat opened at 126, up 1-2 and closed off 2 1-2. May opened up 1-2 at 132 and closed at 130. December opened up 1-2 at 128 and closed off 2 1-2.

September corn opened up 3-8 at 52-7-8 and closed off 3-8. December opened at 52 7-8, up 1-8, and closed 3-8 lower. May opened unchanged at 57 and closed off 38.

September oats opened at 35 1-8 and closed off 1-8. December opened at 38-1-2, and closed off 5-8. May opened unchanged at 42 5-8, closing off 1-2.

GOLD RUSH FOR NEW FIELD IS BEGUN, WORD

United Press Leased Wire

LOS ANGELES, Sept. 24.—A delegation of newspapermen accompanied the small army of embryo gold-seekers leaving Los Angeles early today for the reported rich gold strike in the Santa Monica mountains.

The objective for the would-be miners was 320 acres of gold-bearing shale, reported here as having not yet been acquired by the Covington-Everett interests, which made the strike and secured title to 2140 acres traversed by the vein.

Dr. W. T. Covington, wealthy dentist, and W. J. Dean, miner and veteran of the Cripple Creek stampede of other years, remained in Los Angeles today, despite the threatening rush for their properties. They were completing arrangements for mining machinery to be shipped to the new strike at once.

Nick Everett, prospector, who with Dr. Covington originally discovered the shale vein, said to have proven rich in gold under seventy-five separate assays by Denver and Los Angeles mineralogists, is now on the property to prevent possible attempts at claim jumping in the expected invasion.

HURT IN TWO PLACES

CHICAGO, Sept. 24.—Mrs. Danda Zbach sicked Fido on Jacob Hagan, a peddler. The judge ordered her to pay $15 for damages to Hagan's feelings and trousers.

SENTENCED TO CHURCH

DENVER, Sept. 24.—Julius Epstein and Louis P. Pardue were found guilty of keeping a gambling house. They were sentenced to attend church every Sunday for six months.

CHANGES HIS LOOKS

GRAND JUNCTION, Colo., Sept. 24.—Jimmy Gordon climbed a painter's ladder to tell Charley Smith, the painter, how much he didn't like Charlie. County hospital surgeons say Jimmy will never look the same again. Charley will finish the job in a month or so.

House

Will meet and recess for three days.

WILD WEST GETTING TAME; JURORS HEAR HORSE THEFT CASE

MERCED, Sept. 24.—The wild West is no more.

William J. Ahern and Melvin Major, charged with horse-stealing, will go on trial before a judge and jury.

According to the testimony of Charles Griffin, he hitched a sorrel mare belonging to the David Saling ranch in front of a pool hall in Dos Palos. As he came out a few minutes later he saw one of the defendants riding away on the mare, the other accompanying him in a buggy.

Yet the legal proceedings in the case have been perfectly regular.

CHOCOLATE ROLL

Five eggs, beaten separately; five tablespoons granulated sugar; two tablespoons ground chocolate; one teaspoon vanilla; one cup whipping cream; two tablespoons powdered sugar; one teaspoon vanilla.

Beat yolks of eggs until creamy; add sugar gradually, constantly beating; add chocolate and vanilla; mix well; carefully fold in the stiffly beaten white of eggs. Grease a shallow baking pan and cover bottom only with well-greased paper. Pour in mixture and bake in a moderate oven until firm, about fifteen minutes. Turn on a towel, brush paper over with a cold wet cloth and removed. Roll as for jelly roll and cool. Whip cream, add sugar and vanilla; unroll the cake, cover with whipped cream and reroll. Serve with chocolate sauce.

Fresh Legs of Pork 22c today at Chaffee's.

DOCTOR'S STORY HITS ARBUCKLE DEFENSE PLAN

United Press Leased Wire

SAN FRANCISCO, Sept. 24.—Dr. Arthur Beardslee was eliminated today as the unknown quantity in the trial of Roscoe ("Fatty") Arbuckle for the alleged murder of Virginia Rappe.

The district attorney's office gave out a statement saying that Dr. Beardslee had made affidavit to the effect that when he was called to attend Miss Rappe he was convinced that she was suffering from internal injuries and recommended that she be removed immediately to a hospital.

Dr. Beardslee was the first physician called to see Miss Rappe after she was alleged to have been found suffering from great pain in Arbuckle's hotel room during the comedian's famous Labor day "party."

Doctor Makes Statement

Beardslee returned to San Francisco yesterday from a hunting trip in the Sierras and told his story late last night to representatives of the district attorney's office.

The state claimed Beardslee's testimony highly important to its case against Arbuckle. The defense, as usual, was silent.

It was believed that the defense had hoped Beardslee would give evidence which would strengthen its claim that Miss Rappe might have been injured through lack of proper medical attention.

Arbuckle's preliminary hearing was to be resumed at 10:30 a. m. today. The attorneys informally agreed the hearing would adjourn until Monday, as soon as the questioning of Al. Semnacher, Miss Rappe's former manager, was completed.

Semnacher, who yesterday turned himself into a witness for Arbuckle and threw the state's case against a snag, will continue his recital of the details of Arbuckle's party, at which he was a guest.

Club Women Give Views

Club women attending the hearing—in fact, they are the only ones who can secure seats in the courtroom—expressed themselves today as more impressed with the sincerity of the proceedings than previously.

"Truth will out, seemed to me to be the keynote of what I heard yesterday," Mrs. Myrtle McQuarrie, club woman, declared today.

But that was not the impression of another club leader who sat in the audience late yesterday and listened to the court order a witness not to answer a rather pointed question.

"They always keep back the most important things," this woman said as she fanned herself with a copy of a popular magazine.

"That's just what they do," whispered her neighbor in agreement.

COLORADO WOMEN FAIL TO BAN ARBUCKLE FILMS

COLORADO SPRINGS, Sept. 24.—The women of Colorado have refused to condemn Roscoe ("Fatty") Arbuckle by suspending the showing of Arbuckle films. A resolution to that effect, presented at the state convention of the Colorado Federation of Women's clubs, was voted down.

The convention decided to let the law take its course before acting on the resolution.

STUDIO CENSORSHIP LOS ANGELES THREAT

United Press Leased Wire

LOS ANGELES, Sept. 24.—Following a statement by city officials that censorship control of motion picture studios as well as of the pictures themselves was contemplated, the Metro Pictures corporation announced today that it would close its Hollywood studios until the question was settled.

"If the city attempts to take a hand in running our business we may be forced to leave Los Angeles and build a studio elsewhere," one official of the company was quoted as saying.

"A possible switch to Oshkosh, Wis., Milwaukee, or New York, is under consideration," Milton Hoffman, west coast manager, admitted.

"The Four Horsemen of the Apocalypse" and other large scale productions have been made at the Metro studios here.

ACCUSED SLAYER IN INSANITY PLOT, VIEW

United Press Leased Wire

ROSEBURG, Ore., Sept. 24.—Jail officials today were at a loss to account for the actions of Dr. Richard M. Brumfield, formerly of Indiana, accused murderer, whose alleged efforts to sham insanity reached a crisis yesterday when he attacked Jailer Hopkins, hurled curses and a chair at the deputy and threatened to kill him.

Brumfield refuses to recognize his lawyers, indignantly denies having a wife or children, and insists that Charles Cobb, in jail for three months at hard labor, is his father.

Basing his actions on his belief that his cellmate is his father, Brumfield flies into a murderous rage, according to Hopkins, when Cobb is ordered forth to his work. Cobb was arrested for moonshining.

Sheriff Starmre is convinced Brumfield is shamming insanity, while Attorney Rice, working on Brumfield's defense, is surprised, he declares, at his client's condition. He firmly believes he has gone crazy.

An aerial week-end fire prevention patrol has been instituted by the British Columbia provincial government to protect valuable timber on Vancouver Island and along the coast. The patrol will cover an area on the mainland for the province in addition to Vancouver island.

FIVE YEARS THE LIMIT.

Division of Districts

To equalize the competition so that each and every candidate will have the same opportunity to win an automobile, the territory covered by The Santa Ana Register has been divided in two districts, as follows:

DISTRICT NO. 1.—Includes all of the City of Santa Ana within the corporate limits.

DISTRICT NO. 2.—Includes all other territory covered by The Register in Orange County.

Candidates who enter and compete will be entered in the district in which they reside.

Advisory Board

The Register is determined to conduct this Circulation Building Campaign from start to finish in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interests of participants, and absolute honesty in all dealings is guaranteed.

However, not all wisdom lies within any one man or institution, and for that reason, an Advisory Board has been decided upon, whose functions shall be to decide any question of sufficient moment that may arise during the campaign, and from which a committee shall be selected to act as judges and count the votes the last night of the contest. The personnel of this board is as follows:

MAYOR JOHN G. MITCHELL

CHAS. SPICER, President Merchants and Manufacturers Association.

CHAS. F. SMITH, President Chamber of Commerce

O. A. HALEY, President Kiwanis Club

W. H. SPURGEON Jr., President Rotary Club

THE PATCHWORK QUILT
HAVE YOU A PIECE TO PUT IN IT?

MY WISH FOR YOU

Friends there are who will wish you health;
Others will wish you years of joy;
Some will hope for your boundless wealth
Where cares cannot annoy.
But I wish for you all the while,
Eyes that can weep, lips that can smile.

Health, though we prize it, is oft-times fleet,
Joy is a blessing that never stays;
Wealth cannot reach the mercy seat
Nor lengthen your earthly days.
These are the blessings I'd have you keep,
Lips that can smile—eyes that can weep.

For a brave heart speaks in the lips' sweet smile,
And a tender heart in the weeping eyes;
And the two will cheer many a weary mile
On the road to Paradise.
So this is the gift I would have you prize,
The smiling lips with the tear-brimmed eyes.

* * *

THERE IS AT PRESENT, more or less agitation of the question as to what trees shall be planted in the streets of the city, for those who have a vision of her future beauty are not content to let that beauty be of buildings alone, but wish those buildings to rise among the sheltering branches of heaven-kissing trees.

What is the quality of a tree that so endears it to the human heart?

Is it the splendid fervor with which it constantly lifts its head towards the heavens, or is it the clinging tenderness with which it sends its roots deep into the earth?

Whatever the reason, man has always loved and sought the trees, and much of the history, the beauty, poetry and symbolism of the world is woven around them, from the "Tree of Knowledge of Good and Evil," down to the "roof-tree" of little homes all over the land.

In Japan there is a pretty custom of planting a tree at the birth of a baby. This tree is watered and cared for tenderly, and happy is the mother of the little Japanese child whose tree flourishes and grows, for that is taken as a sign that all is well with the child.

Every care is bestowed on the tree until the marriage day of the child, when it is cut down, and, after being duly seasoned, is converted into a piece of furniture for the new home. Of course, it is then given the place of honor in that home for which it grew all through the years.

Trees have ever been the subject of song among the poets but probably no lovelier appreciation was ever voiced than that of Joyce Kilmer, that singing soldier, who gave his life so fearlessly on the bloody fields of France. He sang, and his song was called:

TREES

"I think that I shall never see
A poem lovely as a tree.

A tree that looks at God all day
And lifts her leafy arms to pray;

A tree whose hungry mouth is pressed
Against the earth's sweet flowing breast;

A tree that may in summer wear
A nest of robins in her hair.

Upon whose bosom snow has lain;
Who intimately lives with rain.

Poems were made by fools like me,
But only God can make a tree."

* * *

PET SUPERSTITIONS

It is unlucky to be one of thirteen guests at a dinner where food has been prepared for only twelve.

It is unlucky to walk under a ladder which stands over a deep mud puddle.

It is unlucky to break a mirror, for you'll have to buy a new one right away.

It is unlucky to put on the left shoe first and then find a big hole in your right stocking.

On the other hand it is very lucky to meet a cross-eyed man — you might have been the cross-eyed man for him to meet.

It is lucky to see a white horse and a red-headed girl, it proves that you aren't blind.

It is lucky to find a bent dime, also a straight one, also a battered one, also any kind of one at all.

* * *

Foolishness

Augustus Tutt
Is such a nut
He gives me quite a pain;
It hurts my ear
Each time I hear
Him saying "arrowplane."

Noted Dramatic and Dance Artists to Entertain at First Ebell Meeting

The season's activities of the Ebell society will formally begin Monday afternoon, when at 2:30 o'clock the first mass meeting of the society will be held at Elks' hall.

The new president, Mrs. John Clarkson, will be in charge with others of the new official regime, and there is no doubt but that every good Ebell will be there to welcome these new officers.

The program which has been arranged for the afternoon gives promise of unusual interest and entertainment. The Misses Marta Oatman and Anna Dowdall, instructors in dramatics and dancing, from the Egan Dramatic school, Los Angeles, with several groups of their pupils, are to give the following program:

1. Just like a Gypsy—Joseph Stern and Rita Cummings.
2. The Fool—Mavis Cooney.
3. Toe Interpretation—Elizabeth Angel.
4. Ashes of Roses—Jean Nash.
5. Visualization—Mia Marvin.

U. D. C. to Present Crosses of Honor

On Tuesday evening, September 27, the United Daughters of the Confederacy are to celebrate the birthday of Admiral Raphael Semmes, who was commander of the Confederate navy during the Civil War.

The affair is to take place at the home of Mrs. John W. Taylor, 406 South Birch street.

A fine literary and musical program, includes a talk by Mr. J. H. Jackson, head of the English department at the high school, and the presenting of crosses of honor to several Confederate veterans. The Daughters present these crosses, which are made from cannon captured by the Confederates during the Civil War, several times each year as little marks of courtesy and love to the "Boys in Gray."

Congregational Women Enjoy Program

The missionary department of the Woman's Union of the First Congregational church met in the church parlors Wednesday afternoon.

As the subject for the afternoon was the American Indian, the rooms had been appropriately brightened by Mrs. A. J. Crookshank and Mrs. E. M .Blake, with Indian rugs, shawls and baskets together with red and yellow dahlias.

Mrs. Ella Campau had charge of the musical program consisting of two piano solos by Mrs. Hamil entitled "From an Indian Lodge" and "1620," both by McDowell. Mrs. C. J. Woodford favored the ladies with two songs, "Pale Moon (Logan) and "I Found Him on the Mesa" (Cadman). Mrs. Campau also sang a hymn in the Indian and English languages.

The devotions were conducted by Mrs. Royce, after which the ladies listened to an interesting talk by the Rev. G. A. Vemnick, Protestant chaplain at the Sherman Institute, Riverside. Two Indian young ladies from the institute also spoke briefly.

After a business session, Mrs. C. F. Crose, presiding, the hostesses for the afternoon, Mesdames Tople, Mitchell, Robinson, Rowell and Berman sr., served light refreshments to an exceptionally large attendance.

Fourth Travel Section of Ebell Opens Season

The first meeting of the Ebell Fourth Travel section was held at the home of Mrs. F. D. Hawkinson, 412 West Second street, Thursday afternoon with seventeen members present.

As the roll was called each lady told of her travels during the summer, and it was found that the section members had traveled many miles since the last meeting held in June.

The leader, Mrs. Schmidt, spoke briefly to the members, urging them to cultivate that rare gift—the value of appreciation.

Mrs. E. M. Dozier read a most excellent paper on "Private and Municipal Parks in Southern California." As the study this year will include the whole of the state of California, the discussion included noted parks of the north as well as of the south.

Mrs. F. L. Andrews read a wonderfully fine paper on "National Parks," taking her audience on a word tour of the four which Caliclaims within her boundaries. At the conclusion of her paper she showed many fine pictures which had been taken in Yosemite this summer.

The next meeting will be held with Mrs. Cox at her cottage in Balboa, on the fourth Thursday in October.

Social Calendar

September 26 — Meeting, Ebell society at Elks' hall.
September 27—Meeting, W. C. T. U., at home of Mrs. G. J. Mosbaugh, 636 North Broadway, 2:30 p. m.
September 26-Oct. 1, inclusive—Better Homes exposition, under auspices of The Register, at Armory, 2 p. m.
September 27—Meeting, semi-annual Past Matron's association of Hermosa chapter, O. E. S., at Masonic Temple; surprise luncheon, 1 p. m.
September 27—Patriotic celebration, United Daughters of Confederacy, at home of Mrs. John W. Taylor, 406 South Birch street, 7:30 p. m.
October 8—All-day district meeting, California Congress of Mothers and Parent-Teacher association.

To Plight Troth Tonight at Home of Bride On North Sycamore Street

At 7:30 o'clock this evening Miss Kathleen Henrietta Tucker, daughter of Mr. and Mrs. A. L. Tucker, and Mr. Earl W. Hall, son of Mr. and Mrs. William H. Hall, of Orange, are to be united in marriage at the home of the bride's parents, 1102 North Sycamore street.

Simplicity is to mark the occasion, with only the immediate families present. The Rev. William J. Richards, of the Spurgeon Memorial church, South, is to read the pretty ceremony.

The bride's gown is of hand-embroidered pink and gray organdy. She will be unattended.

Immediately after the ceremony the young couple expect to go to the home of the bride's brother-in-law and sister, Mr. and Mrs. W. H. St. Clair, at Costa Mesa, and with them will leave early tomorrow morning for a week's outing at Big Bear.

After October 1 they will be at home in one of the bungalows in the new bungalow court, at 1114 North Sycamore street.

The bride has lived here about nine years and attended Santa Ana schools. The groom is a salesman for the Nichols-Loomis company.

Bible Class of Christian Church Has Birthday Party

The Women's bible class of the First Christian church, taught by Mrs. F. M. Gist, held their "Birthday Party" Wednesday afternoon from 2:30 to 5 o'clock, in the community house of the church, which was lovely with its decorations of zinnias, African marigolds and dahlias, with Mrs. M. E. Head and Mrs. T. D. King Knights in charge.

These parties are held every three months, the hostesses at this one being those whose birthdays come in the months of July, August and September.

Mrs. Charles F. Mitchell, the class president, and also one of the hostesses, took charge of the party and introduced each new member and all visitors.

A delightful program was given, consisting of a piano solo by Mrs. Fred Hall,, a song duet by Miss Myrtle Turtin and Mrs. James O'Brien, accompanied by Miss Clara Seton, and two comic readings by little Miss Hester Lee Moncrief.

After the program a large bouquet of African marigolds was given to Mrs. W. B. Williams, as her birthday came nearest the party date.

The next nearest was Mrs. Lillie Miller, who was given a beautiful bouquet of Golden West dahlias.

A jolly game of wits was played and the prize went to the hostesses.

Mrs. C. E. Phillips and a committee served apple pie a la mode to eighty guests.

The next party will be a Christmas affair given by those who have birthdays in October, November and December.

* * *

W. F. M. S. Preparing to Hold Annual Meeting Here

The First Methodist Episcopal church of this city is to be the setting for the thirty-third annual meeting of the Pacific branch of the Woman's Foreign Missionary society, which convenes on October 12 and continues through October 14.

The program promises to be fully as interesting as those of previous years. Miss Allan, who represents the Congregational church in Foochow, is expected to give an address, Mr. Malvin Rader, of the Philippine Islands, will also be one of the prominent speakers.

Four or five returned missionaries, in costume, will provide part of the entertainment, and Mrs. Leonard Fisher, who is considered one of the most able women in Methodism, will give an address.

On Friday evening, October 14, there will be a banquet given for the young folks belonging to the different branches of the society, to appropriately "wind up" the convention.

* * *

Ebell Current Events Section Open Season

The Current Events section of the Ebell society held its first meeting of the season at the home of the leader, Mrs. George Faul jr., 124 Buffalo street, yesterday afternoon.

Plans for the coming year were discussed. As formerly, the members will answer roll call with a current event, and there will be a general discussion of such topics after the business meeting.

Much interest was manifest concerning the charity work done by the section, and a committee was appointed to find out where aid is most needed. One plan that received hearty applause was that which called for a Christmas tree with gifts for needy children.

The constitution and bylaws were voted upon and accepted, dues for the year were fixed, and at the close of the business session, the hostess, assisted by Mrs. Fred Stever, served delicious refrehments to the following members:

Mmes. Roy Boberg, R. S. Chandler, Fred Chapman, John Irvin, A. W. Williams, Harold Yost, Kensil Brown, Ray Adkinson, H. M. Morrison, Nixon and Harvey Gardner.

The next meeting will be held on October 2, at the home of Mrs. Fred Chapman, with Mrs. R. S. Chandler assisting.

* * *

Pleasant Affair

Mrs. Fred Finuf entertained the members of her Sunday school class of the First Methodist church and their mothers last evening, at her home on Greenleaf avenue, which was gaily decorated with pink dahlias.

The girls gave a program consisting of readings, piano music and pantomime, which proved very popular.

The hostess served dainty refreshments at the close of the evening.

Junior College Faculty Receives Students at Home of Dean

About 100 students of junior college and members of the faculty and their family hob-nobbed last evening at the home of Mr. and Mrs. E. M. Nealley at Tustin, the affair being the annual reception of the college faculty to the students.

After everyone had become acquainted, Mrs. Hummel, wife of one of the new members of the junior college faculty, was heard in vocal selections, which were a delight to everyone.

Miss Phillips, of the Cumnock School of Expression at Los Angeles, who is a sister to Mr. Ernest Crozier Phillips, of the junior college faculty, entertained with a group of Italian dialect poems, which were highly appreciated.

Dainty refreshments were served at the close of the evening.

* * *

Afternoon Tea

The Baptist parsonage on North Spurgeon street was aglow with the choicest roses, dahlias and asters, yesterday afternoon, at the delightful tea, given by the ladies of the church.

About 100 ladies were present and were most cordially welcomed by the hostess, Mrs. O. S. Russell, assisted by Mmes. F. E. Reeves, F. L. Austin, J. S. Runyon, A. E. Davison, W. G. Gould, W. H. Cook, E. C. Rundstrom, and M. N. Holmes.

Miss Mildred Marchant entertained with a splendid piano solo, Miss Norma Wingood read, Mrs. H. M. Sammis sang, Mrs. Russell gave a piano selection, Mrs. Gould gave a short talk, and Miss Clem gave a lovely violin solo, accompanied on the piano by Miss Seaton.

After the program, tea, cake and candies were served from a prettily-appointed table in the dining room where the predominating color was pink.

A silver offering was taken and is to be put toward a fund to refurnish the church parlors.

* * *

To Hold Semi-Annual Meet

The semi-annual meeting of the Past Matron's association of Hermosa chapter No. 105, O. E. S., will be held at Masonic hall, Tuesday, September 27. A surprise luncheon will be served at 1 o'clock.

MACARONI SALAD

Cook half pound of macaroni until tender. Take half of it and place in beet pickle juice until it becomes a red color. Draw well. Put a layer of white macaroni on lettuce leaf, then a mound of beets. Place spoonful mayonnaise dressing on top. Makes very pretty salad. Chopped olives, pickles or celery may be added. if liked.

Fifty-four nurses are attached to the American forces in Germany.

Miss Ethelind Linden Is Happily Surprised at Pre-Nuptial Shower

Miss Ethelind M. Linden received the "surprise of her life" last evening at the home of one of her friends, Miss Myrtle Meyer, on South Broadway, when all of her feminine associates in the Orange County Title company office trooped merrily in.

Miss Linden, who lives in Garden Grove, is soon to become the bride of Mr. Harold Woodhouse of that city, and it was in honor of that occasion that her co-workers planned the lovely affair last evening.

Games and the hunt of the happy little bride-to-be for numerous packages that disclosed so many lovely things for her green box made the evening go all too quickly.

Dainty refreshments, carried out in the yellow color scheme which prevailed throughout the cozy rooms, were served to the following:

The honoree, Miss Linden, Mmes. Lee Eckley, Ray Shafer, and the Misses Dorothy Rengsdorff, Gladys McKim, Florence Crane, Mable Witner, Hattie Whidden, Mable Harrison, Esther Boose, Virginia Craig, Gertrude Carnahan, Amanda Thee, Myrtle Law and Myrtle Meyer.

Merry Birthday Celebration

A very enjoyable evening, which lasted into the wee sma' hours of the night, was the birthday party given last evening, in honor of the twenty-fourth birthday of Mr. Beverly Eggleton, at the home of Mr. and Mrs. Oscar Cochems, 310 West Second street.

Several tables of "500" were arranged, the evening progressing merrily and terminating with a delicious luncheon served by the hospitable hostess.

Others present were:

Messrs. and Mesdames Will Robbins and son, of Racine, Wis.; Walter McKean, Edward W. Cochems, Mrs. Anna Cochems and the Misses Evangeline and Florence Cochems and Mr. Edwin Cochems.

Personal

Charles G. Rowan, a newspaper man in Santa Ana in the pioneer days, and now connected with the San Diego Union, was in the city today, accompanied by his wife. The San Diegans came up to visit Mr. Rowan's daughter, Miss Rae Rowan, and his sister, Mrs. Carrie Fisk.

Mr. and Mrs. Emery Link are welcome newcomers to Santa Ana from Spring Valley, Minn., and are comfortably domiciled, temporarily, at 115 W. 18th street. Their son-in-law and daughter, Mr. and Mrs. N. C. Nelson, and an unmarried son are on the way by automobile. There are already a large number of people here from Spring Valley, who will join Santa Ana in a hearty welcome to their old friends and neighbors.

"SATAN, WHICH DECEIVETH THE WHOLE WORLD' has always used a "religious" method. It has been his most effective weapon. He perverts and discredits God's word but does it "religiously." Note his method.

GOD SAID
For in the day thou eatest thereof thou shalt surely die. —Gen. 2.17.

SATAN SAID
Ye shall not surely die. Ye shall be as gods.—Gen. 3, 4-5.

What a hold he got on the human race when he instituted idolatry through Nimrod and his wife Seramis. The Bible declares that sacrifices made in the various idolatrous systems are made to devils (demons, R. V.) I Cor. 10.20. Think of it. Human beings sacrificing to demons through the deceptions of heathen "religious" systems. Millions of the race deceived. "Take heed that ye be not deceived." Luke 21.8.

VIEWS OF GREAT MEN ON BIBLE ARE CITED

In a recent address on the subject, "Does the Present Day World Need the Bible," Judge W. H. Thomas presented an imposing array of witnesses from among the great minds of the past and the present. These witnesses testified in a remarkable way to the value and greatness of the Bible. As tomorrow is Rally Day in Santa Ana churches and Sunday schools it has been thought by some of the leaders that it might be helpful as well as fitting that the array of testimony collected by Judge Thomas be published in connection with the appeal of the Ministerial association for church and Sunday school attendance:

DANIEL WEBSTER: "I have read the Bible through many times, and now make it a practice to read it through once every year. It is a book of all others for lawyers, as well as divines; and I pity the man who cannot find in it a rich supply of thought and of rules for conduct. Philosophical argument, especially that drawn from the vastness of the universe, in comparison with the insignificance of this globe, has sometimes shaken my reason for the faith that is in me, but my heart has always assured and reassured me that the gospel of Jesus Christ must be a divine reality."

Veneration for Bible.

JOHN QUINCY ADAMS: "So great is my veneration for the Bible, that the earlier my children begin to read it the more confident will be my hopes that they will prove useful citizens to their country and respectable members of society. I speak as a man of the world to men of the world; and I say to you, Search the Scriptures! The Bible is the book of all others, to read at all ages, and in all conditions of human life; not to be read once, or twice, or thrice through, and then laid aside, but to be read in small portions of one or two chapters every day and never to be intermitted, unless by some overruling necessity."

WM. H. SEWARD: "The whole hope of human progress is suspended on the ever-growing influence of the Bible."

BACON: "There was never found, in any age of the world, either religion or law that did so exalt the public good as the Bible."

MILTON: "There are no songs comparable to the songs of Zion; no orations equal to those of the Prophets; and no politics like those which the Scriptures teach."

GOETHE: "It is a belief in the Bible, the fruit of deep meditation, which has served me as a guide for my moral and literary life. I have found it a capital safety invested, and richly productive of interest."

Make Better Citizens.

JEFFERSON: "I have always said, and I always will say, that the studious persual of the sacred volume will make better citizens, better fathers, and better husbands."

LANDOR: "To say nothing of its holiness or authority, the Bible contains more specimens of genius and taste than any other volume in existance."

NAPOLEON (on St. Helena): "The day with the same pleasure. No Gospel is not merely a book—it is a living power—a book surpassing all others. I never omit to read it every where is to be found such a series of beautiful ideas, and admirable moral maxims, which pass before us like the battalions of a celestial army. The soul can never go astray with this book for its guide."

U. S. GRANT: "Hold fast to the Bible as the sheet-anchor of your liberties; write its precepts in your hearts, and practice them in your lives. To the influence of this book we are indebted for all the progress made in true civilization."

CHIEF JUSTICE JAY: When dying he was asked if he had a farewell message for his children. He replied, "They have the Bible."

GARIBALDI (speaking of the Bible): "This is the canon that will today we do not lose the hold that make Italy free."

SIR ISAAC NEWTON: "I account the Scriptures of God to be the most sublime philosophy."

HORACE GREELEY: "It is impossible to mentally or socially mislead a Bible reading people. The principles of the Bible are the groundwork of human freedom."

Roosevelt's Opinion.

THEODORE ROOSEVELT: "I enter a most earnest plea that in our hurried and rather bustling life of our forefathers had on the Bible. I wish to see Bible study as much a matter of course in the secular college as in the seminary."

WILLIAM JENNINGS BRYAN: "The Bible is the word of life. I beg that you will read it and find it out for yourselves,—read not little snatches here and there, but long passages that will really be the road to the heart of it. The more you read the more it will bcome plain to you that things are worth while and what are not, what things make men happy—loyalty, right dealing, speaking the truth, readiness to give everything for what they think their duty, and, most of all, the wish that they may have the approval of the Christ, who gave everything for them,—and the things that are guaranteed to make men unhappy,—selfishness, cowardice, greed, and everything that is low and mean. When you have read the Bible you will know that it is the Word of God, because you will have found it the key to your own heart, your own happiness, and your own duty."

WILLIAM McKINLEY: (The words that he kissed when taking the oath of office as President of the United States) "Give me now wisdom and knowledge, that I may go out and come in before this people; for who can judge this thy people that is so great." 2 Chron. 1:10.

PRESIDENT HARDING: (Words kissed in taking oath of office) "What doth the Lord require of thee, but to do justice, and to love mercy, and to walk humbly with thy God?"

In closing his address Judge Thomas mentioned some of the great problems that are demanding attention right now. Six of these problems were mentioned: First, international disputes; second, immigration; third, capital and labor; fourth, crime and the criminal; fifth, race question; sixth, marriage and divorce.

"These questions," says Judge Thomas, "will continue to annoy us and bother us until as a nation we become familiar with the teachings of the Old Book regarding the same. When that time comes they will be settled. This means that none of these questions will be settled until settled right. None of them will be settled right until settled according to the principles laid down by Jesus Christ. The Bible urges the practice of the Golden Rule. May the God of our Fathers grant us the vision to see and the ability to perform in accordance with this urging."

AT CHURCH NEXT SUNDAY

If I knew you and you knew me,
How little trouble there would be,
We pass each other on the street,
But just come out and let us meet
At Church next Sunday.

Each one intends to do what's fair,
And treat his neighbor on the square,
But he may not quite understand
Why you don't take him by the hand
At Church next Sunday.

This world is sure a busy place,
And we must hustle in the race.
For social hours some are not free
The six week days, but all should be
At Church next Sunday.

We have an interest in our town,
The dear old place must not go down
We want to push good things along,
And we can help some if we're strong
At Church next Sunday.

Don't knock and kick and slam and slap
At everybody on the map,
But push and pull and boost and boom,
And use up all the standing room
At Church next Sunday.

—Selected

TOMORROW WILL BE BIG DAY IN CHURCHES

Tomorrow is Rally Day in Santa Ana churches.

With the Ministerial association of the city fathering the movement for a special effort to get out a large attendance at Sunday schools tomorrow the indications are that the churches, too, will have an unusual attendance tomorrow.

The summer season is over, schools have started, people are settled down for fall activities, and the occasion for a general assemblage of church forces for vigorous work this fall is at hand.

Rally day at the Sunday schools has been given a good deal of advance notice in the churches and otherwise. The Rev. F. T. Porter, pastor of the First Christian church, the Rev. P. F. Schrock, pastor of the First Congregational church, and the Rev. John Oliver, pastor of the First Methodist church, are the committeemen acting for the Ministerial association.

This committee has issued a statement including the following:

"The greatest moral movement in the world is in the Sunday schools, where spiritual democracy and love and justice are taught as a fundamental part of the Fatherhood of God and sacrificial sonship out of which grows a real brotherhood of service.

"If our children sit together in the common schools and learn the true lessons of sacrifice that made the flag they will become fellow citizens; and, if they sit in the Sunday schools and learn the lessons of fatherhood and sacrificial sonship in service, they will be brothers and citizens in the Kingdom of God."

The committee says, "Get ready for a great day in the churches Sunday."

CREAM WHIPS

Whip cream, sweeten and flavor with vanilla; put a generous tablespoon of any preserve, or crushed sweetened fresh fruit in sherbet cups or tall glasses; pile the whipped cream lightly on top and sprinkle with chopped nuts.

The secretary of state and the state historian of Alabama are women.

German services at 10:45 a. m. and English services at 7:30 p. m. Luther league at 7 p. m. Holy communion will be celebrated in connection with the morning service. Subject for the morning, "In What Sense Good Works Are Necessary Unto Salvation." Evening, "Safeguarding the Sacrament." Luther league topic, "Andrew the Apostle."

United Presbyterian Church—J. G. Kennedy, pastor. Rally day. Everybody invited to all services. Something special at every service. Bible school at 9:45 a. m. At 11 a. m., "Hidden Things That Will Be Revealed." At 7:30 p. m., "Revealed Things That Will Be Hidden." Young people at 6:30 p. m.

Methodist Episcopal Church, South, Spurgeon Memorial—The Red Brick Church, North Broadway and Church streets. Remember that Sunday morning will be observed as the great Sunday school rally day by all the churches of the city. We are going to expect every one in the Sunday school and every one who ought to be in the Sunday school there Sunday morning promptly at 9:30. Then we are going to have a special Sunday school day program and promotion at 10:50 a. m. Everybody come. Preaching at 7:30 by the pastor, Rev. W. J. Richards. Subject, "What a Man Loves." Epworth league and class meeting at 6:30 p. m. Prayer meeting Wednesday evening at 7:29 p. m. Help us reach the hundred mark.

FRUIT BAVARIANS.

Put sufficient canned or fresh fruit through a colander to make two cupfuls. Soak two tablespoons of granulated gelatin in one-half cup of cold water for fifteen minutes, then set dish over hot water to slowly dissolve the gelatin. Add powdered sugar to fruit to taste, the amount will vary with different fruit; add dissolved gelatin to fruit and stir until well mixed and sugar is dissolved; then set bowl containing mixture in a pan of cold water and stir until it begins to thicken. Whip two cups of cream, carefully fold it into the fruit mixture, and turn into a mold which has been dipped into cold water. Set aside in a cool place to become firm. To serve turn out of mold and garnish with a sauce made of sweetened mashed fruit.

MUD STAINS

If there are mud spots on your frock, let them remain until dry. If quite thick, rub off the top layer with a piece of wool, then brush the spot with a stiff brush. If any of the stain remains, it can be removed by rubbing a piece of raw potato over it.

The women in Italy work on the farms just the same as the men.

Divorce is unknown to women of the Isle of Jersey.

SEVEN OIL WELLS STARTED IN WEEK

According to the bulletin of the department of petroleum and gas, California state mining bureau, in the week ending September 17, seven new oil wells were started in Orange county, while ten in the county were tested for a water shut-off, three were listed for deepening or redrilling, and one was abandoned.

The wells started during the week were: At Richfield: Selby, Root and Hogue; Union Oil. At Huntington Beach: Argonaut, two, Standard, two; Texas Holding.

Tested for water shut-off were: At Huntington Beach: Petroleum Midway, three; Republic Petroleum; Blue Shale Oil and Mining; Miley-Keck; Invader; Standard. At Richfield: Petroleum Midway: Union.

The Petroleum Development at Richfield, and two wells of the Standard in Coyote Hills are listed to deepen or redrill.

Wells abandoned are the Petroleum Midway near Cypress and a well of the Union in Brea-Olinda field.

MOLDED FRUIT CREAM

Peel four bananas, mash and rub through a sieve; add the juice of one orange and a little of the grated rind, one tablespoon lemon juice and enough powdered sugar to sweeten.

Soak one tablespoon of granulated gelatin in half a cup of cold water about fifteen minutes; then dissolve over hot water. Add to the fruit mixture, stirring rapidly. Set bowl containing mixture in a pan of cold water or cracked ice and stir until mixtufe begins to thicken. Whip two cups of cream and fold into the mixture; pour into individual molds and set aside to become dry.

FRINGED HANDKERCHIEFS

While fringe is here and there and everywhere, why not the fringy handkerchief? Ravel away a fourth of an inch from a 12-inch square of colored linen. Draw other colored threads through an inch or so from the edge if more trimming than the raveled edge is desired.

STEWED RAISINS

One package raisins, two cups cold water, one slice orange or lemon. Place raisins and water in saucepan and bring to boiling point; add slice of orange or lemon and cook for thirty minutes. Sugar may be added if desired, but it is not necessary.

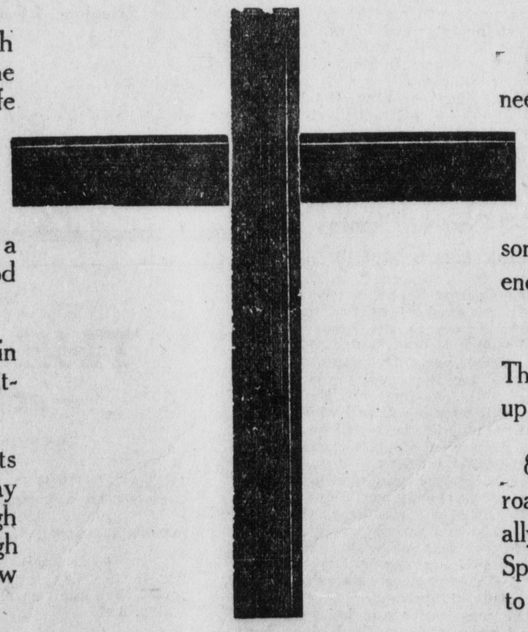

Ford owners should be very careful in removing the cylinder head not to dent or otherwise injure the large gasket. After the gasket has been removed, both sides should be carefully cleaned and then painted with a solution of gum shellac dissolved in alcohol just before it is returned to its place. In replacing the cylinder head the bolts should be firmly tightened and the engine should be run until the metal is thoroughly warmed up and then the bolts can be given another tightening all around.

Sunday School and Church Rally Day Tomorrow

All the Churches and Sunday Schools of Santa Ana join in a great common RALLY DAY

YOU ARE INVITED BY THE CHURCHES AND SUNDAY SCHOOLS TO GO TO SUNDAY SCHOOL AND TO ATTEND SOME CHURCH SERVICE TOMORROW.

EIGHT REASONS FOR GOING TO CHURCH AND SUNDAY SCHOOL TOMORROW

1. Community pride and loyalty. One of the things by which a community is judged is its churches. The prosperity of the churches is a barometer which indicates the moral and cultural life of a city. That is why the homeseeker chooses a city of churches.

2. Church pride and loyalty. The success of a church or Sunday school is built upon the loyalty of its membership. Not in a spirit of rivalry but in a spirit of loyalyt to your own, you want your church to make as good a showing as any other church in the city tomorrow.

3. The promotion of Christian unity. This Rally Day is not in the interest of any one church but of all the churches. Your attendance tomorrow will foster this spirit of co-operation.

4. For the sake of our children. The youth of Santa Ana is its greatest assets and responsibility. The church and Sunday schools are here to assist in the developing of this asset. Through religious education, wholesome recreation and in maintaining high moral ideals in the community this service is being rendered. Show your appreciation tomorrow.

5. For your own sake. You need to study the Bible. You need to worship God. You need the unlift and inspiration that will help you through the days of the coming week.

6. For your neighbor's sake. Your example will probably influence some other person tomorrow. You may render an inestimable service in influencing some man or boy to go to Sunday school tomorrow.

7. For righteousness sake. The forces of evil are rampant. The church has always led in the fight for righteousness. Stand up and be counted on the side of clean living tomorrow.

8. For civilization's sake. Humanity is standing at the cross roads. The future depends upon which road is taken internationally, politically, industrially and racially. The world needs the Spirit of Jesus to guide it right now. It is the business of the church to cultivate this Spirit. Will you show your interest tomorrow?

This invitation is issued by the Ministerial Association of Santa Ana. The pastors of the following churches are members of this organization.

WOMEN WHO CANNOT WORK

Read Mrs. Corley's Letter and Benefit by Her Experience

Edmund, S. C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicines but got no relief. I saw your medicine advertised in a little book, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. You may print this letter if you wish."—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

STAGE AND SCREEN NEWS

VIOLA DANA

By FRANCES DEANER

THAT LONG-HERALDED production, "The Affairs of Anatol," the first bona fide all-star feature ever made for the cinema—made in Southern California, too—is to be screened at the Temple theater, beginning tomorrow.

Thus, through the enterprise of Mr. E. D. Yost, manager of the Temple and Yost theaters, Santa Ana falls into line with the premier theater towns of the United States.

"The Affairs of Anatol" is to be released tomorrow in a limited numbers of cities for a "first run." Santa Ana is one of that number.

And what's the photoplay all about?

It is a searching analysis of the matrimonial and divorce problem, handled with the mastery that is Cecil B. De Mille's chief distinction, according to the outline of the picture which Mr. Yost gave me in an interview today.

"De Mille has developed a powerful story," said Mr. Yost. "It deals in real truths and he has added a comedy note that serves to relieve the serious vein, without in any way detracting from the vividness of the central theme."

Many Santa Anans, no doubt, have seen John Barrymore in the stage version of "The Affairs of Anatol." The screen production, based on the spoken play, is the work of Miss Jeanie Macpherson.

Wallace Reid and Gloria Swanson head the cast which includes:

Bebe Daniels, Elliott Dexter, Monte Blue, Wanda Hawley, Agnes Ayres, Theodore Roberts, Theodore Kosloff, Raymond Hatton, Polly Moran, Julia Faye and several others.

* * *

"SCRAP IRON," starring Charles Ray, which will be the attraction at the Yost the last of next week, has been acclaimed by critics the best picture in which this popular actor has ever appeared. It has plenty of comedy, but the story, itself, is a grippingly dramatic one, strongly tinged with pathos. Love of mother by her only son is the motif of the picture and it is based on Charles E. Van Loan's Saturday Evening Post story. Mr. Ray appears as John Steel and Lydia Knott as the mother. There is a good supporting cast.

* * *

CHARLES RAY also appears at the Princess the last of next week in "The Deserter."

VIOLA DANA, the effervescent little Metro star, whose work is a thing of undiluted joy to the Princess patrons, so Manager Charles Walker tells me, is to appear at that popular playhouse next week. Gareth Hughes, the brilliant young featured player of the Metro force, who was "loaned" to Famous Players-Lasky to appear as "Sentimental Tommy," is to be seen in the leading role opposite the star.

"Life's Darn Funny" is the title of the production which was scenarized from "Caretakers Within," a Saturday Evening Post story by Christie Jope Slade. If you have read the story, you know the theme of the picture.

It is an interesting little romance concerning a young violinist and her struggles in attempting to storm the artistic world and of her efforts to place a fellow-artist on the highway of success.

* * *

AFTER A LAPSE of several years, Sydney Chaplin, who made many friends in his old Keystone days, returns to Santa Ana tomorrow to appear at the West End theater in "King, Queen, Joker." Lottie MacPherson heads the supporting cast.

The story was written and directed by Mr. Chaplin. Manager H. E. Yost of the West End says it is a picture that is worth going far to see, adding, "it is a highly relishable and thrilling production in which Mr. Chaplin plays two roles, that of a king and a barber."

The story, essentially melodramatic, was written and directed by Sydney Chaplin, who is a brother of the celebrated Charles.

* * *

IN RESPONSE to repeated requests, Mr. Yost is screening "Humoresque" next week at the West End. There's just one reason why "Humoresque" takes its place among the big pictures of the day. It is a great pictures because it is a human picture. It brushes away superfluities and goes straight to the heart. While you are seeing it you forget it is not real. It is woven from the stuff of which human lives are made.

* * *

LOUISE HUFF comes to the Yost tomorrow for the day only in "The Dangerous Paradise," a boothtarkington sort of a story portraying the adventures of a sub-deb who fancies she is over-chaperoned. Harry Benham and a good cast assist in the adventures.

WEEK'S CALENDAR

TEMPLE

All week—beginning tomorrow—"The Affairs of Anatol."

YOST

Sunday—Louise Huff in "Dangerous Paradise;" vaudeville.

Monday—Christian Science lecture.

Tuesday and Wednesday—Meiklejohn and Dunn vaudeville road show; "A Heart to Let," with Justine Johnstone.

Thursday and the remainder of the week—Charles Ray in "Scrap Iron."

WEST END

Sunday, Monday, Tuesday—Sydney Chaplin in "King, Queen, Joker."

Wednesday and Thursday — "Humoresque," with Vera Gordon, Alma Rubens and Gaston Glass.

Friday and Saturday—Enid Bennet in "Keeping Up With Lizzie."

PRINCESS

Sunday and Monday—"A Yankee Go-Getter" with Neva Gerber and Ben Wilson.

Tuesday and Wednesday—Creighton Hale and Mollie King in "Her Majesty."

Thursday and Friday—Viola Dana in "Life's Darn Funny."

Saturday—Charles Ray in "The Deserter."

* * *

A WANT "AD" and a young man who wanted the job advertised form the axis around which the action revolves in "A Yankee Go-Getter" coming to the Princess tomorrow. It is a swift-moving drama, said to be fairly bristling with action and mystery and, of course, good old Yankee romance.

* * *

ENID BENNETT, featured star in "Keeping Up With Lizzie," who comes to the West End next week, is the only Australian girl of stellar quality in the pictures. Furthermore, she is said to be the only star in captivity who steadfastly refuses to talk about herself or comment on people and things for publication. In private life she is the wife of Fred Niblo, one of the really big directors, and the life of the two in their home at Beverly Hills is said to be ideal.

This modest Anzac girl finds herself in this day of passing stars with an unbroken record of clean pictures behind her and with popularity unabated and luster undimmed.

* * *

DO YOU remember Creighton Hale, who was with Pearl White long ago in her serials? And beautiful Molly King? They are coming to the Princess next week in "Her Majesty," a production which Mr. Walker declares is "very fine, indeed."

Wallace Reid and Gloria Swanson in a scene from "The Affairs of Anatol," and, at the left, Agnes Ayres, one of the twelve stars who appear in the production, which has its premier at the Temple tomorrow.

* * *

IN SEVERAL scenes of "A Heart to Let," Justine Johnstone is to be seen masquerading as an elderly woman, with her hair in ringlets and other feminine fripperies of the 1860 period. She will be at the Yost next week. The story, by the way, was scenarized from the popular novel, "Agatha's Aunt," by Harriet Loomis Smith. Harrison Ford plays opposite Miss Johnstone.

* * *

FERRIS HARTMAN is coming to the Yost theater next Tuesday night as the headline attraction of the Meiklejohn and Dunn vaudeville road show, according to word received from Mr. Meiklejohn just as we are going to press.

This is just the 'touch" needed—truly Californian, for Ferris Hartman's name has been a household word up and down the state for the past quarter of a century—just the "drop" necessary to fill the local theatrical cup to its very brim for the big opening week of the fall and winter season.

Hartman has taken the story of "The Toy Maker"—that fine old music comedy of his—and has converted it into a revue suitable for the vaudeville stage and it is in this vehicle that he will renew his old-time acquaintance with Santa Ana play goers. He has spared no expense in perfecting this pocket-edition of "The Toy Maker," Mr. Meiklejohn says, and it is scheduled for Pantages circuit immediately after being shown here.

Several other good numbers are to be staged Tuesday night, also, including Mock and Deem, comedians from the Loew circuit, and the Three Jacks, harmony singers, who are returning by special request, according to Mr. Meiklejohn. These are the singers who like to be billed as "a thousand pounds of harmony."

SPECIAL SERVICE BY REGISTER CORRESPONDENTS

ORANGE COUNTY NEWS

"THE BIGGEST LITTLE COUNTY ON EARTH"

WESTMINSTER

WESTMINSTER, Sept. 24.—Mrs. Georgia Holmes has accepted a position in the telephone exchange in Fullerton where her sister, Mrs. Mattie Wilson, is employed. They have rented a house and will live there instead of driving from here.

The Parmeley ranch northeast of town, has been subdivided into lots 50x150, which have been placed on the market.

Work on the Westminster company's oil well is at a standstill owing to an accident. It is reported that the drill rods parted 1000 feet below the surface leaving approximately 3400 feet of drill rods resting on the bottom. The lights have been out since Sunday night. It is reported that the plant will be quiet until other fishing tools are secured.

The grammar school has an attendance of 208, with others still coming in. This averages over 40 pupils to each of the five teachers.

Mrs. Eugene Edwards, of Wintersburg, and her sister, Mrs. E. A. Ward, of El Monte, spent Wednesday as guests of Mrs. W. J. Edwads.

Miss Marjorie Byram left Tuesday to attend Occidental college.

An automobile was overturned Sunday afternoon at the corner one-half mile east of town. It was not learned whether any one was injured.

DESIGNING, French styles. Making a specialty. Hats remodeled. The Frances Hat Shop, 433 Spurgeon Bldg.

Our Quality is the best, but cheaper than the rest. Lees Luncheonette. Hill's Market, 4th and Broadway.

Don't miss seeing the Buick Areocar tomorrow noon at the head of the Buick parade at the plaza.

EL TORO

EL TORO, Sept. 24.—The Ladies' Aid society have changed their name from the Ladies' Aid society to the "El Toro Women's Club."

Mrs. Milo Stevens and Mrs. A. Tropp entertained at the home of the former Wednesday, September 21.

The ladies spent the afternoon sewing for the hostesses.

Refreshments were served to the following:

Mrs. Marie Gockly, Mrs. Rebecca Boynton, Mrs. R. Waterman, Mrs. F. M. Garden, Mrs. Anna Lapitich, Mrs. Francis Bennett, Mrs. Bennie Osterman, Mrs. Charlie Balsley, Mrs. Harry Swartz, Mrs. Jack Robertson, Mrs. Clark, Mrs. Van Whistler and the hostesses, Mrs. Stevens and Mrs. Tropp, of El Toro, Mrs. Nellie Munger, of Santa Ana, and Mrs. John Osterman and Mrs. Annie Ahern, of Tustin.

Visitors were:

Mrs. Roy Silkwood, of Santa Ana, Mrs. Liouse Knowles, of Pasadena, Mrs. Jack Cook, Miss Mildred Balsley, Mrs. Scott, Mrs. Abbott and Mrs. George Osterman. One new member was taken in (Mrs. Charlie Scott) and one old member rejoined —Mrs. George Osterman.

The next meeting will be held in two weeks at the home of Mrs. R. Waterman, where Mrs. Waterman and Mrs. Walter Tait will entertain.

Mr. and Mrs. G. W. Conaway and son, Floyd, called at the home of Mrs. Sam Cranford Wednesday evening.

Mrs. Sam Cranford called at the home of Mrs. A. Tropp Thursday afternoon.

Almer and Randolph Baatz, of Hemet, visited recently with their cousin, Raymond Prethero, of El Toro.

Phone 237 for good dairy products,

PERALTA

PERALTA, Sept. 24.—Mr. and Mrs. Hurd spent the evening recently with Mr. and Mrs. Kerr.

Mr. Bradish spent Sunday with his son Shirley, at the home of Mr. Kern.

Mr. and Mrs. Bardwell and Mr. and Mrs. Sanders spent an evening with the Luther family recently.

The Rev. J. H. Leeper has been confined to bed several days with a severe cold. His daughter, Mrs. Hill, came home from school last week, on account of illness, but was able to return Monday.

Mr. Kern and family spent Saturday with relatives in Orange.

Mr. and Mrs. Luther and their son Roy, spent Sunday at Arlington, Mrs. Luther's former home.

Mrs. Cornelius and family have moved to Anaheim, where they expect to make their future home.

Mr. and Mrs. Carter spent Sunday at the home of P. Letien and helped celebrate Margaret's eighth birthday.

A. C. Casey moved his family from the house near the school house to Irvine station. Their neighbors, Walter Posteds and Charles Nelson visited them Sunday.

Mrs. Harbottle is visiting at Downey.

Mrs. Sterrett spent the week end at Santa Ana.

Home made candies at home made prices. Nougats, fudges, creams Lion Candy Kitchen, 211 West 4th.

We are prepared to do your hemstitching, while you wait, if you want it. All work must give satisfaction. 608 N. Main.

Gun and Locksmiths—Hawley's.

GARDEN GROVE

GARDEN GROVE, Sept. 24.—The Garden Grove Farm Center will hold its first meeting of the season Monday evening, September 26, at 8 o'clock, in the Y. M. C. A. hall.

The following program has been arranged for this meeting:

Vocal music—Mr. and Mrs. W. B. Harper.

"The Employment Bureau"—J. F. Jackson.

"The Farm Bureau Work"—Mr. Rafferty, secretary manager.

Directors report—J. O. Arkley.

Other topics of interest will be taken up at this meeting and a good attendance is urged.

The local fair committee announces that those having produce exhibits for the Orange county fair, should leave same at the office of the Garden Grove Lumber company not later than next Tuesday.

Anyone having curios, historic or otherwise, fine fancy work and art of all kinds, and is interested in the success of the Garden Grove Farm bureau exhibit, please notify the chairman of this department, Mrs. C. C. Violett, at once, or leave at the post office.

Miss Margaret E. Livingston, county librarian, was a caller in Garden Grove last Wednesday on business in connection with the establishment of a branch library here, which it is expected will be in operation within the next few weeks.

It has not as yet been definitely decided where the headquarters for the branch library will be located. A local custodian will be appointed here within a short time.

Miss Livingston is very enthusiastic over the splendid co-operation she is receiving in her work throughout the county.

ORANGE

ORANGE, Sept. 24.—Mr. and Mrs. Fred Phinney and Mrs. B. F. Phinney, of Santa Ana, visited friends in Orange Friday.

Mrs. Bell, of 155 South Orange street, is reported to be quite ill at her home.

Miss Bearce and Miss Cook were luncheon guests of Mrs. D. A. Casey of South Orange street recently.

Jack Porter, of South Batavia, is at the Fullerton hospital, having undergone an operation there Thursday morning.

Harry Brown, who has been visiting his mother, Mrs. S. P. Kane, left Friday for Alameda.

Mrs. Ella Robinson, of the Sunshine Inn, entertained at dinner yesterday, her guests being Mr. and Mrs. Fred W. Carmachiel and Miss Illa Carmachiel and Mrs. G. Thornburgh.

Miss Carrie Preston was a business caller in Los Angeles today.

George Howard was a recent visitor in Long Beach.

Mrs. Annie L. Bibber attended the afternoon tea given in Santa Ana yesterday at the home of Mrs. Otto S. Russell, 1018 Spurgeon street.

Dr. S. P. Freeman, of Santa Ana, was a business caller here.

The condition of Mr. P. E. Parson continues very grave, he having suffered a severe chill this morning. His daughter, Mrs. Albena Herron, of Chicago, arrived earlier in the week, but she has not been recognized by her father, and it is stated that he has not been conscious at all since the accident.

Miles Shoe Co. sells Red Goose school shoes. Remember they're solid leather

FIRST WALNUTS FORWARDED BY ASSOCIATION

The first shipment of walnuts from the Santa Ana Walnut Growers' association packing house was made today.

It consisted of one carload of No. 1 nuts, containing 240 sacks of 100 pounds each. The shipment was billed for New York.

The Santa Ana house started packing operations Thursday and was today picking up speed as more and more of the "brown beauties" from groves in this vicinity were brought to the association's doors.

With the opening of the Santa Ana house the 1921 walnut campaign here is given impetus. Before the Santa Ana house closes for the season it is estimated that between 1800 and 2000 tons will have been shipped from here.

Come in Slowly

Walnuts were today still coming in slowly at the packing house. They are, however, of much better quality than was at first thought. About thirty women are busy at the Santa Ana house, culling the walnuts that have come in. In addition between forty and fifty men are employed. The number of employes will reach close to 250 men and women when the packing season gets fully under way.

An opening price for the walnuts this year will be determined Wednesday, September 28, in Los Angeles, according to an announcement today by Harry W. Lewis, president of the Santa Ana Walnut Growers' association.

Representatives from all of the thirty-five packing concerns in Southern California will meet at 9 o'clock that morning in the offices of the central association in the Terminal building on East Seventh street, Los Angeles, and decide on the most acceptable price to open the season.

Price May Change

The price for the season does not necessarily hinge on the opening price, however, although last year's first amount was continued throughout the entire season. Last year's prices were: 25½ cents for Diamond best brand, 22½ cents for No. 1 and Golden State brands and 16½ cents for No. 2.

At the meeting of the association representatives, sales managers' reports on the general Eastern market conditions and a vote is taken on the most acceptable opening price.

Enormous crops of walnuts are now coming into the United States from Chile, but their importation will not tend to change the price on the crops grown here, it is said. In past years the Chile import never amounted to more than 2000 or 3000 tons. It is expected that about 35,000 tons will be shipped into the United States this season.

WINTERSBURG

WINTERSBURG AND SMELTZER, Sept. 24.—The Golden West Warehouse company under the management of H. T. Dunning opened for their usual run of beans on Tuesday. Eight women are employed at this time and about three months will be required for the bean cleaning. It is probable more women will be employed later.

Mr. and Mrs. Otis Taylor spent Sunday at Del Mar.

Miss Mary Stone spent the week-end in Santa Ana as a guest of Dr. Boyd and Miss Rosa Boyd.

Miss Marietta Strader passed the week-end at her home in Pasadena.

The A. Ruoff family motored to Watts on Sunday afternoon.

Mrs. Ed Moore, of Santa Ana, spent Thursday night and Friday as the guest of Mr. and Mrs. G. M. Roberson, who took her to her home on Saturday evening.

Thresher At Work

The Callens threshing outfit moved to this locality on Tuesday afternoon and commenced threshing for W. E. Chilson.

The Golden West company have been threshing since Monday in this vicinity.

Mr. and Mrs. L. J. Saban and Mr. and Mrs. J. D. Powell, all of Colton, spent Saturday night and Sunday with Mrs. Powell's parents, Mr. and Mrs. George Gothard.

George Woodington, of Coalinga, will spend the next two weeks at the home of his brother, H. Woodington, and assist in the beet harvest, running the tractor.

Mrs. H. J. Powell (Gladyce Thornton) of Colton, is spending the week with her parents, Mr. and Mrs. Arthur Thornton.

Mr. and Mrs. Elmer Gothard and family and Mrs. Mary Clemens spent Sunday in Fullerton with Mr. and Mrs. George Gno.

The Standard Oil company is erecting large tanks at their Torrance well. It is expected a production test will soon be made, as the well has shown strong indications of a good flow of oil. W. T. Taylor has been digging some holes at this well the past week.

Personal Notes

Mrs. George Gothard went to Los Angeles on Monday to spend a few days with Mr. and Mrs. L. W. Buchanan (Mary Gothard.)

Mr. and Mrs. G. M. Roberson and Mrs. Jerusha Harlan, mother of Mrs. Roberson, spent Sunday in Los Angeles at the John Meek home. Sam Wilson, who drove them to Los Angeles, spent the day in Pasadena with friends.

Mr. and Mrs. H. Woodington and Sunday at the home of Mr. and Mrs. Charles Dickson in Santa Ana. In the afternoon the party motored to Capistrano.

Week-End Guests

Mr. and Mrs. Collins, of Baldwin Park, passed the week-end at the home of Mr. and Mrs. Andrew Moore. Mr. Collins returned home on Monday and Mrs. Collins and little daughter motored home on Tuesday with Mr. and Mrs. Moore, who spent the day in Los Angeles. Mrs. Mattie Ward, of Alhambra, who has spent the past three weeks in this vicinity, was also a guest of the Moores on the Los Angeles trip, returned to Alhambra.

Mrs. Ward, of Pomona, is spending the week with her brother, Eugene Edwards, and family.

Mr. and Mrs. Elmer Eurner and Miss Alberta and Jack Turner were guests on Sunday at the William Slater home.

SEEK MOTHER OF DEAD MAN WITH OCEAN RADIO

Carrying their tidings of death, wireless messages were being flashed over mid-ocean today, as operators sought to get in touch with the steamer upon which Mrs. E. R. Hill, of Norwalk, whose son was killed in an oil derrick accident, was speeding toward Honolulu, all unknowing of the tragedy that had come to her.

Mrs. Hill sailed Wednesday, and Thursday night her son, Arnold W. Hill, also of Norwalk, fell from a derrick on the Murphy-Coyote lease near Fullerton, where he was employed by the Standard Oil company. He never regained consciousness and his death followed that evening at 9:30 at an Anaheim hospital.

Inquest Held

At an inquest held late yesterday afternoon at the Backs and Terry undertaking establishment, Anaheim, death was pronounced to be "due to a basal fracture of the skull received by accidentally falling from an oil derrick."

The jury was composed of R. B. Ingram, H. P. Tobin, C. C. Berger, C. W. Chamberlain, H. A. Tompkins and C. E. Robinson.

Charles H. Garr, of Norwalk, father of Hill's young wife, was present, and made such funeral arrangements as were possible before hearing from the mother.

The plan which the family hopes can be carried out, is for Mrs. Hill to transfer in midocean to a homecoming steamer and return directly to Norwalk for her son's funeral.

May Not Return

If this is impossible and she has to continue on to Honolulu, it was stated that the funeral arrangements would be completed at once, as passenger lists are so crowded that it is thought there would be small chance of her being able to make reservations for a return trip for many weeks.

Hill was 30 years old and left a wife and a three-year-old child.

STATE BIDS FOR HIGHWAY WORK ARE OPENED

That widening and strengthening of the state highway from the north city limits of Fullerton north and west to the Orange county line is contemplated by the state highway commission as an immediate improvement, was disclosed today with announcement that the commission at Sacramento had opened bids for the construction work. Six bids for the work were submitted and all were taken under advisement. The bidders and amounts were as follows:

Riley and Peterson, San Diego, $54,494; B. R. Ford, Santa Ana, $56,145; George R. Curtis, Los Angeles, $64,920; Wells and Bressler, Santa Ana, $67,652; J. G. Beckjord, Los Angeles, $81,508; Francisco and Ellington, Bishop, $97,691.

The state is to furnish all material except the rock and sand used in surfacing work. The cost of the material as estimated by the commission engineer is $64,166. This, with the low bid submitted, would make a total cost of widening and strengthening the 4.8 miles between the two points $130,311, or approximately $30,000 a mile.

The improvement is to consist of 8-inch concrete shouders 2½ feet wide, with the old roadbed of 18 feet between the two shoulders filled in with 2½-inch asphaltic surface, for a distance of two miles, starting at the "Pickering corner," which is at the most northern turn on the state highway north of the main highway east and west through La Habra. This class of improvement will continue to the county line.

The distance of two and one-eighth miles between the Fullerton city limits and the corner will be improved with 8-inch shoulders of the same width as the other, with four inches of concrete poured on top of the old pavement between the two shoulders.

The additions will make a paved roadbed 23 feet wide, with 8-inch solid concrete pavement from Fullerton to the Pickering corner, and 4-inch concerte base and 2½-inch asphalt surface from the corner to the county line.

Specifications under which the bids were estimated provide that the contractor must remove present surface, where there is any, and fill in broken parts of the base with concrete where necessary.

The bids were opened last Monday. Action was deferred until September 28.

CHRISTY WILL QUIT ILLUSTRATING, WORD

NEW YORK, Sept. 24.—Howard Chandler Christie has announced that he is retiring from the field of magazine illustrating, in which he gained fame and fortune. He will devote his time exclusively to portrait painting.

Pointing to a recently completed portrait of Chief Bacon Rind, of the Osage Indians, in his Hotel des Artistes studio, Christy said he had been commissioned to paint five more portraits of noted Indians of Oklahoma, all of them now vastly wealthy.

He is starting three new portraits this week. Scores of magazine executives who are familiar with the amazing speed with which the noted artist works were hopeful that he would not desert entirely the field in which he ranks among the foremost, but Christy decided otherwise.

ASSISTANT TO PASTOR OF METHODIST CHURCH HERE ASSUMES DUTIES

The Rev. James H. Hughes, until recently assistant pastor of the First Methodist church of Phoenix, Ariz., today assumed his new duties as assistant pastor of the First Methodist church here, following his arrival from the Arizona city.

"I like Santa Ana very much," said the Rev. Mr. Hughes, "and am looking forward with much pleasure to my work here."

The Rev. Mr. Hughes will have charge of the social activities of the young people and hopes to become active in Boy Scout work here. At Phoenix he organized the Boy Scouts and Camp Fire girls and was extremely active in the work.

Women outnumber men in New York state by more than 10,000.

Silk stockings are claimed to protect their wearers from lightning.

USED CAR BARGAINS

Here are a few of the many "good buys" we have in reliable used automobiles.

1919 Ford Touring, starter block $325
1920 Chevrolet Tour, new tires, 2 bumpers mirror $375
1919 Dodge Roadster, $725 .....
1917 Dodge Touring ..$500
1917 Buick 4 Tour, thoroughly overhauled, new tires $500
1919 Reo Tour, repainted $750
1918 Oakland Tour, new tires $675

Also

3 new Briscoe cars, with factory guarantee, at big reductions.

We can give you terms, and on some cars we will trade in your old car.

ARMED BANDITS ROB OIL MAN AT OLINDA

Held up by two armed bandits, A. H. Mac, who resides on the Columbia Oil lease, near Olinda, was relieved of $15 about 9 o'clock last night, according to a report made to the sheriff's office today by Mac.

Mac said that the hold-up took place about a mile and a half south of Olinda on the boulevard. He was driving a car when he was stopped by the highwaymen. Neither was masked.

The description of the bandits conforms with the usual report, one of the men being described as "short and stubby" and the other as "tall and slender."

WOUNDS MAY CAUSE DEATH OF HEIRESS

NEW YORK, Sept. 24.—Physicians at Long Island college hospital today were doubtful about the recovery of Miss Mildred Hanan, shot down in a Brooklyn street yesterday by Mrs. Grace Lawes who then killed herself.

The heiress of the millionaire shoe manufacturer is in a "grave condition," it was said.

Whether jealousy was aroused by Mrs. Lawes' secret infatuation for John S. Borland, Miss Hanan's companion, or by Mrs. Lewis' fear that her intimate friendship with Miss Hanan was about to be broken, investigation did not disclose.

POST STORM WARNING ALONG NORTH COAST

SAN FRANCISCO, Sept. 24.—Warning of a severe storm in the North Pacific moving southeast was posted today by the United States weather bureau for all points on the Oregon and Washington coast.

The warning stated that the storm was moving rapidly southeast, shifting to southwest this afternoon, tonight and probably Sunday.

Standard Oil Company's Torrance Well

---which through STRIKING A RICH OIL SAND on Bolsa Chica Dome, just northwest of the Huntington Beach Oil Field; has created a furor of excitement!

Close on our announcement of the BIG OIL STRIKE in the Torrance Well comes better and better news. Men and teams of horses have constructed temporary sumps to hold the OIL! Today, large tanks are being delivered on the ground preparatory for the big flow!

Any moment now, the Torrance Well may be fully brought in. Standard Oil officials and other authorities have flocked to the DOME, and all agree that the Torrance Well should be a big producer. It seems that just the top of the big sand has been scratched!

Buy a Lot at the OLD PRICE---almost in the shadow of the Torrance Well!

Our 30 acres are just 200 yards from the property on which the Torrance Well stands. We are selling lots in these 30 acres ALSO LEASED TO THE STANDARD OIL COMPANY—lots which we consider absolutely proven.

And Standard Oil must drill on these lots by October 28th or forfeit the highly valuable lease! And still we are allowing you to buy at the old price of $500—lots which may be worth thousands within the next few months!

FREE EXCURSION
Every Morning at 11 o'clock, except Monday!

Don't forget, tomorrow morning at 11 o'clock we start off for the oilfields—and to the Bolsa Chica Dome! You are not obligated in a single way—everything is FREE!

Not only a great trip, but an appetizing dinner almost in the shadow of the Torrance Well. Make your reservations at once, and bring your friends. This is the ONE opportunity!

CROWDS AWAIT BETTER HOMES WEEK

TIME VALUABLE! DO NOT DELAY GETTING INTO VOTE BATTLE

Register's Great Circulation-Building Contest Well Under Way!

45 DAYS YET REMAINING

Remember, All Have Chance at Capital Prize, Big Studebaker Auto

Five days have elapsed in The Register's big "battle of votes" and by Monday night a full week will have elapsed since the great circulation building contest got under way.

Have you made that week count for you on the closing night? Have you started in bringing new and renewal subscriptions to The Register? For that is all that is asked of you in order that you may win one of the thirty valuable prizes or 20 per cent commission which is offered you.

If you have not begun bringing in subscriptions, then you have let precious time slip by, but even yet there is time to get into the running. Nominations are still pouring in and many others, too, are just getting started, so that you should not be discouraged even though you were not among the very first.

TIME COUNTS

A late beginning sometimes makes a good ending, you know, and there is nothing to prevent your making up for lost time by diligent efforts during the next few weeks.

Five days are gone, but there are forty-four days yet to go and in those forty-four days remaining surely you can climb up among the top-notchers if you only try.

Remember this, the grand capital prize goes to the man or woman, boy or girl residing in Orange coun-

(Continued on page ten)

Competition for Honors In Big Rodeo Is Stirring Scout Troops

Further progress has been made in arranging for the Orange County Boy Scouts rodeo to be held in Santa Ana on the evening of October 7. Three blocks on Main street have been set apart for the use of the Boy Scouts on that occasion.

Word from Elmer E. Heidt, county scout executive, is to the effect that troops all over the county are enthusiastically preparing for the affair. Each troop is to have an area set apart for its exclusive use, and each troop is to use that area to the best advantage in putting on "stunts" displaying to the public the benefits that are derived from Boy Scout work.

The boys are vying with each other, troop against troop, in arranging drawing cards. The troop that can get and hold the biggest crowd in front of its quarters is going to go home with pride swelling the chest of every member of the troop.

It is the plan of the county council to have as many civic and semi-public organizations of the county as possible take part in the rodeo. Invitations to attend the affair have been sent out to a large number of organizations.

The rodeo is to be held during the time the conference of presidents and secretaries of the Rotary clubs of the district is in session in Santa Ana. It was intimated today that the Rotarians would enter the parade.

TO TELL BLACK SCALE CONTROL BY APHICUS

"The Control of Black Scale With Aphicus" will be the subject of a talk by Prof. D. D. Waynick, of Anaheim, appearing before the members of Garden Grove farm center next Monday night, it was announced today.

The meeting to be held in the Garden Grove Y. M. C. A. will open at 7:30 o'clock and will be open to everyone. In addition to the talk by Prof. Waynick, a former member of the faculty of the state universtiy, will be the presentation of the directors' report of the farm bureau by J. O. Artley; the tractor questionnaire, by R. D. Flaherty, secretary-manager of the farm bureau; the farm bureau labor department, by J. F. Jackson; "The Status of Drainage Legislation," by H. E. Wahlberg, farm advisor, and vocal music by Mr. and Mrs. W. B. Harper.

OSBORNE PLEDGE ELATES HARBOR BOOST BODY

Association Members and Directors Enthusiastic Over Prospects

Directors and members of the Orange County Harbor association who yesterday accompanied Congressman H. Z. Osborne and Former Senator Frank P. Flint on a trip of inspection of Orange county harbor, today were more enthused over the project than ever, following expressions of commendation and promises of assistance by these two prominent Los Angeles men.

In a talk after luncheon Congressman Osborne stated that he had checked over the changes made in the harbor since he last visited it two years ago. Osborne is a member of the rivers and harbors committee of congress and in all probability will become chairman in the near future.

"There is no physical reason why this should not become one of the important harbors on the coast," declared the speaker. "You have shown your faith in the enterprise by putting your money in it. That is an action that appeals stronger to congress than anything else.

Sees Good Foundation

"The foundation for Los Angeles harbor was by no means the equal of what you have here today. Los Angeles had more shipping developed than you have here, but the inside harbor was not as spacious nor as advantageous as this.

"The pressure in congress for economy has resulted in the allotment to the committee for appropriations for harbor and river improvements being cut from around $25,000,000 before the war to $15,000,000. The committee is practically limited to the carrying out of projects under way.

"I am prepared to say that I recognize a great possibility in Orange county harbor, and I promise you my assistance. I believe that you can depend upon us at some time in the future to give substantial assistance."

Room for All

Congressman Osborne and Flint in their remarks stressed the point that there was room for Los Angeles and

(Continued on page ten)

RAILROAD CREW SURVEY LINE TO ORANGE?

Activities of Union Pacific Engineers Arouses Conjectures

Indications today are that the Union Pacific has in mind the building of its Orange county line through Orange.

Whether any definite conclusion has been reached by the U. P. in relation to Orange could not be learned here today.

However, it is known that a crew of surveyors employed by the Union Pacific has been at work running lines leading from Santa Ana toward Orange.

Within the past few days surveyors have set stakes in orchards north and south of East Seventeenth street near Poinsettia street. On Seventeenth street, Poinsettia is the second street east of the Southern Pacific crossing. Working northward, the engineers' line angled somewhat to the east.

The surveying done in this section has revived in the minds of many residents remembrance of a report that was circulated four years ago when the Salt Lake railroad, which a few months ago sold its interests to the Union Pacific, was getting rights of way in this county for a line from Whittier to Santa Ana.

That report was that the Salt Lake expected to get into the Orange territory by running a railroad along the east side of Batavia avenue, which is the west city limits of Orange.

After the Salt Lake had cleared its right of way in Santa Ana of houses, from Stafford street to First street, it was stated by Salt Lake officials that the Salt Lake did not propose to have a right of way of its own between Santa Ana and Anaheim. Most of the right of way from Whittier to Anaheim had been secured, and condemnation suits were pending for other portions of the strip. The Salt Lake men said it was proposed to enter into an agreement with the Southern Pacific whereby the Salt Lake trains could use the S. P. tracks from Anaheim to Stafford street, Santa Ana. At Stafford street the Salt Lake would take to its own tracks.

No statement has been made by Union Pacific officials as to what their plans are in relation to routes south of Anaheim. It is understood that they do not deny that it is their expectation at some early month to go ahead with the construction of the proposed line from Pico station, near Whittier, through Whittier, La Habra, Fullerton and to Anaheim.

Union Pacific surveyors have been busy here for several weeks. A part of the time they were engaged in running a line southward across the Irvine ranch. By some it is conjectured that the U. P. expects to establish a spur to some point on the ranch. Others have conjectured that the U. P. expects to go south to San Diego, possibly eventually looking to a new line to the East.

As usual when a railroad is planning to build, definite information concerning its activities is hard to get. It is well known, of course, that the making of a survey does not mean anything further than that consideration to a project is being given. It is even possible that a survey might be made as a "blind" to real intentions.

MRS. CHASE, NOTED EXPERT, WILL GIVE TALKS AT ARMORY

Mrs. Florence Austin Chase

DOMESTIC SCIENCE ARTS LECTURES, DISPLAYS OF S. A. GOODS WILL BE LURE

'Better Homes week!"

All over the city, women—and men and children too, for that matter—are talking about The Register's big exposition, where lectures on domestic science will be given, and where Santa Ana merchants will have on display goods and articles designed to make for better homes.

Final arrangements were being completed today for the big affair, which will be held at the armory beginning next Monday and continuing up to and including next Friday.

The last finishing touches were being given to the exposition today and with the arrival of the lecturer, Mrs. Florence Austin Chase, late this afternoon, everything was expected today to be in readiness for the opening promptly at 2 p. m. Monday.

Th floor plan at the armory has been arranged so that every person in the big crowds that are expected to attend the daily lectures and demonstrations will have an uninterrupted view of the platform where Mrs. Chase will speak. The crowds will also have an unobstructed view of the working kitchen, where Mrs. Chase will show by actual demonstration how various dishes are prepared.

Space around the walls of the large assembly room at the armory will be taken up by booths, where enterprising merchants of the city will display goods handled in their stores.

The merchants' wares will be so selected as to make a particular appeal to particular people, and will be of articles which would find a place in a well regulated home.

An electric booth arranged by the J. G. Robertson Electric company, will show all the latest appliances designed to lighten the burden of housework. These will be touched upon in the lectures to be given by Mrs. Chase as will many of the products displayed in other booths.

TO SHOW BREAD, PASTRY

The toothsome display of the W. D. Baker company will show the unexcelled breads, cakes and pastries in which that enterprising firm specializes. Many of the products of Baker's bakery will be used by Mrs. Chase in connection with her talks. Equally appealing to the gastronomic connoissuers will be the booth of the Excelsior Creamery company, where cream, milk, buttermilk, butter, cottage cheese and ice cream will hold a regular family reunion, at which all those present will be honored guests.

The Van Landingham company will feature seafoods in their attractive booth, where tuna and sardines will rub fins in the friendly protection of their containing cans. The products of this packing house will be used by Mrs. Chase to show the delicacies that may be prepared with canned fish from Orange county's own nearby waters.

PLAN FLOUR BOOTH

The Nicholls-Loomis company will have a flour booth, and the message which Mrs. Chase will say with flours will be with the famous Orange brand which that company produces, for in addition to the display booth, the rolls, cakes and other cooked foods, requiring flour, will be prepared with the local brand to show Orange county cooks just what a splendid all-purpose flour they may obtain. The baking powder used in the demonstrations will be the well known Calumet brand.

A booth of particular interest will be that of Morris and Company, for "Milcoa," their delicious butter substitute, is a well established factor in the war against our old friendly enemy, H. C. L. Milcoa, beside being demonstrated in the booth, will be used in actual cookery and food preparation by the lecturer.

Probably no booth will be of greater interest to housewives than that of the Henry Seidel meat market, for too few housewives are well versed in the different cuts of meat. An expert meat cutter will show these different cuts, while Mrs. Chase will speak on the food value and the manner of preparation.

COFFEE SAMPLES, TOO

The coffee booth with its ambrosial odors, will no doubt be a popular one, and Newmark Brothers will have on display samples of coffee, tea, spices and extracts. The first two of these will be demonstrated also in a talk on beverages, while the spices and extracts will be used in the desserts and cakes.

Of course it is an understood fact that crowds will gather around the furniture booths, for there the exhibitors will have an arrangement simulating a modern home.

A lovely and harmonious living room will be arranged by the Spur-

(Continued on page ten)

DAILY PROGRAM AT EXPOSITION ANNOUNCED

"It don't make no diffrunce how you make things hum in yer home, there ain't no place like it," was the little slum dweller's version of "Home, Sweet Home."

And everyone attending the series of lectures which Mrs. Florence Austin Chase is to present at the armory next week under the auspices of The Register, will agree that she can teach one how to make things hum, and make the home so attractive that all the dwellers therein will agree that "there ain't no place like it."

Mrs. Chase is to be the speaker every afternoon at the Better Homes exposition and has announced her talks to begin at 2:30 o'clock each afternoon, beginning next Monday, September 26.

The formal program is to open at 2 o'clock, however, and each lecture is to be preceded by a short musical program.

The week's program as outlined by Mrs. Chase is to open with a lecture on "Interior Decoration," in which the speaker will advise as to color schemes and backgrounds.

The cooking demonstration to follow will deal with salads and salad dressings, with special emphasis laid on the value of fruits and vegetables in the dietary.

Tuesday the selection of curtains, rugs and draperies is to be discussed. The cooking demonstration is to be of meat, fish and egg dishes, and illustrative of their place in the scientifically-balanced menu.

Wednesday, Mrs. Chase is to speak on "Inexpensive Furniture in Good Taste," while batters, doughs and sandwiches are to be the subject treated of in the cooking class, with beverages also discussed, all accompanied by a talk on labor-saving devices.

Thursday, "Music and Books in the Home" will offer a fertile field for the lecturer, and the cooking class is to be for the purpose of demonstrating cake-baking. The correct laying of the table will attract the attention of those who like their table appointments to have a certain nicety and no doubt will prove a most interesting talk.

Friday, the concluding day of the exposition, is to be marked by a lecture on "Home Management," which will include household accounts, also, a subject upon which women are woefully uninformed, it is said.

Desserts, both hot and cold, are to be the subject for demonstration in the working kitchen, and pastries, so dear to the heart of man, are to be included in their list.

There will be no need for those attending to bring anything except their notebooks, as provision has been made by Sam Stein, stationer, to provide each person attending with a napkin, a small spoon and a saucer. These will be found a very necessary part of the afternoon, for everyone present will want a taste of the delicacies which are to be prepared daily by Mrs. Chase.

CHICAGO MAN HELPS YOUNG SON IN CANDY THEFT COURT FIGHT

Frank McMahon and Harry Seferd, of Chicago, the two boys charged with breaking into the Capistrano Pool Hall and stealing cigars, candy and money, were to be given a preliminary hearing before the Justice of the Peace at Balboa today.

When arrested, both the boys gave assumed names and refused to tell their real identity. Later Probation Officer R. R. Miller secured the real names and wired their parents of the boys' trouble.

He received an immediate reply from the father of one of the boys, asking that counsel be retained to defend his son.

It is probable that the fathers of both boys will arrive in Santa Ana when the case comes up for trial in the superior court. Attorney S. B. Kaufman of Santa Ana has been retained to defend them.

FIREFIGHTERS PUT OUT BRUSH BLAZE

A brush fire that threatened the Santiago watershed was successfully put under control last night.

The blaze started soon after dark at or near the mines in Silverado canyon, last night.

M. H. Jeffries, government lookout on Santiago peak, reported the fire about 7:45 o'clock and, within a few minutes, Forest Ranger Berg, of Corona, Fire Warden Robert Shaw of the Santiago canyon, County Fire Warden W. E. Adkinson and Andrew Joplin of Trabuco were on their way to the fire. A number of men employed in the mines helped in fighting the fire.

About 100 acres were burned over. So far as could be learned today, the flames were in brush only, no serious damage being done to trees.

PROMOTORS SELL LOTS IN MOJAVE DESERT

REDLANDS, Sept. 24.—Another colonization scheme, whereby a large tract of land in the Mojave desert near Twenty-nine Palms has been sold to easterners at $35 an acre, has just been discovered here. A. E. Isham, secretary of the chamber of commerce, recently received a letter asking for information about land the writer had bought.

Isham found from the county recorder that the land is near Twenty-nine Palms, thirty miles from any railroad and farther than that from water. The land is assessed at 35 cents an acre, Isham was informed.

This letter was from Maine and the writer said about forty families were preparing to come to California, having purchased about 10,000 acres. Another promoter has been working near Edmonton, Can., and has sold about 10,000 acres to colonists there, it is said.

Compound 10c, today only, at Chaffee's

HERE'S OUTLINE OF MUSIC FOR EXPOSITION

Lovers of music are to have the opportunity of hearing some of the talented musicians of the city who are to appear as The Register's guests at the Better Homes exposition to be held there next week, Monday to Friday, inclusive.

The exposition is to be open each afternoon at the armory, on Birch street, just off of Fourth. Preceding the lecture to be given by Mrs. Florence Austin Chase, a short musical program is to be presented by the guest artists who are pleased to do their "bit" to contribute to the success of the exposition.

Monday afternoon at 2 o'clock the program is to be given by Clarence Gustlin, president of the Santa Ana Musical association, who is to offer a pianoforte solo, the Rigoletto Paraphrase, (Verdi-Liszt). Gustlin also will officiate as accompanist for Mrs. F. W. Slabaugh, who is to be heard in a group of Indian songs, "Moon Deer," by Lieurance, and "The Robin Woman" from Charles Wakefield Cadman's Indian opera, "Shanewis."

Tuesday, the program is to be purely vocal. Miss Kathleen Owens, of the Y. M. C. A., is to sing "Bird of Love Divine," by Haydn Wood, and "Fulfillment," by R. Huntington Woodman. Miss Ruth Armstrong is to preside at the piano.

Wednesday is to mark the appearance here of William Conrad Mills and the artistic Virginia quartette, of Long Beach, the personnel of which includes Ruth Burdick Williams, soprano; Dawn Clements, mezzo; Dudley Chambers, tenor and John Johnston, bass. Mae Gilbert is to be the accompanist.

Thursday, Mrs. Theo. Winbigler is to present "One Fleeting Hour" by Dorothy Lee and "Sing Me to Sleep" by Edwin Greene, thus giving another afternoon of vocal harmony.

On Friday, the concluding day, Nelle Callender Mills, violiniste, is to present Fritz Kreisler's transcription of the Viennese popular song "The Old Refrain," with Mrs. Arnold Peek at the piano, thus adding variation to the week's program.

The piano to be used is a Chickering, furnished through the courtesy of the A. S. Lindholm Music house and is one of superior tone quality, worthy of the artists who are to aid The Register in the Better Homes movement.

In addition to the appearance of these artists, each day there is to be a short program of the best of the Brunswick records. This is to be given on the big Brunswick phonograph in the J. C. Horton Furniture company display. The phonograph record for the entire week is to open Monday with "A Dream," by Theo. Karle: Tuesday, "Humoresque," by Max Rosen; Wednesday the record is to be Leopold Godowsky's "Rustle of Spring," while Irene Pavloska is to be heard Thursday in "Jest A'

TO TRAIN CARUSO'S CHILD FOR VOCALIST

NEW YORK, September 24.—The dream of Enrico Caruso to make his little daughter, Gloria, the greatest prima donna the world ever has known, may come true after all. News that two Italian lawyers are on the way here to check up Caruso's estate brings also the information that under the ruling of Italion courts Gloria will receive half of the estate valued at between $2,000,000 and $2,500,000.

This will be more than ample to assure the training Caruso is known to have laid out with his wife, the former Mrs. Dorothy Benjamin of New York, for Gloria's operatic training.

Caruso believed that Gloria would inherit his talent and declared that with systematic training from infancy she would be able to develop this talent to its fullest extent. Many voices were ruined by failure to properly safeguard them in infancy, Caruso said, and others failed to reach full flower because their possessors so frequently had to struggle to gain proper training.

"Gloria," he said, "will never have this to contend with. I have planned with her mother the course she is to follow. With her inherited voice and the temperament which must be hers, the carefully prepared training laid out for her will certainly make her the most phenomenal singer the world ever has known."

Caruso's will, made before Gloria was born, was thrown out by the Italian courts because it failed to make provision for her, and the present plan of distribution was decided on. Under this the remaining one-half of the estate will be divided into four equal shares, one to his widow, one to his brother and the other two to his natural sons, Enrico and Rodolfo

Starting Monday at 2 P. M. at The Armory, Mrs. Florence Austin Chase will conduct a Cooking School and Better Homes Exposition. Mrs. Chase is a national authority on home economics. Everywhere she selects the best food products—in Santa Ana our bread will be used exclusively.

BREAD

The Perfect Food

For Father
For Mother
For Children

W.D. Baker's Bread

Our Water Softening Plant---

—is the only plant of the kind installed in a bakery in Santa Ana. It eliminates all the impurities of the water used in baking — removes the lime and alkali which is injurious.

is not ordinary bread—it is a result of many years of experience in bread making coupled with a desire to achieve the best—to make a product that is satisfactory in every respect.

Delicious and nutrious—rich in vitamines, BAKER'S BREAD is health-giving—a standard product, uniform at all times.

BAKER'S BREAD is made of ingredients of the highest quality, selected not alone for their purity, but so proportioned and scientifically baked, that results in a loaf both nourishing and digestible.

This is the bread that will be demonstrated by Mrs. Chase—she will tell you that it is good bread and the reasons why.

THRONGS AWAIT BETTER HOMES TALKS HERE

(Continued from Page Nine)

geon Furniture company to follow the dictates of good taste, yet with a careful eye to the expenditure involved. Nothing extravagant will be used, but such simple pieces as are within the reach of most persons who contemplate furnishing a home.

WORKING KITCHEN

The well-appointed working kitchen with its Garland gas range, McDougal cabinet, Automatic refrigerator and Pembco kitchen table, which will be used by Mrs. Chase for her actual demonstrations of cookery and housekeeping, will also be from the Spurgeon store.

The J. C. Horton Furniture company will have as a part of the home demonstration a complete kitchen equipment featuring the Favorite gas range, the Hoosier kitchen cabinet, the Baldwin Dry Air refrigerator, the Pembco kitchen table and the Secrist Pressure cooker. The beautiful dining room with its period furniture and the Italian Renaissance bedroom will also be fitted up from the Horton stock.

BIRTHDAY CAKE STAND

A novel and very useful stand for the birthday cakes of the whole family is a 14-inch hardwood round with three little wooden knobs on the bottom and as many little holes as you want in two alternating rows all around the edge. A lace paper doily just the size of the round is laid on the stand and the beautiful cake, all fussed up, is placed on this. Then the candles, as many as the occasion demands, eight, if for brother Billy or fifty if for Dad, are thrust right through the lace doily into the holes beneath. Artificial flowers maybe used, the stems punch through the paper doily also.

CINNAMON CUP CAKES

Cream one-half cup of butter, add one cup of sugar, stirring constantly; add two eggs beaten until pale yellow. Sift together one and one-third cups of flour, two teaspoons of baking powder and three-fourths tablespoon of cinnamon; add to first mixture alternately with one-half cup of milk. Beat mixture thoroughly and turn into well buttered small iron gem or muffin cups and bake fifteen minutes in a moderately hot oven. Remove from cups and when cool spread with cream frosting.

BLAME DANCING FOR STYLE CHANGES

NEW YORK, Sept. 24.—Just who are the persons and reasons responsible for styles and changes in styles, are questions very often discussed but rarely settled.

However, discussion of this interesting topic has led one connoisseur of fashion to advance the novel theory that modern shoe styles, and to some extent styles in dresses for women, have kept step with music.

In advancing this theory the idea of harmony and symmetry as governed by the laws of nature is emphasized. The style expert points out that nature loves harmony and symmetry whether in the song of the birds or in blossoms and flowers.

Change With Dance

Here's what this particular judge of style has to say about the influence of music on fashion:

In American social life, dancing is and always has been one of the chief enjoyments. In Colonial days the minuet was the popular dance. The music of that period was slow but precise and accurate. Women's gowns were long, wide and sweeping. Footwear was artistic, but of secondary consideration in the dress apparel.

The minuet was a beautiful dance—it endured a long time and the music and dress fashion endured with it.

Later came the square dances and with them dress styles and shoe styles harmonized and kept step.

With the advent of the waltz and two-step, music became faster, the dance step became swifter and shorter and the natural law of fashion, dress styles and shoe styles had to change also.

Long meter music and long meter dresses naturally passed out, and footwear, both shoes and hosiery, became articles of adornment.

Look What "Jazz" Did

The one-step and the fox-trot necessitates still more peppy music, and shoe styles and dress styles followed the trend.

A shoe with a four and one-half inch vamp could no longer remain in popular favor when the orchestra was playing swift, giddy, jazz music. The extremely long-darwn-out shoe was out of harmony with the music and out of harmony with dress styles. The natural law of fashion had been disregarded and the industry suffered tremendously for its disobedience. The rapid shift to the extremely short two and one-half inch vamp was too radical a change—it was ahead of the music and again out of tune. The three inch to three and one-half inch vamps, however, fit in and have proved popular and acceptable.

If however, the "Toddle" becomes nationally popular and the young people dance all evening on a space no larger than an ordinary checkerboard, shorter vamps may be expected.

Orchestra Blamed

Orchestras in cafes, roof gardens and even in private dance halls and private homes are not playing the same music they played last year or last season. They are playing new music and dress fashions and shoe fashions must necessarily keep step with the music and keep in harmony.

Whenever society adopts some particular standard of music and sticks to it, then will dress styles and dance styles become stabilized.

TIME VALUABLE! DO NOT DELAY

(Continued from Page Nine)

ty who rolls up the most votes during this contest. It makes no difference where the contestant lives. Twenty-nine other valuable prizes are waiting for those of high standing, and 20 per cent cash commissions on money collected goes to the remaining workers.

Three Autos

Of the three automobiles offered as prizes, one goes to the grand winner, one goes to some resident of Santa Ana as a district prize and the other goes to a resident of Orange county outside of Santa Ana as a district prize.

Every contestant competes for the grand capital prize, and if it be not won, still he or she may win the grand district prize. And the beauty of the whole thing is that one may work in any precinct of the county, no matter where his home happens to be located. Votes secured in Santa Ana may win the district prize outside of Santa Ana.

HERE'S OUTLINE OF EXPOSITION MUSIC

Continued from Page Nine)

Wearyin' for You." The Criterion quartet in its rendition of "Dixie," is to close the program Friday.

Accepting the invitation extended to them by The Register to act as patronesses of the exposition, a group of women prominent in the social and club life of the city is to be present at the different gatherings.

Among these are:

Mrs. W. L. Deimling, Mrs. J. E. Gowen, Mrs. John Clarkson, Mrs. J. A. Cranston, Miss Rosa Boyd, Mrs. D. K. Hammond, Mrs. John Cloyes, Mrs. W. B. Williams, Mrs. Robert Northcross, Mrs. A. M. Gardner, Mrs. Terry Stephenson, Mrs. L. G. Swales, Mrs. George S. Smith, Mrs. O. M. Robbins, Mrs. P. L. Tople, Mrs. E. E. Remsberg, Mrs. Frank Kredel, Mrs. J. E. Paul, Mrs. C. A. Vance, Mrs. J. P. Baumgartner, Mrs. Louis Moulton, Mrs. Emrys White, Mrs. M. B. Lacy, Mrs. C. F. Crose, Mrs. W. W. Anderson, Mrs. W. B. Porter, Mrs. F. W. Slabaugh, Mrs. Theo Winbigler, Mrs. Hugh Smith, Mrs. Roy Vincent, Mrs. Ed Walker, Mrs. J. S. Warner, Mrs. O. R. Haan, Mrs. J. Burke, Mrs. Charles V. Doty, Mrs. R. W. Townsent, Mrs. E. B. Trago and Mrs. C. T. Wells.

OSBORNE PLEDGE ELATES HARBOR MEN

(Continued from page nine)

Orange county harbors and others on the Pacific coast. They emphasized the point that interests of Los Angeles were identical with those of Orange county and that Orange county was as important to the successful development and growth of Los Angeles as the latter is to the former. Flint asserted that he was an Orange county property owner and that he was glad to contribute, in tax, money to the development of the harbor, in that with development of the harbor, or any other project in the county, his holdings were increased in value.

He declared that with the development of water transportation for citrus fruits producers of this fruit would receive a net profit of at least 50 cents a box more than those growers in districts where only rail transportation is available.

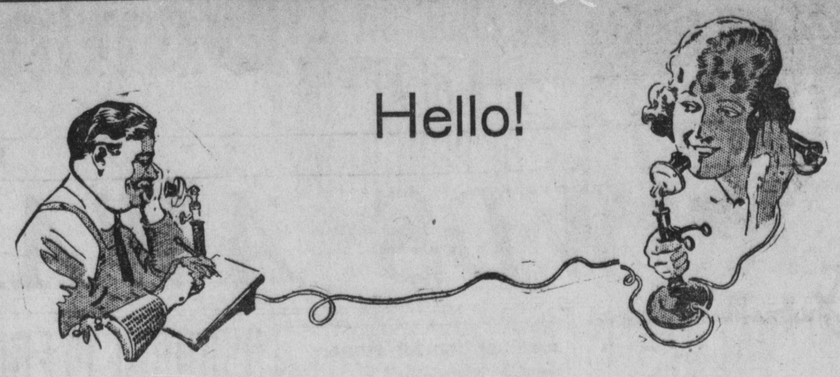

Others Speak

Lew H. Wallace, president of the National bank at Newport; Charles T. Leeds, harbor engineer, and R. L. Bisby, secretary of the Orange County Harbor association, were other speakers. D. Eyman Huff, president of the association, was toastmaster.

Those in the party were Charles F. Smith, H. E. Wahlberg, L. L. Shaw, Sam Jernigan, R. D. Flaherty, Ivy Stein, R. L. Bisby, Horace Fine, Everett A. White, J. C. Wallace, Stanley Goode, George W. Minter, J. C. Metzgar, Santa Ana; T. B. Talbert, Howard Wassum, S. H. Finley, William Schumacher, N. T. Edwards, board of supervisors; A. B. McCord, Anaheim; Lew H. Wallace, A. B. Rouselle, J. P. Greeley, Newport Beach; James Irvine jr., Tustin; R. G. Neifert, Charles T. Leeds, H. Z. Osborne, Frank P. Flint, Los Angeles.

Cheapest Place for a Good Meal, Poinsettia Cafe, 521 North Main.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

Excelsior Creamery speaking?

Yes, Madam.

Is it true you are to furnish the dairy products used by Mrs. Chase in her cooking demonstrations at the Better Homes Exposition next week?

Yes, Mrs. Chase will use Excelsior Milk, Cream, Butter and Cottage Cheese in her demonstrations.

Isn't she going to use ice cream? And I thought you people made buttermilk too. How about it?

Yes, she will use Excelsior Ice Cream, and also Excelsior Buttermilk.

That's fine, and now I want to order some milk and some butter for myself so as to be ready to make my own cooking as successful as hers.

Yes, Madam, and how much do you wish?

Well, you may put me on your delivery route for a quart of milk a day and two pounds of butter a week.

Very good, Madam, delivery will start tomorrow.

Good-bye.

Better Furniture Means Better Homes

THE rooms in which the average family spends the majority of its home moments will give forth the greatest atmosphere of contentment and happiness if they are beautifully furnished.

And equally as important as beauty is substantiability, that quality in home furnishings which compels home pride and satisfaction to attain permanence.

Long-wearing quality and the charm of rare beauty are two of the distinctive factors vividly evident in every item of our immense displays, whether for the daintiest of bungalows or the costliest of mansions.

These Interesting Features at the Better Homes Exposition Next Week

Mrs. Chase's Lectures

are planned to help lighten the burden of home duties. She will emphasize the importance of labor-saving devices and short cuts to kitchen efficiency. Hence, it is an appropriate time to call attention to the

Hoosier Kitchen Cabinet

which will be on display at the Armory during her lectures. The Hoosier is the cabinet famous for "saving miles of steps," and a close examination will be a revelation to you of its service. Mrs. Chase's demonstrations and suggestions on the use of a range will focus attention upon our display of

Favorite Fireless Cookers

the best of its kind known to us, after 20 years of experience and experiment. The Favorite IS the favorite of thousands of accomplished and famous cooks.

Other Features

While you're at the exposition you can't help noticing the display of beautiful Italian Renaissance dining room furniture, the Pembco tables, and the Brunswick Phonographs—more about the latter below:

SPECIAL ANNOUNCEMENT

The Brunswick makers announce a number of new models, now ready for the market. These new phonograph styles will be on display at the Better Homes Exposition and we will ask you to watch for further announcement, giving descriptions of the different styles and their prices—the latter will be a surprise to all.

MEXICO ON EVE OF GREAT ERA OF PROGRESS

"Mexico has the greatest future of any country in the world and is just on the eve of a period of development and prosperity that will be unequalled in history," said A. M. McDermott, general manager of the El Fuerte Mining and Smelting company, at a meeting of the stockholders of the company last night in the directors' room of the Orange County Trust and Savings bank.

McDermott, as a mining engineer, has long been interested in Mexico and is thoroughly posted on Mexico and mining affairs there. He further stated:

"Mexico has the greatest diversity of mineral wealth of any country in the world and when its mineral resources are developed it will be the greatest producer of commercial and rare metals in the world. At present a great deal of activity is being shown in mining in Mexico and the time to do things there is now."

The company has forty-two stockholders in Santa Ana and all were very much interested in McDermott's talk, as well as in the short talks of the other speakers who were:

S. A. Shappell, mining engineer, lately returned from Mexico and E. B. Sprague, director of the company.

COVER CROP TIPS GIVEN TO FARMERS

"Due to the intensive cultivation of the soil of Orange county and the exposure of that soil to the sun and elements, the amount of organic matter is lessoning each year, and the need of adding humus is becoming greater," Farm Advisor H. E. Wahlberg, in his talk on "Cover Crops," last night told the Villa Park farm center.

"To get the best results and the largest tonnage of fertilizer, it is best to get a cover crop in at the earliest possible date in the fall. The value of such a crop lies partly in its aid to maintaining a permanent agriculture. In the very heavy soils as are found in some sections of the county, notably at Olive, the best results are obtained from a summer rather than a winter cover crop, if it is possible to have one at all. That the winter crop is considered detrimental as it delays the field work in the spring by the length of time taken to mature and reach the point where it should be turned under.

"By the addition of organic matter in that manner, the soil is put into better physical condition, will hold moisture longer and give the soil bacteria more to work on."

At the conclusion of the paper, a discussion on scaly bark was led by Dr. L. H. Hitchcock and joined by many of those present who gave their experiences. Presentation of the tractor questionnaire aroused much interest as did the serving of refreshments with which the evening was concluded.

CHARACTERS IN NEW PLAY ARE DESCRIBED

The tryout to be held at the high school auditorium next Monday night at 7 o'clock for selecting the cast to take part in the Community players' first offering of the season, "Potash and Perlmutter," is for the purpose of choosing those who combine, with histrionic ability, the physical characteristics for the different parts, it was stated today.

The comedy, which had a phenomenal run on the legitimate stage, was produced last winter in Pasadena by the Pasadena Community players, and was the hit of the season, according to Ernest Crozier Phillips, director of the Santa Ana organization who also offers the following description of the characters involved:

Mawruss Perlmutter; an extremely tall and thin Jew, stern exterior but heart of gold.

Abe Potash; short and fat; a born optimist.

Mrs. Potash; a very expansive figure who towers above her husband and one who is extremely positive in nature.

Boris Andrieff; an escaped Russian artist. He is the juvenile lead among the men. Tall, handsome, poetic type.

Mozart Rabiner; a typical Jew salesman.

Senator Murphy; a dignified gentleman about 50 years old.

Henry D. Feldman, a lawyer, smooth and glib of tongue, the villian of the piece.

Ferguson, Farrell; U. S. deputy marshals.

Miss Goldman; a designer; full of romance and a capable business woman.

Miss Cohen; a stenographer who is always "on the job."

Irma Potash; Abe's daughter, a typical ingenue.

Miss Levine, Miss O'Brien, Miss Nelson; models.

An expressman.

Mark Pasinsky; a buyer; excellent Jewish part.

Sidney; office boy.

Book Agent; good comedy part.

Katie; a maid.

REQUIEM HIGH MASS IS TO BE SOLEMNIZED FOR FATHER STOETERS

A requiem high mass of "month's mind" for the repose of the soul of the Rev. Father P. Stoeters, former pastor of St. Joseph's Catholic church, will be solemnized Monday morning at 8:15 o'clock at the church.

The present pastor, the Rev. Father H. Eummelen will be the officiant. Those who sang in the choir during the many years of Father Stoeter's pastorate here, will sing the mass.

Father Stoeter died a month ago at the Los Angeles Mercy home, where he was chaplain. His funeral was held at St. Vibiana's cathedral and was one of the most largely attended ever held in Los Angeles. One hundred priests were in the sanctuary, where Bishop Cantwell officiated at the mass.

Sisters from all the surrounding communities were present, together with Catholics from all over Southern California, who knew the pioneer priest.

MANY BUY TICKETS FOR CONCERT COURSE

"The sale of season memberships in the Santa Ana Musical association for the coming year has been highly gratifying," said Clarence Gustlin, president of the association, today.

"While the capacity of the high school auditorium, where each of our six big artistic events will be presented, is not entirely sold out, we feel that it is just as well to have some seats available for single admission to those who, for one reason or another, do not take advantage of the great reduction made for the season ticket.

"The season ticket sale will remain permanently open at the Santa Ana Book store with no reductions until half the course is given, so I would advise the earliest possible selection of locations which still remain unsold.

"A number of the artists whom we have engaged have been secured at special reductions and it is quite possible that Santa Ana may not soon have the opportunity of hearing them again. I am sure the course will prove the finest by far which we have ever offered."

S. A. GRID WARRIORS OFF TO GOOD START

Santa Ana high school started its 1921 football campaign brilliantly yesterday.

"Spud" Morrison's charges emerged victors from their practice fracas with the Pasadena high grid team, 3 to 0, a place kick by "Eeny" Wilcox in the third quarter being the only score of an abbreviated battle.

It was more of a try-out for both squads than a real game as only three ten-minute periods were played.

The teams seemed evenly matched. Santa Ana, however, had a slight edge on the Crown City boys both in line of plunging and passing.

Morrison's men showed up extremely well for having had only a little more than a week's practice. There were few mixups in the signals and but two fumbles.

After the game the teams indulged in a short scrimmage. Each side was given the ball for eight downs at a time. About ten minutes before the end of the scrimmage, the substitutes, who hadn't had a chance to play, were given an opportunity to show their class.

Harry LeBard and Minor Cox were kept out of the game by injuries, LeBard with a bad knee and Cox with a cracked arm. The line-up follows:

Santa Ana — Coffman, R. E. L.; Armstrong, Bell, R. T. L.; Fipps, R. G. L.; Everett Best, McDonald, Cravath, C.; Robertson, L. G. R.; Miller, Elliott Best, L. T. R.; Stark, L. E. R.; Wilcox, Q.; Perkins, Knight, L. H. R.; Williams, Messing, Jabs, R. H. L.; Black, Cock, F.

Pasadena—Chambers, R. E. L.; McDonald, R T L.; Bright, R. G. L.; Martin, C.; Orben, L. G. R.; Olson, L. T. R.; Novis, L. E. R.; Dagley, Q.; Hartman, L. H. R.; Downs, R. H. L.; Sharp, F.

THREE POSTMASTERS FOR COUNTY NAMED

Nominations for three postmasters in Orange county were sent to the senate yesterday by President Harding, says a dispatch from Washington, D. C.

These three are: For postmaster at Newport Beach, Lawrence S. Wilkinson; at Brea, William M. Smith; at Laguna Beach, Brayton S. Norton.

Each of these appointments will be for a four-year term. Smith and Norton have been in their offices for a number of weeks as acting postmasters. Wilkinson will succeed John McMillan, who did not seek re-appointment.

RED CROSS BOARD IS TO MEET NEXT MONDAY

For the purpose of considering a new location for the community nurse and for receiving a report upon finances, the directors of Santa Ana chapter, Red Cross, are to meet at 111 East Third street next Monday morning.

The room at the corner of Fifth and Spurgeon streets, where Miss Idabell Durgan, community nurse, has had her headquarters, must be vacated.

Word is expected soon concerning details of the plan for an annual membership drive for the Red Cross. Last year this drive came immediately following Armistice day.

Women climbers are particularly numerous this year in Switzerland.

DISTRICT MEET OF ROTARIANS LURES MANY

Information in the office of W. H. Spurgeon Jr., president of the local Rotary club, is that the conference of presidents and secretaries of the twenty-third district of Rotary, to be held in Santa Ana October 7 and 8, will be attended by delegates from every club in the district. The twenty-third district of Rotary comprises California, Arizona, Hawaii and Nevada. There are thirty-eight Rotary clubs in the district.

Elaborate preparations are being made by the officers of the Santa Ana club to provide adequate entertainment for the visitors. The conference sessions will be held in the banquet room of Elks' hall.

At least two club members from each of the Rotary towns in the district will be present, it is expected. An automobile trip, a banquet and other features of entertainment will hold the attention of the visitors during the intervening hours of the conference.

Several cities in the district were bidding for the honor of entertaining these club representatives and some keen rivalry resulted.

Reservations are made by Rotarians from the following towns:

From Arizona—Mesa, Miama, Phoenix, Tuscon.

From Nevada—Reno.

From Hawaii—Hilo, Honolulu.

From California — Alameda, Anaheim, Bakersfield, Berkeley, Chico, El Centro, Fresno, Lodi, Long Beach, Los Angeles, Marysville, Modesto, Napa, Oakland, Oxnard, Pasadena, Pomona, Porterville, Redlands, Richmond, Riverside, San Bernardino, Sacramento, San Diego, San Francisco, San Jose, Santa Barbara, Stockton, Ventura.

The officers of the local club who have been responsible for bringing the conference to Santa Ana feel that this will be an opportunity for the town to display its graces before many of the prominent business men of the Southwest.

LOOSE STUD BOLT.

It sometimes happens that in taking off the valve cover plate one of the studs may slip out and the loss will not be discovered. This leaves an opening into the intake passage, and the leak will prevent the suction through the carburetor needed to draw the fuel into the cylinders.

Don't Fail to Attend the

Better Homes Exposition

At the Armory All Next Week

Mrs. Chase is coming Monday with a remarkable fund of information for the housewives of Orange county.

The life of the nation depends upon the homes and a wonderful land like ours ought to set a good example. The whole week's program is free and covers everything that pertains to better housekeeping and better homes.

You'll be interested in Mrs. Chase and her sensible talks and you'll be instructed too. Don't miss a single lecture if you can possibly attend.

Electric Devices Demonstrated

During the week of the Better Homes Exposition we are going to demonstrate some remrakable new electric devices—things every modern home should have. You ought to see them.

We are constantly looking for new and better ways of doing things by electricity. Electricity is really man's most useful servant. By properly taking advantage of the great power all the real work of the home can be done economically and safely.

We make it easy for every home to be electrically equipped by offering low prices and easy terms.

J. G. Robertson Electric Co.

A Favorite in Santa Ana Homes

For 28 years NEWARK'S Coffee has been a household word throughout Southern California wherever good coffee is recognized and appreciated. "NEWMARK'S" is not new to the people of Orange County--It has long been the favorite in hundreds of Santa Ana homes. Recently many additional Santa Ana families were given an opportunity to test "NEWMARK'S" Coffee. Today it is their preference too.

Careful checking of the sales of leading grocers shows a most remarkable increase in the demand for "NEWMARK'S."

And back of this greatly increased demand there is the best of reasons, for when more people are drinking "NEWMARK'S" Coffee, there must be fewer people drinking other coffees.

The reason for this proven preference you will find in NEWMARK'S Coffee itself--in its unusual aroma--its rich, delicious flavor--its unvarying quality. Order "NEWMARK'S" from Your Grocer Today.

Be Sure and Visit "Newmark's" Booth at the Armory

Mrs. Florence Austin Chase will use Newmark's high grade Coffee, Tea, Spices and Extracts in all her cooking school demonstrtions at the Better Homes Exposition in the Armory this week

STATE'S WEALTH DOUBLED SINCE 1911, SHOWN

Total wealth of the state of California has almost doubled since 1911, according to word received here today from Sacramento, based on reports of the state board of equalizatoin and the state controller.

The assessed valuation of the state in 1911 was officially reported as $2,603,267,528, as compared with an assessed value of $4,922,700,063 now.

Real estate values have jumped over 100 per cent, and personal property values show an increase of almost three times the values in 1911.

IRRIGATION DISTRICT TRUSTEES NOMINATED

SAN JOSE, Sept. 24.—Eight prominent men of Santa Clara county have been nominated by petition as candidates for the board of seven trustees of the Santa Clara county irrigation district, and each one has been given the indorsement of the water conservation committee, through whose efforts the plan to form an irrigation district will be presented to the voters on September 27.

The candidates named will be voted on at the election, when the question of the irrigation district will come up for approval. They are:

Division 1, C. N. Bolfing and Robert Britten; division 2, E. A. Hayes and Frank Stevens; divisions 3 and 4, Albert M. Foster; division 5, E. K. Glendening and Charles E. Warren; division 6, F. W. Hackett. The only contest will be in division 1, the Gilroy-Morgan Hill district, between Britton and Bolfing.

DUCKETT PURCHASES NASH SPORT MODEL

Harry T. Duckett, formerly business manager of The Register, and now a retired citrus grower residing at Tustin, today stepped into the ranks of those driving new cars. He has purchased a Nash sport model.

This new sport model has all of the features that go with a car of that type and combines comfort with speed and good looks. The dark green body, with black wire wheels, black fenders and wind deflectors, presents a striking appearance.

Cutlery Sharpened—Hawley's.

HOSPITAL FUND DRIVE CHIEF RUSHES WORK ON BOARD PERSONNEL

S. J. Cornell, who has been appointed director of the campaign to raise a $250,000 fund for the Santa Ana Community Hospital association, today was expecting to have the membership of his advisory committee completed by tonight. The committee is an important one and the membership will consist of one representative each from the communities that will be served by the proposed endowed hospital.

At 2 o'clock this afternoon Cornell had not secured a down-town location for campaign headquarters, but hoped to have the matter definitely settled by this evening.

Plans are being made for putting the drive over with a bang and Cornell and members of the board of directors of the association today were optimistic as to success of the enterprise.

70 AT EPISCOPAL CONFERENCE HERE

More young men are entering the ministry of the Episcopal church this year than during any year of the past three years, according to statements made at the meeting of the Brotherhood of St. Andrew at the Church of the Messiah last evening.

Representative men of the organization were present from Los Angeles, Uplands, Riverside, Redondo, Long Beach, Orange, Santa Ana and other communities, the session being the quarterly conference of the Brotherhood.

"The Young Man and the Ministry" was the general theme of the conference. Addresses were made by the Rev. E. L. Lewis, Whittier; Attorney Merton Albee, Los Angeles, the Rev. Mr. Kirchofer, Riverside; Mr. Sams, assistant secretary of the Y. M. C. A. in Los Angeles, and Bishop William B. Stevens, of Los Angeles.

It was declared by the speakers that the ministry is one of the higher callings of life and that there is a great demand for more young men to take up this vocation. With more young men entering the ministry in the past year than during any of the previous three years, the conferees were optimistic and anticipated an increasing interest in the ministry on the part of capable young men.

Seventy men were present and they were served with dinner at 6:30 by the ladies of the church. The conference was held in the church at 7:45 p. m.

DARE MARRIAGE PERFORMED IN S. A. ANNULLED

A marriage performed here May 24, last, by the Rev. George N. Greer after companions of the contracting parties dared them to wed was annulled in Los Angeles by Judge Toland.

The parties to the "dare" union were Thomas E. Hamilton, 21, and Wilhelmenia Kaufman, 16-year-old daughter of Mr. and Mrs. Harry B. Kaufman of Long Beach.

They came to Santa Ana in company with Howard Sackett and Ruth Stillwell, also of Long Beach, and for the purpose of witnessing the marriage of that couple.

The Rev. J. A. Stevenson, pastor of the Presbyterian church, married Sackett and Miss Stillwell. Immediately after the wedding Sackett and his bride dared Hamilton and Miss Kaufman to follow suit.

According to Miss Kaufman, the other couple called her a "piker" and "slacker" and told her that she had a "streak of yellow." This evidently proved too much for Miss Kaufman and she and Hamilton returned to the courthouse for a license.

Miss Kaufman was just 15 years and eight months old on the day of her marriage. She is attractive, and, at the age of 11, won the sweepstakes prize for the most perfectly formed child between the ages of 1 and 11, at a contest held in Los Angeles.

Last week she was elected historian of her class at the Long Beach high school and is said to be popular among her school mates.

The young couple never lived together. Hamilton admitted that the marriage was more of a joke than anything else.

CHEVROLET BUSINESS HERE BOOMS, CLAIM

Business is booming, according to the Pashley Motor Sales company, distributors for Chevrolet cars in this territory. What with the cut in the price of the car there has been an increased activity in the sales.

Among the new owners of Chevrolets are Miss Clara E. Luse, Albert M. Fields, R. C. Curtis, Frank A. Preston, Carl C. Strock, S. Rogers, Mrs. L. McClain, H. D. Bladen, Santa Ana; George M. King, E. M. Sheldon, Jerome Bowen, Orange; and Raymond C. Finch, Costa Mesa.

CRANSTON, MITCHELL READY TO LEAVE FOR SCHOOL HEADS' MEET

Prepared to appear on one of the programs of the annual convention of county and city school superintendents of Southern California, City Superintendent J. A. Cranston was ready today to leave for San Diego tomorrow afternoon to attend the convention which will open at Hotel del Coronado next Monday.

R. P. Mitchell, county superintendent of schools, will also leave at the same time and other members of the party will include Mrs. Cranston and Mr. and Mrs. E. F. Borchard of Long Beach.

Mrs. Borchard is a daughter of Mr. and Mrs. Cranston, and they are taking advantage of her husband's vacation from his duties in the Long Beach Trust and Savings bank to join in the outing.

"I am taking my tennis racket along with the hope of varying the educational programs with some good games," today stated Superintendent Cranston.

O. K. 'PRUNES' NAME FOR GOBS' MASCOT

Families of Santa Ana boys who are now sailors on the great battleship California are in receipt of No. 1, Vol. 1 of "The California Cub," a little publication put out by the sailors themselves on board. In addition to the local quips of the ship there is a page of world news by wireless.

The chief article of the issue is a protest against a proposal to change the name of the California's bear mascot from Prunes to Yosemite. The boys' verdict is: "Prunes she was christened and Prunes she will remain until the end of time."

The California is anchored off Venice, where it will remain until Monday morning, and a number of local boys from the ship were expected here to visit their families, as shore leave was promised them.

MOCK BISCUIT TORTONI

One cup thin custard; one cup macaroon crumbs; one teaspoon vanilla; one tablespoon gelatin; one-half cup cold water; one cup whipping cream.

Roll macaroons to obtain crumbs. Soak gelatin in cold water fifteen minutes, add to hot custard; set dish in a pan of cold water or cracked ice, and stir until cool and somewhat thickened. Add macaroon crumbs, vanilla, whip cream and fold into mixture. Pour into a wet mold and set aside until firm.

DANGER OF OIL STRIKE WANES IS BELIEF

Orange county oil workers and the public generally were interested in the announcement today at Bakersfield by Walter Yarrow, official adviser of the striking oil workers, that a statewide strike is unlikely and that the union men have accepted the cut of one dollar a day in wages, open shop and non-recognition of the union.

This is said to have been the result of conferences at Bakersfield yesterday and last night, at which there were developments giving rise to hope of early settlement of the strike, at this time confined exclusively to the Bakersfield fields.

"Picketing of Bakersfield highways by the strikers' law and order committee will continue," declared Yarrow." A statement that pickets have been withdrawn is untrue.

"Private cars will not be stopped, but we reserve the right to follow cars we suspect of carrying strike-breakers or booze. The law and order committeemen have as much right on the highways as anyone else."

Appeal to Harding

A telegram signed by Yarrow and E. B. Daniels, secretaries of the district council, to Al. Weil, former chairman of the Oil Operators' committee, and to President Harding and Governor Stephens, was sent from Bakersfield today appealing for a quick and satisfactory conclusion of the strike.

"It's practically certain that the strike affecting Kern county will not be extended," declared R. H. Frazer, vice president of the district council, Bakersfield advices said. "The request of the federal oil board will be respected."

Oil operators in the Kern county oil fields are convinced that this is not the right time for them to attempt to resume operation of their wells, according to a statement made in San Francisco by D. S. Ewing, head of a committee, sent into the field by the Oil Producers' association.

The association controls the wells, employes of which have been on strike for two weeks to "force the operators to permit the United States government to underwrite working agreements."

Ewing said his committee was convinced that any attempt to reopen the wells now would lead to violence, heavy loss of property and perhaps loss of life.

He said the oil producers would consider some means of resuming operations at the earliest possible date which would avoid trouble.

'Y' MAN ASKS FOR FURNITURE SHOWER

"Showers of Blessings."

That is the name of an old Sunday school song and Secretary George S. Chessum of the Orange county Y. M. C. A. hopes that it will soon be exemplified by all who ever heard it sung.

"We want a furniture shower for the Y suite of rooms," he said today, "and believe that in the garrets of Santa Ana is stored enough furniture to fit up the entire building. If this furniture could be refinished and made substantial and attractive it would be one of the most welcome gifts the Y could receive."

Secretary Chessum stated that if the owner of any such furniture would telephone the Y headquarters, (1224-W), officials of the organization would be glad to arrange for getting it themselves.

"Of course," said Chessum, "it must be borne in mind that the rooms are to present a comfortable, homelike appearance, so that pieces which have been discarded because of their worthlessness, should not be sent, but we believe that many persons have set aside a roomy substantial chair or a big couch because it didn't harmonize with the other furnishings of the home. These are things needed at the Y.

"The problem which arose as to the manner of curtaining the windows seems to be in a fair way to be solved. For I sent out the S. O. S. signal to a committee of women with the idea that it came in their realm."

This committee composed of Mrs. Herbert Rankin, Mrs. William M. Smart, Mrs. O. H. Catland, Mrs. F. T. Porter, Mrs. A. A. Jones, Mrs. W. D. Walker, Mrs. W. B. Tedford, Mrs. Eleanor Elliott and Miss Kathleen Owens as chairman, met late yesterday afternoon in the Y rooms and, calling in an expert window decorater, made plans for curtaining the windows. After an estimate of the expense is given, the matter will be presented by each woman to the aid societies of her church, and it is hoped that action to provide the hangings will result.

SCHOOL GEOGRAPHY IS FOUND INCORRECT

SACRAMENTO, Sept. 24.—A history textbook adopted by the state board of education for use in California schools has been found by Will C. Wood, state superintendent of public instruction, to be so incorrect that several changes will be necessary before the superintendent will pass favorably upon it. The author has the first gold discovered in California found on the American river, near San Francisco. Another history submitted contained the statement that gold was discovered at "Captain Sutter's sawmill raceway in the Sacramento valley."

A geography written by a prominent eastern educator has still another version of the discovery of the yellow metal, stating "gold was discovered on the Merced river."

In one of the geographies Wood discovered that credit for practically all the deciduous fruit industry of the state had been given to Southern California.

Compound 10c, today only, at Chaffee's.

LESSER CHARGES LAID TO DEATH SUSPECT TRIO

Three Mexicans arrested in Santa Ana canyon late yesterday on suspicion of being connected with the shooting of two deputy sheriffs of Riverside county and the probable fatal wounding of a 17-year-old boy, were scheduled to be arraigned on lesser charges in the justice court here today.

The trio were picked up near Sulphur slide by Deputy Sheriffs H. S. Warner, Vernon Myers and Lester Crowl. Upon receipt of information from Olive that two Mexicans had been observed boarding a moving freight train at that point, Sheriff C. E. Jackson dispatched the three deputies to the canyon.

After being out about three hours they came upon Joe and Dave Guterez, brothers, and Jose Hernandez. The trio had been traveling in an automobile. They had parked the car beside the road and were resting under a shade tree. The officers found two gallons of wine beneath the tree, and a .32 caliber revolver upon Hernandez.

Jackson stated today that the Guterez brothers would be held on vagrancy charges and that Hernandez would be charged with transporting liquor. All three of the suspects have been photographed and their pictures have peen forwarded to the Riverside authorities.

Riverside posses still are hot on the trail of two Mexicans, one of whom Thursday shot and killed Deputy Sheriffs Theodore Crossley and Henry F. Nelson and wounded Martin Helm, 17, who charged the Mexicans with stealing hay.

Persons who know Juan Palmerino, said to have fired the shots, say they saw him on a street car between Riverside and Arlington but did not attempt to arrest him because they were unarmed.

Armed groups of men have been dispatched to Redlands junction, Pigeon pass and Box springs grade.

MAN DRAGGED 50 FEET AS AUTO STRIKES HIM

H. L. Copson, proprietor of a local auto livery, was somewhat lame today and was nursing bruises sustained about 8 o'clock yesterday evening when the bicycle which he was riding was struck by an automobile driven by H. H. Gardner.

The accident happened in the 1,000 block on West Fourth street. Gardner claims that Copson had no light on his bicycle and that he did not see him in time to avoid the collision.

Copson, on the other hand, says that Gardner was traveling at a high rate of speed. Copson was dragged about 50 feet.

Efficiency In the Kitchen

THE modern home manager plans to conduct her kitchen just as efficiently as a business man does his office. This requires the best of modern equipment.

That is why Mrs. Florence Austin Chase, exponent of better homes, came to the Spurgeon Furniture Company and chose the Garland Range and McDougall Kitchen Cabinet for the "perfect kitchen" in which she will give her cooking demonstrations at the Better Homes Exposition next week.

Profit by Mrs. Chase's example and make YOUR kitchen equipment modern and efficient.

The Cooking School

Where is the woman who is not keen for new touches that will make her home menus more tempting and healthful?

Mrs. Chase has planned a different bill-of-fare for each afternoon, she will do the cooking before you; you will taste her dishes with keen delight and learn how it is done.

This skillful teacher will show you how to give your own cooking a new appetizing appeal, how to select and prepare meals of highest nutritive value, rations best balanced for the whole family. She will give you reliable practical recipes, with instructions as to the materials, conditions, and operations necessary for greatest success in your kitchen.

FOOD EXHIBITS

Foods that will appeal to you will be exhibited and demonstrated. You will be told how to use them in the most tempting way. Come early and visit all the booths.

Lecture subject: Home Management to include household accounting.
Demonstrating Deserts, hot and cold, including pastry.
Bring your Note Books and Pencils, Saucer, spoon and napkin will be given free to every one—courtesy of Sam Steen.

The Register is bringing Mrs. Chase to Santa Ana believing that her lectures will do much towards better homes, which after all are the foundation of citizenship. The proper home atmosphere and environment has its lifetime effect on the child—better homes mean better men and women. We hope that the women of Santa Ana and vicinity will attend every lecture and that her visit here will result in better homes, if such is the case, then THE REGISTER will be amply repaid for the effort.

Mrs. Florence Austin Chase

Of Chicago National Authority on Home Economics

Save the Week Sept. 26th to 30th, Afternoons!

Don't let any other engagement interfere! Consider this as nearly personal an invitation from the Daily Register as is possible for us to give to our thousands of women readers.

We are proud to introduce Mrs. Chase to our friends—a personality that has won the hearts of thousands in the larger cities of the east and south. She has a message for you, and a host of helpful suggestions. Bring a pencil and note-book but no money. Remember, there is no charge.

Home Economics Lectures

A thorough going-over of the whole house, in its arrangement and equipment and the methods best adapted to efficiency in housekeeping.

Mrs. Chase sets a new standard in the scientific management of the home, and yet her every suggestion is practical and applicable to the routine of the most modern home.

She treats of the furnishings and decorations best fitted to the various rooms—the necessary things, the attractive features, conveniences that make for economy, selections that really last.

Mrs. Chase discusses housekeeping as woman's business—the appearance of the house, its equipment and care—how the home plant should be laid out and how labor-saving devices installed can reduce worry. She discusses the family budget and suggests ways of cutting down expenses.

BETTER HOMES EXHIBITS

The exhibits pertaining to the home will reveal the very newest in furniture, rugs, kitchen ware and labor saving electrical devices. You will feel amplyy repaid by spending much time among these exhibits.

SPURGEON FURNITURE CO.—Living room furniture, rugs and draperies, Garland Gas Range, McDougal Kitchen Cabinet, Automatic Refrigerator, Pembco Kitchen Table Used by Mrs. Chase in her Cooking Demonstrations.

J. C. HORTON FURNITURE CO.—Bed Room and Dining Room Furniture, Brunswick Phonographs and display of Kitchen equipment including Favorite Fireless Gas Range, Hoosier Kitchen Cabinet, Baldwin Dry Air Refrigerator, Pembco Kitchen Table.

J. G. ROBERTSON ELECTRIC CO.—Electrical devices for the Home. A. B. C. Washer, Premier Vacuum Cleaner, Dish Washing Machines and Electrical Cooking Devices.

LINDHOLM "Quality Music House"—Chickering Piano used exclusively.

There is so much to see, hear and learn, that more than one visit will be necessary to take it all in.

Music Program

Mrs. Chase is a great believer of music in the home—the right kind of music and everywhere she lectures, the musical program is sure to be a feature. Through the courtesy of Santa Ana musical lovers, augmented by artists from Long Beach, the musical program will be a treat.

MONDAY—Clarence Gustlin, Pianist
Mrs. A. F. Slabaugh, Soloist
TUESDAY—Miss Kathleen Owens, Soloist
WEDNESDAY—The Virginia Quartette of Long Beach
Ruth Burdick Williams, Soprano
Dawn Clements, Mezzo
Dudley Chambers, Tenor
John Johnston, Bass
Mae Gilbert, Accompanist
William Conrad Mills, Director
THURSDAY—Mrs. Theo. Winbigler, Soloist
FRIDAY—Nellie Callender Mills, Violinist
Mrs. Walter Leecraft, Soloist

Full program will be announced later. Chickering Piano from Lindholm used. Each day selections will be given on the Brunswick Phonograph, courtesy of The J. C. Horton Furniture Co.

You Are Welcome to All Sessions of This Exposition

No charge for admission and no attempt made to sell anything. This is merely an effort on the part of your newspaper to bring you the newest ideas in home management—particularly in food selection and preparation. This is an invitation to taste well-known foods cooked in new ways and new foods served at their best.

Don't Confuse the Better Homes Exposition With the Ordinary FREE EVENT!

Because it costs you nothing is no reflection upon the quality of this undertaking. At great expense of time, labor and money, we have inaugurated this exposition with the purpose of strengthening your confidence in the grocery products, furnishings and household necessities advertised in the Daily Register. and encourage better homes. This decidedly refined educational step plans to cement the friendship between the manufacturer, merchant and home.

COME AS OUR GUEST. YOU WILL BE UNDER NO OBLIGATION WHATEVER

DOINGS OF THE DUFFS — AN ADVANTAGE — BY ALLMAN

IS THIS YOUR BIRTHDAY?

LIFE AND CHARACTER READING

SEPTEMBER 24

Born on this birthdate you will be energetic, eager to attain, fond of art, a lover of music and the theater. This birthdate controls the births of many famous actors and actresses.

Many people of this birthdate in public life are generous to a fault. They make a great deal of money and they spend it in an extravagant manner. And many people take advantage of their good nature to impose upon them.

Women born on this date are apt to be careless. They are impatient of details and slow processes of work. They are apt to be jealous and must daily practice the lesson of self-control.

The governing planet of this date is Mars and the governing sign is Mars. The birthstone is a sardonyx.

Contractors will do well to use the Want Ads for securing Business. Automobile interests are well favored by planetary forces this week.

Legal Notices

NOTICE FOR PUBLICATION OF TIME OF PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.
In the Matter of the Estate of William B. Rochester, Deceased.
Notice is hereby given that Friday, the 30th day of September, 1921, at 10 o'clock a. m., of said day, at the Courtroom of this Court, Department No. 2, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Charles D. Brown, Public Administrator, praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters of Administration with the Will annexed be issued thereon to him, at which time and place all persons interested therein may appear and contest the same.
Dated September 16, 1921.
J. M. BACKS, County Clerk.
GEO. H. SCOTT, Attorney for Petitioner.

NOTICE OF RECORDING ASSESSMENT

I, Edw. W. Dahl, as Street Superintendent of the City of Santa Ana, do hereby give notice that the assessment for the extension of Cubbon Street, a public street in the City of Santa Ana, easterly from the easterly line of South Main Street, also a public street in said city, in a straight line to the westerly line of Orange Avenue, also a public street in said city, said extended portion of Cubbon Street to be 50 feet in width and open to public use, was completed and filed by me in the office of the Clerk of the City of Santa Ana on the 15th day of August, 1921, and confirmed by the Board of Trustees of said city at a regular meeting thereof held on the 19th day of September, 1921, and that said assessment and the diagram were by me duly recorded in my office in a book kept for that purpose on the 20th day of September, 1921, and are now of record therein.
All sums assessed therein are due and payable immediately and that the payment of the said sums is to be made to me at my office in the City Hall of the City of Santa Ana within 30 days after the date of the first publication of this notice and which notice was first published on the 21st day of September, 1921.
All assessments not paid before the expiration of said 30 days will become delinquent and that thereupon 5 per cent upon the amount of each such assessment will be added thereto.
Dated this 21st day of September, 1921.
EDW. W. DAHL, Street Superintendent of the City of Santa Ana.

No. 43487
NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE

In the Superior Court of the State of California, in and for the County of Los Angeles.
In the Matter of the Estate of Minnie Killinger, Deceased.
Notice is hereby given that the undersigned, Louis H. Boelter, Executor, of Minnie Killinger, Deceased, will sell, at private sale, subject to the confirmation of said Superior Court, on or after the 8th day of October, 1921, at the office of Kennicott & Williams, 608 Equitable Building, Los Angeles, California, all the right, title and interest of said deceased at the time of her death, and all of the right, title and interest said estate has acquired by operation of law or otherwise, in addition to that of said deceased at the time of her death, in and to the real property situated in the County of Orange, State of California, and described as follows, to-wit:
Lots Two and Three (2 and 3), Block Three Hundred Sixteen (316) as designated and delineated upon a certain map of said tract recorded on page 36 of Book 3 of the Miscellaneous Records of said County of Orange, State of California.
Terms and conditions of sale, cash gold coin of the United States, 10% of the amount bid to be paid at the time of sale, balance on confirmation of sale by said Superior Court.
Bids or offers must be in writing and may be left at the office above mentioned any time after the first publication of this notice and before making said sale.
Dated September 15th, 1921.
LOUIS H. BOELTER, Executor of the Estate of Minnie Killinger, Deceased.
KENNICOTT & WILLIAMS, Attorneys for Executor, Equitable Building, Los Angeles, California.

No. 12628
Notice for Publication of Time of Proving Will, Etc.
In the Superior Court of the County of Orange, State of California.
In the Matter of the Estate of W. C. Adkins, Deceased.
Notice is hereby given that Friday, the 7th day of October, 1921, at 10 o'clock a. m., of said day, at the Court room of this Court, Department No. 2, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Duward W. Adkins, praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters of Admistration with will annexed be issued thereon to said Duward W. Adkins at which time and place all persons interested therein may appear and contest the same.
Dated Sept. 22, 1921.
J. M. BACKS, County Clerk.

Legal Notices

NOTICE

No. 12413—Department 2
In the Superior Court of the State of California, in and for the County of Orange.
J. Y. Wentworth, Plaintiff, vs. Anna Wentworth, Defendant.
To Pat O'Day: You will take notice that you were charged as a party co-respondent in a complaint filed in the above-entitled action on the 18th day of July, 1921. And you are hereby notified that you may appear and answer said complaint within ten days from the last date of publication herein.
Given under my hand and the seal of the Superior Court of the County of Orange, State of California, this 22d day of September, 1921.
(Seal) J. M. BACKS, Clerk.
By E. R. ABBEY, Deputy.

NOTICE TO CREDITORS

Estate of Adhemar Denys, deceased.
Notice is hereby given, by the undersigned, administrator of the estate of Adhemar Denys deceased, to the creditors of and all persons having claims against the said deceased to file them with the necessary vouchers in the office of the Clerk of the Superior Court of the County of Orange, State of California, or to exhibit the same with the necessary vouchers to the said Administrator at his place of business, at the Court House in the City of Santa Ana in the County of Orange, within four months after the first publication of this notice.
Dated this 17th day of September, 1921.
CHARLES D. BROWN, Administrator of the Estate of Ademar Denys, Deceased.
W. F. MENTON, Attorney for Administrator.

NOTICE FOR PUBLIC WORK

Notice is hereby given that the Board of Trustees of the City of Santa Ana, California, proposes to award contracts for the construction of the following street pavements:
Spurgeon School for paving on Cubbon Street with 4" concrete base and 1½" asphalt top approximately 5800 square feet. Sycamore Street 5" concrete base and 1½" asphalt top approximately 10,500 square feet. Broadway 5" concrete base and 1½" asphalt top, approximately 9000 square feet.
Lincoln School for paving on French Street 5" concrete base and 1½" asphalt top, approximately 7340 square feet.
All to be constructed according to plans and specifications known as Specifications "A" and 101 on file in the office of the City Engineer.
Proposals to be submitted on blanks for each school separately to be obtained from the office of the City Engineer.
A certified check of 5 per cent of the total bid must accompany each proposal.
Bids will be received by the City Clerk of said City up to the hour of 5 P. M., October 3, 1921.
The Board of Trustees reserves the right to reject any and all bids.
E. L. VEGELY, City Clerk.
Dated this 16th day of September, 1921.

NOTICE OF PUBLIC WORK

Notice is hereby given that the Board of Trustees of the City of Santa Ana will receive sealed bids up to the hour of 5 P. M. October 10th, 1921, for the following street work.
For the construction of six (6) reinforced concrete culverts, approximately 80 feet long, with reinforced concrete inlets and outlets and catch basins and automatic syphon drain, located on Fourth Street as follows:
One each at French Street, Spurgeon Street, Bush Street, Sycamore Street, Broadway Street and Birch Street.
For the construction of one reinforced concrete culvert approximately 60 feet long with reinforced concrete inlet and outlet and catch basin and automatic syphon drain located on Second Street and French Street intersection.
All to be in accordance with plans and specifications now on file in the office of the City Engineer of the City of Santa Ana.
The proposals must be submitted on blanks which may be obtained from the City Engineer's office and accompanied by a certified check of 5 per cent of the amount of bid.
Bids to be opened October 10th, 1921, at 7:30 P. M.
The Board reserves the right to reject any and all bids and also reserves the right to accept the bid for one or more of these culverts.
Dated this 23d day of September, 1921.
E. L. VEGELY, City Clerk.

TALBERT

TALBERT, Sept. 24.—The Rev. S. M. Cheek, Sunday school field secretary of the Los Angeles district of the M. E. church South, is scheduled to preach tomorrow evening at the local church. He is planning also to address the congregations of the Rev. J. J. Woodson's other two charges, Greenville and Bolsa, at their respective service hours, 11 a. m. and 3 p. m. He will confer with the Sunday school board at all of the churches. This is the Rev. Mr. Cheek's first visit to this circuit since his appointment.

GRAPE MEN PROFIT UNDER VOLSTEAD ACT

SAN FRANCISCO, Sept. 24.—Grape growers of California are only anxious for the Volstead act to last.
"Instead of 300 wineries to receive the crop, we now have over 1,000,000 American homes, each a small winery in itself," declared Edward Sheehan, president of the California Grape Growers' exchange.
Figures issued by Sheehan show that the grape growers of the state have just sold a $75,000,000 crop of wine, table and raisin grapes.
More than 100,000 additional acres have been planted to grapes this year, he states, without fear that the crop can not be marketed.

DELETE 2350 KISSES FROM FILMS IN JAPAN

SEATTLE, Wash., Sept. 24.—Japanese police object to kissing in public, and film stars are not permitted to osculate on the screen, according to G. Stixrud, a motion picture exporter, who has just returned from Japan.
In the six months ending July 1 censors removed 2,350 kisses from films, only one kiss being allowed to remain. It was the kiss granted to the king by the queen in "We Are King," and was shown in Tokio only, as the censors delted it before permitting the photoplay to be offered in the prefectures.
Over 300 embraces were omitted from films, but few sex plays were otherwise altered. The titles of over 2,000 plays were made over and 127 murder scenes were killed. The reels that were entirely prohibited number thirty-seven.
The Japanese ,like, most of all, pictures showing life in big cities, races of automobiles, locomotives, airplanes and other modes of speed and adventure.

ONIONS—Locals, per cwt: Whites, sacked, 3.25@3.50. Per lug, 1.15@1.25. Stocktons per cwt: Whites 3.50@3.75, Yellows 3.50@3.75. Per lug: Browns 1.25, Yellows 1.25. Green onions, 15 per bunch.
ORANGES—Supplies moderate, market firm. Best brands, 5.00@5.25; few, 5.50; market pack, 3.50@3.75; small sizes, 2.25@2.75; loose pack, 1.00@150, mostly 1.00@1.25.

Who Buys Bonds?

A District Manager

The district manager of a large Eastern manufacturing concern is a client of ours. He answered an advertisement last spring in which we pointed out the exceptional opportunities available in bond investment.

This man must be out of the city a great deal and so transacts most of his business with us by mail. His orders usually read something like this:

"I notice you offer a First Mortgage 8% Serial Gold Bonds of Valley Ranch Company. I have studied this issue and it suits my requirements for a land bond investment. The margin of safety is certainly ample. I want three $1000 bonds. Send me the bill and I will forward check. Hold the securities for me until I call for them."

This man is an experienced bond-buyer. We are able to offer him a wide selection of very attractive securities and he relies upon our recommendations for assurance of safety.

Your answer to this advertisement may be your first step toward becoming a satisfied client of Blyth, Witter & Co. If you have money to invest it will pay you to send for a copy of "Investment Opportunities of Today" and ask for our recommendations.

And do it every day.
Our efforts and our works will show
We're started on the way."

AMERICAN VALUATIONS

A fight is being made in the present Congress to revolutionize our method of levying ad valorem tariff taxes. In the past, these taxes have been based upon the cost of the goods in the country of origin, as fixed by the consular invoices. It is now proposed to base the tax upon the average value of the imported commodity, in America, as fixed by the open market, where such goods are ordinarily sold or offered for sale in the usual wholesale quantities. It is intended that such valuation shall be fixed by the actual and fair market value of the goods in the United States, independently of any artificial fluctuations.

This plan, called American valuation, has the support of such experts as Secretary Hoover, Customs Judge Marion De Vries, and a multitude of representative American business men at the head of large industries. A little thought will show the justice and feasibility of the plan.

Granting that the object of a protective tariff is to protect local industry against unfair competition of cheap foreign labor, and that the object of any tariff tax should be to give equal treatment to all similar imports of whatever origin, it will readily be seen that American valuation is the only fair plan. If a certain article can be made in Germany for $1, and in England for $2, and the ad valorem tariff tax is 30 per cent, the German article would pay 30 cents tax, while the identical English article would pay 60 cents tax. There is no justice in that. It discriminates in favor of the countries having the cheapest labor and the most depreciated money, exactly in proportion to that differential. Thus, the more stable country suffers, not only the penalty of its own stability, but also the penalty of a higher tariff tax.

It has been pointed out that this, in reality, constitutes a violation of some of our international treaties. Some nations have treaties with us containing the "most favored nation" clause. This means that the treatment guaranteed to that country in any matter of interpreting our laws, shall be as favorable as that which is granted to the most favored nation in that respect. Under such a treaty, England would have a right to claim as low a tax on her imports as that applied to similar imports from Germany, or anywhere else. This certainly would be just, but it would create interminable confusion under the present ad valorem plan. It would turn the whole system into chaos.

The chief argument that has been advanced against American Valuation is by importers, who claim that it would deprive them of any certain method of estimating their tax in advance, and thus reduce their business to a gamble.

While there is some merit in that argument, it is not sufficient to outweigh the obvious advantages of the other plan. This plan is fair, not only to American business interests, but also to all importers, as it places them on the same basis. The tax, in other words, would be fixed by definitely ascertained local conditions, and not by different and varying foreign conditions.

As a matter of fact, there are not less than 50,000,000 people working—that is, earning their own living—in this country today.

YOSEMITE'S POPULARITY

Yosemite wins! By a margin of 10,000 California's great playground has wrested first place from Yellowstone in the race for attendance counted within the boundaries of the various National Parks.

Superintendent Horace M. Albright telegraphed today from Yellowstone that the total attendance for Yellowstone's season, closing September 20th, was 81,347. Yosemite, on September 19th, had a record of 89,157 visitors, with heavy travel continuing. Yosemite is open the year 'round. Annual attendance in Yosemite is figured for the twelve months ending September 30th, the government's statistical "travel year," and when final figures are in, Yosemite will show a total well above 90,000.

This is the first time in the history of the National Parks that Yellowstone, eldest of them all, has been toppled from the lead.

Mr. Albright reported that Yellowstone had 15,678 automobiles carrying 55,771 passengers which compares with Yosemite's record of 18,405 automobiles and 63,153 passengers, both Parks showing a substantial increase in this class of travel. Yosemite shows an increase in travel by way of El Portal, being one of the few Parks in the United States to which railroad travel this year has been greater than last, despite higher railroad fares which went into effect late in 1920.

After a few more ultimatums have expired, Great Britain and Ireland will get down to business.

SAFEGUARDING CHILD WORKERS

How one state has developed unique methods of protecting her youngest wage-earners is shown in a report just issued by the U. S. Department of Labor through the Children's Bureau, describing the employment-certificate system in Wisconsin.

In Wisconsin the state industrial commission has control over both the issuance of employment certificates and the inspection of industrial establishments. It has general supervision over the officers granting working permits and also has sole authority to appoint these officers. This centralized authority is strengthened by the commission's power to interpret legislation through its own rules and regulations, which are legally binding. Moreover, the commission's work of protecting children from illegal employment is made more effective by its power to bring civil action, instead of only criminal, for nearly all child-labor violations; the employer may thus be made to testify and to produce his records.

In spite of its many advantages, the Wisconsin law has several weak points, the most serious being that physical examinations of children entering industry are not required. However, such examinations are now made mandatory in the largest city, Milwaukee, by order of the industrial commission.

FIRETRAP SCHOOLHOUSES

The superintendent of school buildings of the city of New York stated the other day that many of the buildings would have to be closed at once if fire laws were enforced against them as they are against private buildings. The statement was made in preface to a plea for funds to make the school houses as nearly fireproof as possible, and to provide more fully for the safety of the children if fire should occur.

The speaker pointed out that, far from being closed, the buildings were not only open but overcrowded with children, so that conditions were doubly menacing. He begged that steps be taken to correct matters at once, "without waiting for the stimulation of some awful accident." He reminded his hearers, with gentle sarcasm, that "we unfortunately do have fires, even with the schools occupied."

The warning is one which need not be taken to itself by New York alone. In other cities and in rural districts conditions need improving no less than in the metropolis. No community has a right to dodge responsibility for the safety of its school children, nor can any amount of fire drills and training take the place of adequate protection against fire in every schoolhouse in the land.

We believe that schoolhouses in Orange county have been constructed with a view to the protection of children in case of fire. Still we have a few buildings—thanak heavens, they are very few—that are far from being what they should be. Since the matter is under discussion it would be well for every school board in Orange county to examine their district's buildings and, if there is need, take whatever steps are necessary to make the buildings safer.

Such things as doors opening inward, as dangerous furnaces, as furnaces under the only stairway, as lack of adequate fire escapes, should not be tolerated in a schoolhouse in this county.

Profitable Discussions

San Diego Union

County and city school superintendents of the state will convene in Coronado next Monday for the purpose of discussing matters pertaining to the conduct of affairs within the jurisdiction of their offices. It is not expected that the session will be able to deal with more than some broad generalizations of educational policy, summarized, perhaps, as usual, in recommendations for future action by the legislature, or in suggestions of method out of the various experiences of the superintendents.

We hope, however, that these officials will find time to discuss from a practical point of view some of the matters that most nearly affect the interests of the taxpayers. There is a belief quite general that since the teachers' salaries have been adjusted to a satisfactory standard the function of the school executives should now include an earnest effort to promote efficiency in every department of the teaching force and to exercise every economy consistent with good rsults.

It may be a mistaken notion, but it is one that prevails, nevertheless, that our educators are more inclined to load requirements upon the school courses than to prune the curricula of their extraneous, often unnecessary, and sometimes excessively expensive innovations and experimentations. Dr. Payson Smith, Massachusetts commissioner of education, is credited with the whimsical remark that he hoped there might some time be set apart an "arithmetic day" among the many other "days" allotted to the schools. He meant, of course, that too much time is wasted upon non-essentials and upon subjects that never profit the pupil. If anything of that sort exists in California it should be reformed, and it is within the province of the superintendents to see to it that only the essentials should be included in the school programs.

It is presumed, too, that every teacher is fully competent; if he is not, he is an unnecessary burden upon the taxpayer, and he should be replaced by a better one. It is desirable also that the teacher should be allowed ample time to conduct the exercises in accordance with his or her initiative rather than in strict conformity to set rules. One of the chief complaints against the modern school system is that the teacher is robbed of initiative and is reduced to a mere cog in a great machine, running with machine-like precision. This method is imperative in a system composed of teachers who regard their profession only as an avocation; but it is not the method that gives the parent-taxpayers the best results for their money.

It is possible that the California school system is a notable exception to all the others, and it may be entirely superfluous to ask discussion of these matters by the Coronado convocation. However, we should like to know the opinion of the assembled superintendents.

The Four Best Fish Stories

San Francisco Chronicle

The four best fish stories of the year rise at one cast. A Michigan dairyman finds that big fish milk his cows as the bossies stand in the lake in the heat of the day. It must be assumed that these lactophile fish are suckers.

The other three tales are native to California waters. While a camper was cooking his dinner by one of our famous trout streams a rainbow leaped at a fly close to the bank and failing to observe that well-known maxim about looking, landed on the bank and was promptly transferred to the pan. It is only in California that one can expect an epicurean dinner to jump out of the water into a hot frying pan.

The same camper landed a thirteen-inch Dolly Varden, which, as it flopped on the bank, disgorged a six-inch rainbow. This was two birds with one stone, the biter bit, and an illustration of the law of the fish world, as it is of the human—eat and be eaten.

This camper completed his trio of trout experiences when, standing barefoot in shallow water at the edge of a deep hole, he felt jaws clamp on his toes. Looking down in the midst of his startled jump he saw a seven-pound Dolly Varden let go his toes and turn down into the deep water. There the big trout seized his bait. The rattled angler struck too quickly, whereupon the Dolly followed the bait up and once more made for the gleaming toes. Balked there, it again turned to the bait and was landed. The Dolly Varden trout is commonly known as a hog to anglers in the waters where it occurs. It appears now that it also deserves to be called an alligator.

These tales should hold the fishermen for a while.

Done In Her Own Name

Today's Talk

by George Matthew Adams

WHY?

A whole lot of the sorrows and troubles in this world come about just because someone didn't stop to think what they were doing or saying. A great deal of the lost motion and inefficiency in the world comes about because someone rushes headlong into the job, works without a definite purpose—without first finding out Why.

Before you do a thing, ask "Why?"

Let "Why?" guide you and save you time and strength and power. Put your actions and your words to the test of "Why?" Ask yourself, "Why should I do this thing?" "Why should I refuse to do it?" "Why should I say that unkind word?" "Why shouldn't I finish the job?" "Why do I make this move?"

Before you do anything, ask "Why?"

Make "Why?" very personal. "Why do I squander so much time? Why do I appreciate so little the chance to live? Why do I use so small a fraction of my brain power? Why don't I keep my body up to par? Why don't I make more friends? Why do I worry about things that never happen? Why do I scold when I should cheer?"

WHY?

The Velvet Hammer

FRED A ROSS

"Nobody loves a fat man" is the burden of a song, but Fred A. Ross has hosts of friends to prove the statement wrong. For Ross's manly figure is one of ample girth, while his visage with its cheery smile, helps brighten up the earth.

Fred learned the motor business at an age when other boys were getting into mischief or playing with their toys, and as a motor salesman of credit and renown has sold as many autos as any man in town. The Studebakers he has sold if run upon a track would make a double column clear to the beach and back.

He always is obliging when he's called upon to sing and his voice would charm the robins or the thrushes in the spring. A welcome always waits him when on Tuesdays he attends the meeting of the Rotary together with his friends and dearly does he love a joke nor is he at a loss to laugh whene'er it chances the joke is all on Ross.

Worth While Verses

BEADS

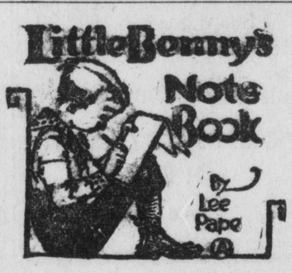

The Year,high pontiff in the Sea of Time,
Hath four obedient ministers—the Spring,
Slipping green heads along his rosary;
The Summer, telling gleaming amber globes;
The Autumn, sliding deep vermillion spheres,
And Winter pallid opals void of fire.
We watch them all, indifferent, or in dreams
That they forevermore will tell for us
Bead after bead. Then, sudden, comes an end
Upon an hour unvisioned! Otherwise,
Beyond all mortal ken, beadsmen unknown
Will life their angel orisons for us.

They are idols of hearts and of households;
They are angels of God, in disguise;
His sunlight still sleeps in their tresses,
His glory still gleams in their eyes.

Oh! those truants from home and from Heaven,
They make me more manly and mild;
And I know now how Jesus can liken
The kingdom of God to a child.

—Charles Dickens, "The Children."

The Press and the People

Their Mutual Relations and Obligations

Under this heading the Register intends to have some heart-to-heart talks with its readers, in an endeavor to bring about a better understanding of each other's point of view.

DISCUSSION IS AROUSED BY A LETTER WRITTEN BY "JUST A WORRIED MOTHER"

The sincere and sorrowing appeal for help from the one signing herself "Just a Worried Mother" touched on so many points of vital interest and importance that I hoped it might be the starter for a symposium in this column, the results of which afford help to more than one worried parent, or parent who ought to be worried.

Although I do not feel qualified to answer directly, as requested, the questions put by this mother, I should like to give expression to some thoughts that came to me after reading her letter.

Doubtless many parents were in a state of perplexity at the beginning of the school year as to whether it would be best to have a son or a daughter continue in high school at this time of high costs and uncertain income. I should say that when a pupil's reports during the past year have shown marks as low as 3 or 2—it would be well to keep him out of school. If he has shown more enthusiasm for automobile rides than for the "fairy tales of science" and the glorious things of literature, by all means he should be taken out of school and put to work in a garage. If a girl has shown more interest in the adornment of her body than in the enlightenment of her mind, it is high time she were taken out of school and put to work in a dressmaking or a millinery parlor.

It is this class of pupils that gives the teachers most work and worry and causes more often a proper proportion of school expense. The burden of our educational system has become such that I think that before long a tuition charge will have to be made for our high school pupils as has been done at our state university, but in preference to that I should recommend a weeding out each year of those high school scholars who have proven themselves unworthy of the advantages furnished.

And even when a pupil is doing the best he is able to do in high school "one good custom" may not be best for all.

If a pupil is not getting a good deal out of high school he is losing the best four years of his life for the acquirement of skill in some line of work in which he might achieve success. Thirty years from now will show as does today many useful, successful leading men and women who have never darkened the doors of a high school. The pity of it is that parents are so occupied with matters which must seem to them of more importance that they do not make a study of their children to learn what are their gifts, their aptitudes and their deficiencies.

Superintendent Cranston at the opening of the school year sounded the note of alarm as to automobiles and picture shows, and to those things it will do no harm for me to add picnics, hikes, dances, wienie bakes, progressive suppers, slumber parties, etc. It has seemed to me that the free use of an automobile merely for pleasure by a young person who has not earned and paid for it is accountable more than any other one thing for moral deterioration of young people. Pleasure in the present, not preparation for service, is the aim. This mother is troubled by her boy's prodigality in the use of money. I should scarcely recommend the free use of a car by a young man as a means of instilling in him the principles of economy.

Time is it that many a parent should resolve, "If the possession of an automobile cause my son or my daughter to stumble, I will own no automobile while the world standeth."

It is to the credit of this mother that she is now awake and worried. Worry is a good thing in its place. Would that there were more of it!

ELLA BEVIER ROBINSON.

Bear Stories for Bedtime

BILLY BEAR'S FIRST GAME OF WHIP-CRACKER.

By Harvey Elliott.

Billy Bear decided he didn't want to play with Gawkie the Mule any more, at least not now. He thought Gawkie was entirely too reckless with his hind legs. After his side quit hurting he went back to continue his investigations in the barn. When he saw Old Gawkie pointing his ears at him again he shouted, "Never mind, now, sticking those old scoop shovels at me. I don't associate with you any more. You haven't got any manners about you. You blow your nose at a fellow at one end and back-fire on him at the other end. Besides, you're too ugly. I don't want to have anything to do with you!"

"Ba-a-a!" Billy looked to see where that noise came from. He chuckled right out loud when he saw his old friend Bossie Cows calf over in a corner of the barn. He hadn't forgotten the time it sang such a beautiful solo when he tried to play with it in the barnyard and how Old Bossie smashed through the fence and chased him up into Farmer Smith's wagon.

Now Billy thought the situation all over. He didn't want to do something he would be sorry for. He came to several conclusions. First, he was sure that none of the Smiths were at home. Second, that Baby Calf was shut in the barn and Old Bossie would hardly be able to get in. Then Gawkie the Mule was tied up. Billy couldn't see anything that stood in the way of a little fun with that Baby Calf.

Billy Bear walked over and introduced himself. "Hello, Kid," he said, "don't you remember me? I'm the fellow you sang the song to a few weeks ago."

Well, the calf didn't seem to remember, at least he didn't seem to be particularly glad to see him. It didn't seem to be greatly frightened, but just looked at Billy in kind of a disgusted way.

"Well, don't be so stuck up," said Billy as he stood up on his hind feet, "or I might box your ears for you." And then Billy gave it a little tap on the side of the head. With that the calf wheeled around and kicked its heels at Billy.

"Look out, now," shouted Billy, "looks as if Old Gawkie had been teaching you bad tricks." Billy made a grab and caught one of its hind legs but in his effort to hold on the little calf jerked and kicked and whacked Billy on the side of the head. But it didn't hurt, so Billy made another grab and caught it by the tail. The calf started to run and Billy hung on and ran along behind.

The calf got frightened and began to bawl. The faster it ran the louder it bawled. Round and round the barn it went, with Billy Bear hanging on to its tail. Gawkie the Mule snorted and nearly pulled his head off trying to get loose. Billy tried to steer the calf around so he wouldn't go past the kicking end of the mule.

Billy Bear never had so much fun in his life. He was sure putting on one big show when something happened that was not on the program. That calf made a quick turn around a partition and played whip-cracker with Billy. Billy cracked off and landed in an open hatchway and went rolling down the stairs into the basement below. The stairs were quite steep and Billy sure saw stars when he landed on his head at the bottom.

Things which seem very funny at the time may bring a headache with them at the end.

Next story—Billy Bear's Trouble in the Basement.

HEALTH

SOMETHING ABOUT HOW TO KEEP WELL

DEAFNESS

Deafness may be prevented by leaving the ears alone and taking care of the nose and throat. Those who are in the habit of catching colds usually are afflicted with ear troubles which in time result in deafness.

Studies of people who become hard of hearing at middle age show that this condition is somewhat disposed to run in families and it is those families which are particularly prone to colds and "grip" in which partial deafness always results.

Any measures which one may successfully employ to prevent colds in the head will prove of vast benefit in the prevention of deafness. Good bodily health, strenuous exercise in the open air, and proper dressing are important measures. Much harm may come from overdressing or bundling up the neck as it also may come from neglect to dress warm enough for cold or damp weather. One should never allow his skin to become so sensitive or his body resistance to become so low that the slightest draft or cold air will bring a cold.

People who spend much time indoors should see that their homes are well ventilated as well as properly heated. Wrong ventilation or a lack of it and improper heating cause colds.

There is a time in the development of children when certain glands are apt to become diseased and enlarged. These are termed "lymph glands" and when located in the throat and nose, as they usually are, they are known as enlarged tonsils and adenoids. They are irregular in shape and full of creases and depressions so that they readily become the storehouse of many germs. In an enlarged condition they interfere with nasal breathing and thus the whole upper breathing tract is more or less obstructed.

The efforts of the child to clear his nose and throat of the continuous discharge is liable to force some of the germs which are in the secretion into the tube connecting the throat with the ear. Thus the ear becomes infected and earache results.

NAPOLEON'S MAXIMS

The defect of our modern institutions is that they do not speak to the imagination.

Anything can be remedied with courage and patience.

Be prudent: but know when to be bold.

He who fears to lose his fame is sure to do so.

Self-conceit is the worst adviser.

It needs more courage to suffer than to die.

Public opinion is quick to prostitute itself in its own interest.

He who takes the helm must support the weight of it.

Learn how to listen, and remember that silence often produces as much effect as words.

Imagination rules the world.

REPLIES DELUGE FINE AS MANY KEEP TAB ON VIOLATIONS

Reports Made to Auto Editor and Others too Numerous to Check

SHOWS LAW DISREGARD

Vast Majority Complained of Failure to Give Proper Hand Signals

By HORACE FINE
(Auptomobile Editor of The Register)

It was awful, friends—the deluge of reports on traffic violations coming into The Register office in response to the suggestion made by me last week that persons observing traffic violations report to me, to either of the auto clubs or to city police officers.

The reports came so rapidly that it was impossible to keep a check on them to determine the number.

The week's observation by many drivers opened their eyes to the fact that a very large percentage of motorists pay not the least attention to some of the most important regulations, particularly the signs indicating a turn by the car or a halt.

Fail in Signals

A vast majority of the reports were for failure to give the hand signals at corners. Many reports came in regarding incorrect execution of the signals.

In too many instances the drivers turned in directions opposite those indicated, the signals in such instances having been improperly executed. For instance, a driver giving a signal that he was going to turn to the left would hold his left hand so high that the driver following would interpret it to mean a turn to the right. The reports indicate that a number of minor accidents came near happening as a result of drivers failing to give the correct signals.

Laws Disregarded

Laws governing the crossing of intersections were utterly disregarded.

Not one driver in a hundred that I observed personally during the week made an effort at compliance with the regulation limiting speed to ten miles at intersectional streets where heavy traffic obtains.

Any number of motorists "got a kick" out of their experience in keeping tab during the week, and many declared to me that their casual observations prior to my suggestion had given them no conception of the vast number of drivers who have no regard whatever for traffic rules.

REWARD OF $100

A reward of $100 is offered to anyone giving evidence leading to the conviction of any person who maliciously cuts, tears or in any way defaces books or magazines in the public library. By order of Board of Library Trustees.

Tennis goods—Hawley's.

Ohmygawsh! 8000 Fords Run Wild In Havana as Traffic Laws Minus!

"Ain't we got fun"—over in Havana, Cuba.

Listen.

Operating within a territory whose radius is little greater than a mile, 8000 Ford automobiles are used—over in dear old Havana.

With no speed limitation nor traffic regulations, the drivers are left to their own fate as they rush back and forth through the streets. It is said that the hands and feet of the drivers have become so highly developed that they can swerve their machines out of each other's way more adeptly than can be imagined.

How would you like to live in Havana?

Is the danger to life there any greater than at the corner of Fourth and Main or Fourth and Broadway during the busy hours?

Not that traffic here is confined solely to Fords, either, bigosh.

EXPERIMENT WITH OIL SAND FROM BEACH AS MATERIAL FOR ROADS

Experiments in the use of Huntington Beach oil sand for road purposes are being made by Supervisor T. B. Talbert of Huntington Beach and the county engineer's department, it was stated today.

If the sand proves to be good road-making material, a large quantity will be used on dirt roads around Huntington Beach.

This sand is brought up from the oil wells. While the sand is a bit "mushy" by having too much oil in it, it is believed likely that it will "work down" satisfactorily. Some of it is being used in patchwork, such as filling ruts, and some of it is being used to cover especially dusty and rutty roads.

Oil companies are anxious to get rid of accumulations of oil sand. They not only make no charge for the material, but load it upon county trucks free of charge.

SENDS CLAIM HERE FROM WISCONSIN

Though the east is east and the west is west, you never get too far out of reach with the west.

So says T. J. Carroll of Sunset Beach, as he merrily spins along toward Florida, caring naught for the terrors of Eastern roads because he has insurance in the Auto club of Orange county.

"Someone told Carrol that Florida winters were better than those of California and to find out the truth of the matter, Carrol packed up his belongings and started eastward," said Lester Tubbs, adjuster for the club, today.

"Before he left he took the precaution of visiting the office of the Automobile club of Orange county to renew his insurance, so as to be well protected while on his trip.

"And now he's glad that he did. Sure enough, back in the cold and wintery state of Wisconsin he had an accident. Not a big one, but enough to send a claim to the Automobile club of Orange county."

And now Carrol is again on his way rejoicing.

NEW MODELS OF CADILLAC ON VIEW HERE

'61' Phaeton and Sedan On Floor of Local Garage Lure Visitors

With a phaeton and sedan of the Cadillac 61 model on the floor, Otto Haan, manager of the Cadillac Garage company, today was completing plans for the formal moving of the new products of the factory tonight and all of next week.

The new models have just arrived and the two types mentioned were all that the agent was able to secure at this time. The touring car is not yet available for the display. The public is cordially invited to inspect the cars.

"The new car is distinctly a Cadillac, but a new and more beautiful and more wonderful Cadillac," said Haan today. "The improvements are so marked as to distinguish the car in any company.

"The change of radiator shape is reflected in a hood of more liberal dimensions, with a trim and slender highlight flashing along its entire length where it dips out on either side. This improved front end gives to the car a more distinguished appearance and conveys an impression of greater power. An added touch of smartness is given by the new style head and side lamp which are equipped with non-glare optical lenses of an exclusive and handsome pattern.

"Increased beauty of design is apparent in the sweep of the fenders and in all exterior lines. The rear quarters of enclosed bodies have been changed from sweeping curves to slightly rounded corners in line with the trend of the most advanced design. All cars seating five passengers or less now have the full length of wheelbase, which is 132 inches.

"The greatest advance in style and beauty is achieved by bringing the entire car closer to the ground. The low and rakish effect is obtained without sacrificing head room."

STATE AID BLANKS TO BE MAILED OCT. 8

SACRAMENTO, Sept. 24.—Frank H. Nichols, chairman of the veterans' welfare board, who has been in France for several weeks with the American Legion delegation, has arrived here to assume formal control of the board.

He said he had tendered his resignation as president of a Los Angeles bank, to become effective January 1. He will be assisted in the local office by Robert F. Smith, who opened headquarters here several weeks ago as secretary of the board.

Applications for state aid under the educational act, will be mailed October 8, to be returnable not beforo October 20. These will be acted upon in the order in which they are received.

ENFORCEMENT LAWS URGED BY COMMITTEE

Reports Made to Associated Chambers Is Printed

Proper enforcement of state laws and county ordinances regulating loads of trucks would have saved many of the state and county highways of the state that have gone to pieces, in the opinion of the good roads committee of the Associated Chamber of Commerce, as expressed in a report filed with the organization at the monthly meeting at Huntington Beach Wednesday evening last.

After reaffirming the committee's position taken some time ago in recommendation to the county body that bitulithic pavement be adopted in road improvements in the county, the report deals with methods for determining whether materials are as they should be and quotes reports on paving operations from other scurces. The report was signed by Lew H. Wallace of Newport Beach, H. A. Lake of Garden Grove and C. L. Crumrine of La Habra and approved by D. Eyman Huff of Modena and Dr. P. R. Reynolds of Santa Ana, members of the committee.

The report, in full, follows:

Committee Report

Orange, Cal., Sept. 21, 1921.

We, your sub-committee of the good roads committee appointed by its chairman for the purpose of preparing a further report in connection with the construction of good roads, beg leave to submit the following:

We still suggest that the principal facts in the proper construction of paved roads is the proper preparation of sub-grades, that all sub-grades should be properly and effectually drained. We still believe that bitulithic pavement is the most adequate, substantial and, eventually, the most economic method of road construction. This is particularly true where heavy traffic has been continuous.

This is simply repeating previous reports and recommendations of more than two years, not by the members of the present committee only, but of every good roads committee that has been appointed from your Associated Chambers of Commerce.

We wish at this time to commend the county engineer's method where permanent repairing on cement roads are being made, he having in almost every instance abandoned the previous method of patching with cement and having substituted a bitulithic mixture which is apparently giving good wearing surface and is permitting the immediate use of the repaired sections.

Have Read Reports

We wish to emphasize at this time that although your committee consists of business men and farmers who are obliged to make their living by taking advantage of the knowledge obtained through observations as well as study, we have not only consulted with but have taken advantage of the knowledge and experience of the most competent engineers of the state of California as well as those of the nation. The results of our observations, studies and information obtained from competent engineers leads us to make the further following recommendations, in the hope that the recommendations will not be taken in the spirit of criticism of the methods now employed, but that the points made might possibly have been overlooked in the study of road construction and that by the suggestions of those points they may at least be investigated and found, whether or not these recommendations are practical. We therefore recommend, if the practice of building cement roads is to continue, that in al lcement construction, gravel, rock and sand be not dumped upon the ground but that thhe material go direct from the washer to the mixer.

That the "slump" test be taken in all cement construction. The "slump" test is made by a frustrum of a cone 4 inches in diameter at the top and 8 inches at the bottom, and 12 inches high and has been adopted as a standard. This cone is filled with the cement to be tested, which is carefully worked with a pointed metal rod while it is being placed, The form is immediately lifted off, and the settlement or "slump" measured. The proper "slump" for a mixture to be used for a concrete road surface is not to exceed 1-2 to 1 inch; for mesa work, from 1 to 1 1-2 inches.

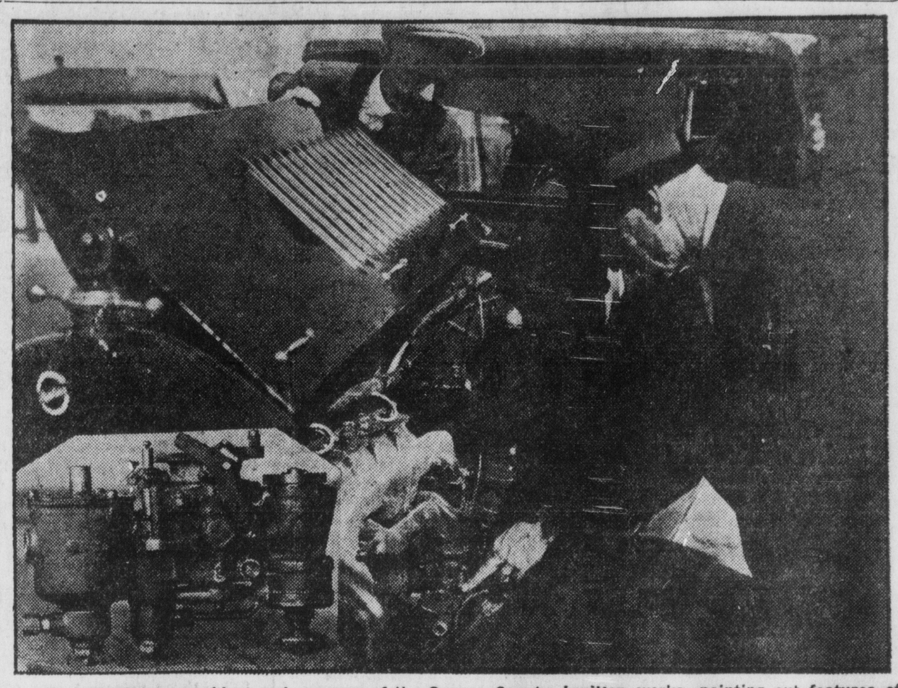

What Test Shows

That the Colorimetric test be made of all gravel and sand, which can be done both in the laboratory and in the field. Experience and tests have shown for example, (quoting from statistics prepared by the cement trust at their "structural" Materials Research Laboratory, Lewis Institute, Chicago, Illinois.") that apparatus sufficient for making five field tests at a time can be provided for by purchasing five, twelve ounce graduated prescription bottles stock of three percent solution Sodium Hydroxide (dissolve one ounce of Sodium Hydroxide in enough water to make thirty-two ounces.) This material can be purchased at most drug stores at a nominal price and in the neighborhood of $1. Elapsed time necessary to determine the purity or impurity of the sand or material is a matter of only twenty-four hours.

If the solution resulting from such treatment is colorless or has a slight yellowish color, the sand may be considered satisfactory in so far as organic impurities are concerned. On the other hand if the color of the solution is but little deeper than a light yellowish color, the sand should not be used in high grade work, such as is required in roads or pavements or

CARBURETOR MAN ELATED OVER SHOW MADE DURING RUN HERE

Earl Matthews, president and manager of the Orange County Ignition works, pointing out features of the Rayfield carburetor just installed on his Studebaker Big Six. In a test of the carburetor, the car made ten miles on two quarts of gasoline, a rate of twenty miles to the gallon...Matthews is shown pointing out feature to W. H. Spurgeon jr., (leaning over hood) of the Spurgeon Furniture company, and Horace Fine, automobile editor of The Register. The Rayfield is shown in the insert.

CAL. STAGES SET PACE FOR U. S. IS ASSERTED

The motor stage lines of California have demonstrated the success of motor transportation and are setting the pace for the rest of the country, according to Max Green, Los Angeles, superintendent of the Motor Transit lines.

"Among the many remarkable things disclosed by the stages is the stamina of motor equipment," Green said. "Mileages that were formally thought impossible are now daily occurrences. It is common for a stage to have a record of 300 miles a day over an extended period. There is one record, set by a Motor Transit stage, that is liable to stand for some time. Traveling between Los Angeles and Redlands, this car, No. 61, made a record of 20,000 miles in 61 days.

"The remarkable part of the feat was that there was never a stop made for repairs or a single day spent in the shops. Each day No. 61 piled up 327 miles and then retired only to take the road the next day and do another 327 miles. The stage left the garage at 6 o'clock in the morning and did not check in till 1 o'clock the next morning.

"This was a result of using only the best motor equipment. Then, too, we build the bodies to fit the car and put the least possible strain on motor and chassis. The stages are kept in perfect adjustment and that saves the cars. One of the biggest assets, however, is the drivers who are trained to be careful of the equipment. A driver that tears his car to pieces through careless driving would not last long with the Motor Transit company."

COTTON REPLACES SILK IN BAY CITY SCHOOL

SAN FRANCISCO, Sept. 24.—Cotton stockings and cotton shirtwaists have proved so popular among the girls of the senior class of the high school of commerce, who recently voted to eliminate silk from their school apparel, that the simplified dress movement is being taken up by the entire school.

Following the example set by their senior sisters, the girls of the lower classes voted to banish silk stockings, silk dresses and transparent waists forever from the school room.

Backed by Col. C. H. Murphy, principal of the school, and Miss Ida Garbarino, dean of girls, Miss Bertha Bermel, originator of the "back to cotton" movement in the school, conducted a rousing campaign meeting urging the underclassmen to follow the example of the seniors and pass the referendum unanimously.

Seated on the platform were six members of the senior advisory committee wearing the prescribed attire—gingham dresses, middy blouses and cotton stockings. Catherine McKenna, president of the girls' association, called the meeting to order and introduced Col. Murphy, who spoke briefly, complimenting the girls on the stand they had taken.

SANTA ANA WALNUT GROWERS ASSOCIATION

Our books will be open to receive new members until 4:30 o'clock Saturday, Sept. 24. Santa Ana Walnut Growers Association.

A little fellow called Master "Valve-in-the-head" will greet all who call at the Buick salesroom, corner Fifth and Birch, Santa Ana. See him—he's cute.

Ten miles on two quarts of gasoline — this was the record made with a Studebaker Big Six equipped with a Rayfield carburetor, in a test of the carburetor made this week by Earl Matthews, manager of the Orange County Ignition works, Rayfield distributor.

The run was made by Matthews just after the conclusion of a vacation mountain trip with his Studebaker and the mileage made was considered exceptional, under the conditions.

Two runs on two quarts each were made and the second test was the better of the two.

After B. L. Wonder, Rayfield expert with the Ignition works, had installed the equipment, Matthews headed his car south on Main street and had covered nine miles when the machine came to a halt because of exhaustion of gasoline. Refilling the two-quart tank, Matthews drove the car back to Santa Ana and through the streets and when the gas supply ran out the speedometer showed a distance of ten miles, according to Matthews.

"I never doubted for a moment that the combination of Rayfield carburetor and Studebaker car would produce from nine to ten miles on two quarts of fuel," said Matthews, at the completion of the tests. "I have been a Rayfield booster ever since my organization took over the agency and Bender was employed as our Rayfield expert to give service on the equipment. With my old Studebaker I made a fine Rayfield record, but this beats it."

Fresh peanut brittle, hot salted peanuts, delicious gum drops; all 10c half pound. Where? Lion Candy Kitchen, opposite Sam Stein's, of course.

Wanted for cash — 1914 or later model Ford roadster, body condition no object, motor good. State condition and price. S, Box 8, Register.

Children's Hair Cut under 12, 25c. Van Cleave, 405 N. Birch.

WINDSHIELD FOR TONNEAU WINS POPULARITY

The tonneau windshield is rapidly becoming a favorite and as much an integral part of the touring car as the front windshield, according to H. H. Dale, of Dale and Company.

"With its growing favor I predict that in a comparatively short time a touring car not equipped with this convenience will be as much a curiosity as the car without a top or front windshield is today," Dale continued.

"Women are largely responsible for this additional comfort, as they have been for most of the comforts we have enjoyed since the beginning of evolution. Man concentrates more on efficency and expediency than on comfort and it is not until women start using the products of man's genius that these products assume any great degree of comfort.

"Most women have long had a growing objection to the windshield tonneau of the touring car and to this fact may be attributed the popularity of the closed model with the gentler sex, a preference with which few men agree. But now, with the advent of a really successful tonneau windshield, the tonneau of the touring car competes successfully, from a comfort standpoint with any closed model, a fact which women are quick to appreciate, as witness the tonneau shield's increasing popularity."

$50,000 BUICK HOME PLANNED AT FIFTH AND SPURGEON BY REID FIRM

George R. Wells to Erect Structure and Will Lease to Tenant

IMPROVES 'AUTO ROW'

Spanish-Colonial Style of Architecture to Be Used for Building

Negotiations have been completed by the Reid Motor company for a new home for the Buick agency that will represent an investment in land and building approximating $50,000, according to announcement by Robert E. Reid today.

The new home will be on the northwest corner of Fifth and Spurgeon streets. George R. Wells will erect it for the company.

Frame buildings that have occupied the corner for many years will be eliminated and the erection of the new structure will be a substantial improvement to the expanding automobile row on East Fifth street.

125-FOOT FRONTAGE

The lot has a frontage of 125 feet on Fifth and 100 on Spurgeon. This will be covered by a one-story building. An additional building 50x50 feet will be erected on the rear and fronting on Spurgeon street. This will be used as a store-room for new cars.

Details as to the floor plans have not yet been developed. Reid and his manager, Robert Atkinson, have visited a number of fine garage buildings in Southern California, getting suggestions that may be of service to them in planning their new home.

Spanish-Colonial

Spanish-Colonial architecture will be employed in developing the structure, the Fifth and Spurgeon street fronts being finished with ruffled brick, which will give a cheerful and neat appearance to the structure at all seasons of the year.

The agency will maintain exclusive sales and service departments for the Buick.

It is expected that construction will start within the next thirty days and that the sructure will be completed in time for occupancy around January 1.

CONDITION UNCHANGED.

Otto Bollman, of Hollywood, severely injured in a fall from a cliff at Laguna Beach last Saturday, is doing as well as could be expected. He is at the Community hospital.

Davis, secretary of the Orange County Automobile Trades Association.

ENFORCEMENT LAWS URGED BY COMMITTEE

(Continued from preceding page)

in building construction. The relation of reduction in strength in cement corresponding to the different colors of solution increase rapidly when the Colorimetric test shows more than a light yellowish color, ranging from 10 per cent to 100 per cent in strength reduction.

While the Colorimetric test determines certain excellent results as quoted herein, in determining the character of sand to use in those respects, it also follows that the characteristics of durability and grade must be most seriously considered in building 100 per cent cement concrete pavements.

The Colorimetric test furnishes a simple and inexpensive method for detecting the presence of such impurities. This test is being used by a large number of test laboratories, engineers and contractors in passing on suitability of sands used in concrete. In certain instances the test has been made the basis of specification requirements for same.

Sand Damages Mix

The Scientific American makes the flat statement "that if sand by weight be vitiated by one-thousandth part of organic impurities, the strength of the concrete will be diminished nearly 25 per cent. This is a warning to people given to using any likely looking sand that may be available."

The state of Pennsylvania through its engineers and exhaustive studies makes the statement that cracks in pavements are caused by dirt being present in the mixture.

We quote the following from an editorial of the Burlington, Iowa, Hawkeye, under date of June 29, 1921, and reprinted by the Portland Cement Association, 111 West Washington Street, Chicago.

"There have been disappointments in concrete construction. Poor materials, unskilled labor, lack of adequate drainage, and other details contributing to failure. Almost any other paving material is preferable unless concrete construction is brought up to the 100 per cent standard.

"The minimum width of the concrete we have been building for the past five or six years is eighteen feet and wherever we can we are building to a width of twenty feet. We find that in the course of a few years the extra cost of maintenance on the shoulders of an eighteen foot concrete road will pay for the additional two feet of concrete.

"The people who are to foot the bills are entitled to all the facts. And when they pay their road taxes they want to know they are getting their money's worth; and nothing short of 100 percent construction value meets that requirement."

Wayne's Experience

In this connection it is well to note that in Wayne County's experience no paving should be less than eighteen feet wide; twenty is better. And near city limits where the traffic is greater, twenty-four feet is more desirable. Wayne county uses a rich mix; one minute in the drum with sixteen revolutions; clean, washed stone and sand; an average thickness of concrete of nine inches; machine finish; dry mixed concrete; curing two weeks with water and two weeks with air, a total of four weeks which is the minimum time during which traffic is kept off the road. We doubt if such thoroughness of construction has been observed on any concrete roads in the vicinity of Burlington, or possibly in the state. But thoroughness pays. In everything 100 per cent is the motto. The result is 100 per cent service.

We are informed by your good roads committee chairman that in making a trip to Bakersfield and return on September 4th and 6th he observed the contractor working on the state highway between Bakersfield crowding the dirt shoulders with the grader away from the edges of the original concrete and pushing the same out and upon the many piles of sand and rock along the highway placed there for the purpose of rebuilding and widening this pavement. In many places this sand and rock was dumped within two and one-half feet to four feet distant from the edge of the original concrete so that the removal of the dirt shoulders preparatory to widening the pavement, had to be pushed out and upon the material that was to go into the new road. Either this sand and rock that had been mixed with the piled dirt shoulders had to go into the mixture or be abandoned and in either case there would be a material economic loss—and a large one in case of the former. Some of the pavement that had been retopped was very, very rough.

Like the Ridge road this particular stretch of road has been repaired and repaired to the extent that he doubts if there is a quarter of a mile of the original pavement that has not had some material repairing done thereon.

Law Enforcement

Had the state law and county ordinances been enforced to the letter as regards the loads and gross weight of trucks as well as the law enforcement of speed of same during the past several years, the damage to the highways of both state and county would have been materially reduced, thus saving the taxpayers of the state millions of dollars that otherwise has been largely wasted.

If our state had constructed experimental work at the outset and continually, it would have cost pennies where faulty construction has cost dollars and the benefits thus derived from such experimental work would have redounded to benefit of the several counties in their road building policies. While it is too late to retract that ground, it is not too late to provide through experiments and otherwise, against other costly road failures in the future.

SAYS NEW BATTERY IMPROVES SERVICE

"The three principal cars owned by the man of moderate income have been made more efficient at the same time that their prices have been reduced," says J. T. Van Why, owner of the Santa Ana Electric garage, agent for the Philadelphia storage battery.

"Not only has the cost of the motor itself been cut down, but a new battery, which gives it greater range of power, has been marketed for these sturdy, moderate-priced cars.

"This battery is the product of the Philadelphia Storage Battery company. It is known, and patented under the name of the Philadelphia Diamond Grid battery. Its salient features are its Diamond Grid construction and Quarter Sawed Hard Wood Separator plus a whole year's guarantee of continuous performance.

"There has never been any question, since the demonstration of the utility of Dodges, Fords and Buicks, as to their desirability.

"With the new battery, built as a result of the increased efficiency gained by the engineering experience of the trained staff of the Philadelphia Storage Battery company, these machines can eliminate the disappointment of uncertain starting and lighting."

BRIEF BITS OF BUILDING NEWS

FRESNO.—The Hotel Fresno, recently appraised at $750,000 and considered by leading hotel men to be one of the finest hostelries between San Francisco and Los Angeles, was leased for a term of years by Charles B. Hamilton, Clayton V. Smith and Edward C. White from the Fresno Hotel company. The lease involves $600,000, including furniture and equipment. The lessees will not take possession until January, 1923.

OAKDALE.—The $60,000 bond issue voted by the Oakdale Union school district six weeks ago was sold by the supervisors to the Citizens' National bank of Los Angeles for par, plus a premium of $258. The school board will call for bids immediately for construction of the new East Side school on East F street. A five-room building is to be erected here.

RY. ENGINEER BOWS TO SPEED OF AUTO

Here is an instance where the engineer of the speediest train running on the Pacific coast was impressed with the qualities of a motor car that once competed in a seven-day speed test with the train which he guides.

"William J. Brown, who is engineer on the 'Lark,' the speedy train that plies between San Francisco and Los Angeles, has just purchased a new Maxwell sedan, the second which he has owned," says G. H. Christian, of Christian Brothers, Maxwell distributors. "Brown is a pretty good judge of speed, very naturally, and he became firmly convinced some time ago that the Maxwell was the proper car to buy from first-hand knowledge of its road records.

"It will be recalled that two years ago the Maxwell entered a seven-day race with the 'Lark,' beating the Southern Pacific train at that time. Later other records have been hung up by the Maxwell, the most notable of which was the mark which the car established in bettering the automobile record between Portland and Oakland, setting up figures of 28 hours and 45 minutes elapsed time for the total distance of 602 miles."

WILLYS-KNIGHT

SLEEVE VALVE MOTOR IMPROVES WITH USE

SERVICE FAR BEYOND COMMON STANDARDS

No speedometer has ever measured the life limit of the Willys-Knight Sleeve Valve Motor.
Its two simple sleeves sliding on a film of oil are so perfectly lubricated in all weathers that they incur no noticeable wear.
Carbon packing back of the combustion ring actually increases the motor's power after miles of use.
Light weight and careful balance secure exceptional fuel economy.

SUPERSTITIOUS? WHEN EARS ARE 'BURNING?'

CHICAGO, Sept. 15.—

"Right cheek, left cheek, why do you burn?
Cursed be she that doth me any harm;
If she be a maid, let her be staid;
If she be a widow, long let her mourn;
But if she be my own true love, burn, cheek, burn!"

If the right cheek burns, someone is speaking well of you; if the left cheek burns, some one is speaking to your disadvantage, says Doris Blake in The Tribune.

Another interpretation is: "If you are a maiden and your left cheek burns you will be kissed on that cheek by a young lady friend; if the right cheek burns guard well your rosy lips, for your sweetheart is near.

The evil spoken of you when your left ear burns will fall unheeded if you bite the little finger of your left hand.

If you hear a whistling in your ears it is a sign you are going to be dunned.

A red cheek or a ringing ears is a sign of someone talking about you.

If a warm wave sweeps over you without any apparent reason, some great calamity is about to occur to someone in the house.

If you feel a crawling sensation of the flesh, it is a sign that some one is trying to bewitch you.

If a faint trembling should of a sudden come upon one, it is considered lucky.

"Since you shall change state speedily, for that trembling
Is always the first symptom of a bride."

If your hand trembles it is a sign that you are going to be given something.

When a cold trembling creeps over the limbs, people frequently say, "They are riding over my grave."

If you have gooseflesh without cold, the Irish superstition says, a goose is walking over your grave.

If you have a creepy, shivery feeling without apparent cause it is a sign of bad news or trouble of some kind.

If a person shivers in summer or beside a roaring fire, the Welsh say: "The spirits are searching for your grave."

American Indians believed that ringing in the ear resulted in one of two things. Some one was due to come without his family and must be entertained, or news would be heard. The direction from which the news or person was to come was shown by the ear affected.

"By the pricking of my thumbs
Something wicked this way comes."
—Macbeth.

A tinkling in the palm of the hand betokens money coming.

"Make a cross on the foot when it is asleep" and the tingling will cease.

If your feet burn and you have a desire to keep them out from beneath the covers, you will be very angry over a disappointment.

If your corns sting, it is a sign of rain.

A ticklish sensation around the heart that cannot be relieved by scratching is a sign of love.

A jumping sensation of the heart forebodes serious ill fortune.

There is an old saying that every sigh or grain robs the heart of a drop of blood.

Every time you sigh you drive a nail in your coffin.

To sigh a great deal is a sign that you are in love.

If one keeps sighing without reason, he will draw sorrow and sighing to himself.

After the Buick parade on Saturday, all the cars, including the Areocar, will be on display at the Reid Motor Co. salesroom, corner Fifth and Birch streets, Santa Ana.

Rifles and Guns Rented—Hawley's.

SAYS NEW LIGHTING SYSTEM TO STAY

"Every motorist of ten years ago will recall the Prest-O-Lite gas tanks which were carried on the running board and which were then the acme of lighting facilities," remarked P. L. Ruplinger of the Battery Ignition Service, 315 West Fifth Street. "These tanks were a great improvement over the old gas generators with which most cars were equipped fifteen or twenty years ago. After the Prest-O-Lite gas tank came the storage battery and it is probable that it will, for a long time at least, remain as the source of lighting, starting and ignition."

"Storage Batteries are being improved all the time. The Prest-O-Lite battery, at the new low price, is a better battery than this company has ever before offered to the public. Ten years ago the Prest-O-Lite company led in the supplying of gas tanks for automobile lighting and it is only natural that it should now lead in the manufacture of storage batteries. Because of its nation-wide distribution, coupled with the quantity production running into thousands of batteries per month in each of its three plants, the Prest-O-Lite company is able to make better batteries and sell some types at lower prices than it has ever done."

ASSESSMENT ROLLS SHOW CITY'S GROWTH

REDLANDS, Sept. 24—C. P. Hook, city clerk of Redlands, has completed the assessment roll for the year and finds that the total assessed valuation of property here now is more than $9,000,000, a gain of $100,000 in the past year.

Hook says that almost the entire gain is on new houses built during the year, although a part of it is on orange groves which have just come into bearing. No assessment is made on the improvements until the trees are bearing.

This is the greatest gain of several years and is indicative of a steady growth.

The natives in the vicinity cultivate the lake bed of Lake Cirnitz, in sid-eastern Europe during the summer, the waters having departed through great fissures in the bed of the lake. In autumn the waters return rapidly, throwing up cascades of foam as if from blowholes. The lake is probably fed in winter by water coming to it underground from a body of water higher in the mountains.

CHANDLER

The Chandler Six, large and roomy with seven-passenger capacity is as economical as it is comfortable and dependable.
B. L. Cunningham of the Pan American Oil Co. is regularly getting 21 miles from a gallon of gasoline with his Chandler Touring Car.
W. E. Ward, General Agent Globe Indemnity Co., recently drove his Chandler Coupe 1705 miles (including 1000 miles in the high Sierras) and used but a single quart of oil.
Owners of Chandlers everywhere are reporting similar records. Economy of operation with the powerful, reliable performance afforded by the marvelous motor gives the Chandler its position of leadership in real automobile value.

Studebaker

LIGHT-SIX NOW $1375

Why Studebaker can sell the LIGHT-SIX at the new low price

The LIGHT-SIX is built complete in the most modern automobile plant in the world, designed especially for the production of this car.

Studebaker manufactures in this plant its own drop forgings; its own castings, stampings, motors, axles, transmissions; its own steering gears, springs, bodies, top and other vital parts.

Under these favorable manufacturing conditions and because of its enormous production and standardized methods of manufacture, Studebaker is able to make important savings---these savings are reflected in the price of the car to you.

The LIGHT-SIX is a real step forward in automobile engineering. No other light, six-cylinder automobile yet produced has a motor so free from vibration, nor so flexible and powerful.

What You Should Know About the LIGHT-SIX

POWER—40 H. P. in a detachable-head motor of great flexibility, remarkably free from vibration, and with the exclusive Studebaker inclined valve feature.

ECONOMY—18 to 22 miles to the gallon — 12,000 to 18,000 miles on tires.

BALANCE—You could cut the Light-Six in two parts or four parts and find that each section would weigh the same. Such perfect balance means steady road-holding—there is no side sway or creeping.

COMFORT—Equal distribution of weight means easy riding and easy handling. The touch of one hand on the steering wheel is sufficient to keep it on the road.

See this car—drive it—test it. You will be won by it. You will understand why it is the Studebaker ideal of what a light, six-cylinder car should be.

LATEST SPORT NEWS

MEYER AND MEXICO BATTLE FAST DRAW

Johnny Meyer, the Glendale boxer, is a pretty lucky fellow.

He took a lot of punishment from Kid Mexico at Sparke's Anaheim ranch last night. He also gave some of it. When the fight was over the best Meyer could hope for was a draw and Bill Darnley gave him that fifty-fifty break.

Mexico wasn't going any too well last night at that. He seemed tired and often missed with his terrific uppercut blows. But they were the punches that had Meyer clinging to him most of the time.

The Glendale scrapper is a tough boy as some of the punishment he took without a quiver would have put a lot of the mitt artists out for keeps.

Johnny McManus of Palms and Sailor Murphy of San Pedro put up a torrid engagement as the other portion of the double main event. McManus was too slipery and fast for the sailor and earned the decision. He landed often but Murphy was up and coming all the time. It was a nice fray.

Jack Iman and Ben Smith once again battled to a draw in the semi-final. Iman had the edge at long range but Smith made up for it when they got in close. The decision was well received.

Lloyd Neal of Santa na re-appeared in the ring after a long lay-off and was far from his old self. Young Sheller looked to outweigh him ten or fifteen pounds. They fought even all the way through and the verdict was a draw. Sheller couldn't hit Neal and when Lloyd landed it didn't seem to reaze his more stocky opponent.

Jimmy Musso made a monkey out of Kid eLo of Anaheim and took the decision. The fans were pulling for Leo and crabbed a little at the verdict but Barnley couldn't have fairly decided it any other way. Musso landed three-fourths of the blows and pressed the milling.

Kid Frankie was altogether too good for Paul Romero in the curtain raiser. He hit him at will and had him in a bad way most of the time. Frankie looks to have improved one hundred per cent since his last battle at Anaheim.

YANKEES HAVE EDGE ON CRUCIAL SERIES

POLO GROUNDS, NEW YORK, Sept. 24.—Babe Ruth was the hero of the Yanks victory over Cleveland here yesterday by a score of 4 to 2. The big Bambino started every rally that netted the Yanks runs, scoring three himself and lashing out three sizzling doubles out of four trips to the plate. He walked the first time he faced Coveleski.

A crowd of 36,000 people were on hand to cheer the Yanks to victory. Cleveland drew first blood, thanks to a single by Gardner, Sewell's triple and O'Neill's double in the fourth, which netted two runs.

Cleveland	2	6	0
New York	4	6	1

Cleveland — Coveleskie and O'Neill; New York— Hoyt and Schang.

MACKMEN TAKE TWO

PHILADELPHIA, Sept. 24.—Philadelphia took a double header from Chicago by scores of 4 to 0 and 9 to 1.

(First Game)

Chicago	0	7	4
Philadelphia	4	7	2

Chicago—Wilkinson and Schalk; Philadelphia—Heimach and Myatt.

(Second Game)

Chicago	1	4	1
Philadelphia	9	14	0

Chicago—Thompson, Connollyand Schalk; Philadelphia — Harris and Perkins.

SPLIT DOUBLE BILL

BOSTON, Sept. 24.—The Browns and Red Sox divided a double header, St. Louis winning the opener, 10 to 2, and Boston the second, 10 to 5.

(First Game)

St. Louis	10	17	0
Boston	4	9	1

St. Louis—Schocker and Severeid; Boston—Bush, Russell and Walters.

(Second Game)

St. Louis	5	11	0
Boston	10	16	0

St. Louis—Van Gilder, Kolp and Severeid; Boston—Karr and Walters.

SENATORS DOWN TIGERS

WASHINGTON, Sept. 24.—Mogridge pitched Washington to a victory over Detroit, 2 to 1, in a duel with Leonard. A single by Judge scored the winning run in the ninth when the bases were filled.

Detroit	1	5	0
Washington	2	9	0

Detroit—Leonard and Bassler; Washington—Mogridge and Gharrity.

CUBS TOUCH BOSTON FOR THIRTEEN RUNS

CHICAGO, Sept. 24.—Chicago hit McQuillan hard behind erratic support and easily defeated Boston, 13 to 5.

Boston	5	10	5
Chicago	13	16	1

Boston — McQuillan and O'Neill; Chicago—Kauffman and Daly.

PIRATES BLANKS PHILLIES

PITTSBURG, Sept. 24.—Hamilton's effective pitching enabled Pittsburgh to defeat Philadelphia, 2 to 0.

Philadelphia	0	4	1
Pittsburgh	2	8	0

Philadelphia—Meadows and Henline; Pittsburgh — Hamilton and Gooch.

BOGARSH WHIPS EAGAN.

BOSTON, Sept. 24—Louis Bogarsh gave Joe Eagan of this city a fine walloping in their ten-round bout here last night. Bogarsh took pratically every round by a wide margin.

Miss Dorothy M. Rehfeld of Aberdeen is said to be the only woman practicing law in South Dakota.

ANGELS TAKE PAIR FROM SEATTLE CREW

SEATTLE, Sept. 24.—Los Angeles came to life here yesterday when, after losing three straight to the locals, they took yesterday's double header by the scores of 7 to 6 and 5 to 0. Seattle used seventeen men in the first game, three of them being pitchers. In the second game Pitcher Reinhart of Los Angeles held the locals to two hits.

(First Game)

Los Angeles	7	12	1
Seattle	6	9	0

Los Angeles—Crandall, Dumovich and Stanage; Seattle — Francis, Swartz, Dailey and Adams, Tobin.

(Second Game)

Los Angeles	5	9	1
Seattle	0	2	2

Los Angeles—Reinhart and Baldwin; Seattle—Demaree, Mack and Spencer.

VERNONS DEFEAT BEES

LOS ANGELES, Sept. 24.—Vernon staged a comeback here yesterday by defeating Gavvy Cravath's Bees, 2 to 0, after having lost three straight. Dell held the Bees to five hits while Kallio was touched for eleven blows. The Tigers were unable to chase across the winning runs until the tenth inning.

Salt Lake	0	5	0
Vernon	2	11	0

Salt Lake—Kallio and Lynn; Vernon—Dell and Hannah.

PORTLAND STOP SEALS

PORTLAND, Sept. 24.—A rally in the eighth, netting four runs, enabled Portland to defeat San Francisco, 6 to 5. The Seals made five runs in the third when they should have been retired scoreless, Krug dropping Hale's throw. Cox made a home run, which scored Krug and Hale.

San Francisco	5	9	0
Portland	6	12	1

San Francisco—Crumpler, Couch and Yelle; Portland—Pillette and Baker.

OAKS BLANK SENATORS

SAN FRANCISCO, Sept. 24.—Krause won a pitcher's battle for Oakland from Sacramento, 4 to 0, allowing the Senators only four hits. No Sacramento players reached second base until the ninth inning. Krause's double in the seventh scored two, Koehler's single scored another and a squeeze play made the fourth of Oakland's runs.

Sacramento	0	4	2
Oakland	4	7	2

Sacramento—Kunz and Elliott; Oakland—Krause and Koehler.

BEARS CLASH WITH ST. MARYS GRIDDERS

BERKELEY, Cal., Sept. 24—Football made its 1921 debut on the Pacific coast today.

California and St. Marys were scheduled to make the start at California field this afternoon. Everyone had their money on California. The blue and gold team this year presented almost the same line up as the famous 1920 "wonder team," which beat all comers.

Muller, McMillan, Latham, Cramer, Barnes, Toomey, Eels and Morrison of last year's eleven had their names in today's lineup. Sprott and Majors are the only 1920 men who are not members of the Bear squad this year. Substitute players, however, will be used to some extent this afternoon.

EAST'S GRID TEAMS READY FOR CLASHES

NEW YORK, Sept. 24.—Football butts in today on a crowded sport page for its 1921 debut.

The East swings into action with Yale, Harvard, Pennsylvania, Pittsburgh, Penn State, Dartmouth and Syracuse in action.

California opens the season on the coast, Contre and Georgia Tech stage their coming out party in the South, and Notre Dame opens the season in the West.

YALE VS. BATES.

NEW HAVEN, Conn., Sept. 24.—Fifteen thousand fans are expected to see Yale open the 1921 football season with Bates college on Yale field this afternoon. Substitutes will be used freely, Coach Jones announced.

The smallest species of women is found in Lapland. They average 4 feet 9 inches in height.

BUGG TAKES BANTAM CROWN FROM HERMAN

NEW YORK, Sept. 24.—Little Johnny Buff, the father of a flock of little Buffs, was showing the bantamweight crown to t he family this morning.

Buff won the title from Pete Herman last night in Madison Square Garden in a 15-round bout, in the early rounds of which Buff was roughly handled.

Herman acted just like he did when he lost the title last winter to Joe Lynch. He was never on the aggressive and the judges were forced to give the decision to the American flyweight champion, who was always forcing the fight.

HARVARD GRID TEAM PLAYS DOUBLEHEADER

CAMBRIDGE, Sept. 24.—Harvard will officially open its 1921 football season this afternoon when the crimson takes on Boston University and Middlebury college of Vermont in a double-header at the stadium here.

The Crimson and Boston will mingle first and then the Vermont eleven will be given a chance.

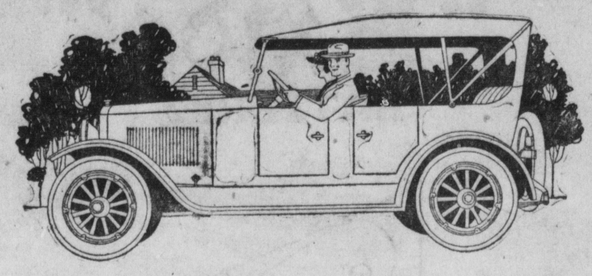

JACK JOHNSON WILL BATTLE FRANK MORAN

MONTREAL, Que., Sept. 24.—Jack Johnson, former heavyweight champion of the world, will make his first appearance in a ring since his release from Leavenworth federal prison here at the Mount Royal arena on October 28, when he is matched to fight ten rounds with Frank Moran, the Pittsburgh heavyweight.

Fishing Tackle—Hawley's.

Cutlery Sharpened—Hawley's.

CLEVELAND SIX

The Cleveland's ability to stand up under the punishment of rough roads and rocky wastes of cross country and trans-continental trips is its most remarkable feature, in the opinion of many owners.

While they fully appreciate the car's exceptional power, wonderful roadability, economy and restful comfort, it is that sturdy stamina which endures the roughest conditions, that clinches their loyalty to the Cleveland.

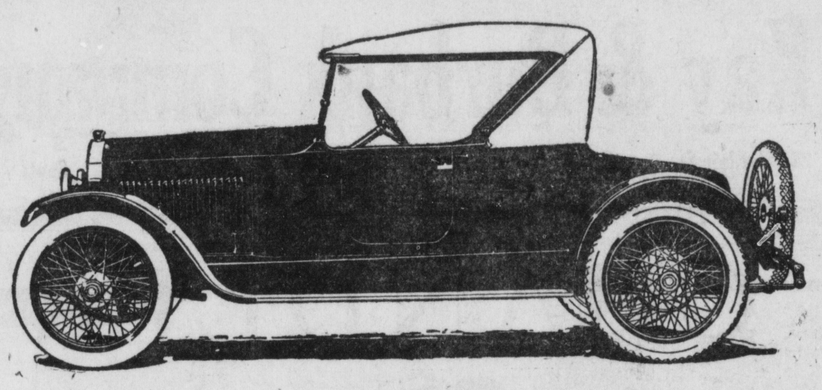

That is the quality which led W. C. Evans, after driving his Cleveland east over Pike's Peak Trail to Kansas City and west to Los Angeles without mechanical trouble to remark, "My Cleveland is so good I would not sell it for its original cost."

Drive your own Cleveland tomorrow

Chas. L. Davis

Broadway at Sixth St.

CLEVELAND SIX

It is our aim and ambition to make every customer a friend. We want them to feel that we are as much interested in their cars as they are. We want them to know that we are always anxious to show them how to get the utmost in economical service from their car at the least possible cost for upkeep.

If you are thinking of buying an automobile, it will pay you to investigate the merits of Chevrolet Cars and the service that goes with them.

PAIGE

The Most Beautiful Car in America

Performance, the Buyer's Guide

In design, appointment and finish, Paige 6-66 models challenge the most artistic achievements in motordom.

But really fine cars are measured by performance—not by paint or price. Superiority must be revealed mainly in terms of action.

Therein lies the significance of the attested records of Paige 6-66 models on track and hill—not so much because of the exceptional speed and power these records revealed, as for the stamina they demonstrated.

This superiority of performance and guarantee of long life have been the principal factors in shattering the "price myth." From the standpoint of appearance, performance and sound investment the Paige 6-66 easily determines for the buyer the price he should pay for a truly fine car.

Old Price	Representing a Saving of	Price Now
$3,500.00	Almost $2,000.00	$1,750.00

Now the price of the Union Sure-Grip Tractor is just half—a slash unequalled in tractor history. It means that you can get one of the best tractors ever built, a tractor that is unsurpassed in the tractor world today, at the price of the cheapest kind of a machine.

We will not build any more Sure-Grip Tractors. The few we have are being disposed of quickly at this ridiculously low price. Yet we will give each purchaser a written guarantee to maintain a complete and ample stock of repair parts to insure against delay or loss in any emergency.

The reduction in price does not mean that the Union Sure-Grip Tractor is not worth the full price for which it has always been sold. We simply are discontinuing the manufacture of this type of equipment and we are willing to stand the loss in order to move the few we have left immediately.

If you ever intend to buy a tractor, investigate this opportunity now. You never have nor never will have such an opportunity as this again.

MILLIONS LOST IN DECLINE OF MARKS

NEW YORK, September 24.—The collapse of the German mark to a point below 1 cent, for the first time in financial history, has caused a loss of millions of dollars to American investors and speculators in the mark, as well as other continental exchange.

The exact amount of this loss is difficult to even approximate, for marks have been sold in this country, as well as in all other countries, in every conceivable manner, and through hundreds of varied channels.

The guess of one banker is that no less than $100,000,000 worth of marks have been disposed of in the United States since the armistice, and that the average price for these marks was approximately 2½ cents.

Heavy Loss to Americans

On that basis, and at the present quotation, approximately 60 cents of every American dollar put into marks has been lost. Another banker cuts the estimate in half, and says that irrespective of the professional sales by bankers incident to reparations settlements, about $50,000,000 has been invested here in German exchange. This is only an illustration of the difficulty of arriving at a total of the losses which have been sustained in this country in the crash of the mark.

Some of the big banking houses in the financial district have handled large amounts of this business since the armistice. The books of one house alone show transactions which total more than $10,000,000.

It was not until mid-summer, after the armistice was signed, that quotations in the German mark were resumed. They started at 7 3-4 to 8 cents per mark. In the meanwhile many bales of the German currency appeared in the United States and were sold.

The appeal of the traffic in German currency was directed at those familiar with Germany and her industrial and financial efficiency in pre-war days. With the mark selling at 5, 4, 3, or 2 cents, the point was made that the German government would soon be on its feet, and that her financiers would quickly bring the mark back to 23.8 cents, its pre-war worth. The bait was attractive.

UP-STATE NEWS

STOCKTON—Chester H. Rowell, member of the state railroad commission and former editor and owner of the Fresno Republican, will address the members of the Stockton Men's Bible class in this city on Sunday, October 2. Rowell recently completed a tour of the Orient and will speak on the Japanese question.

MEADOW VALLEY (Plumas Co.)—The Spanish Peak Lumber company, a Spanish ranch, has finished the season's run. A number of men will be retained to clean up around the mill and operate the tramway until all the lumber now in the yard has been carried to the yards at Gray's Flat, which is on the main line of the Western Pacific railroad.

GREENVILLE (Plumas Co.)—Mortimer Fleishhacker president of the Great Western Power company of San Francisco accompanied by a party of New York capitalists arrived here en route to the Prattville section to make an inspection of the new hydro-electric project.

They followed the workings from Prattville down to Caribou, taking in(the whole of the power company's system.

SACRAMENTO—The state reclamation board has accepted the bid of George Murray of Manteca for removing dirt and leveling four and a half miles of the Hood levee, upon which the last unit of the highway uniting Sacramento with the delta district is to be built.

TRUCKEE — The Hobart Estate company of Hobart mills has closed its mill and logging camps for the season, The close comes somewhat earlier than usual. There is a large supply of lumber on hand in the yards. Several hundred men were employed in the mill and logging camps during the summer season. The box factory will operate for some time to come, probably all winter.

SAN JOSE—Eight representatives of the Western Aero club of this city, who conferred with officials of the air reserve of the army at a meeting at Cressey field relative to the formation of an air reserve squadron in San Jose, were partially successful in their mission. The result of the conference was that San Francisco officials agreed to start courses of instruction in this city and to send radio equipment, Liberty motors and other equipment necessary, together with as many instructors as are necessary. They agreed to recommend the formation of an air reserve, squadron ni San Jose as soon as 120 men have been enlisted.

PETALUMA—The city council report of the committee on a new water system for the city was adopted. The committee recommends that the city purchase the present water system from the Petaluma Power and Water company, and that a bond issue be held for that purpose. The council has not taken action for an election, and a public forum will be held before steps are taken to put the issue before the people.

HE FORGETS HER NAME; SHE REFUSES TO WED

DETROIT, Sept. 24.—Three times William W. Champion shuffled into the marriage license bureau at the county building, but each time he could not recall the name of the lady he was about to make his bride. The nearest he could come to it was "Tucker." At last he left the unfinished affidavit and went his way.

Next afternoon he appeared with the lady leaning upon his arm. But she was highly indignant when she saw the name "Tucker."

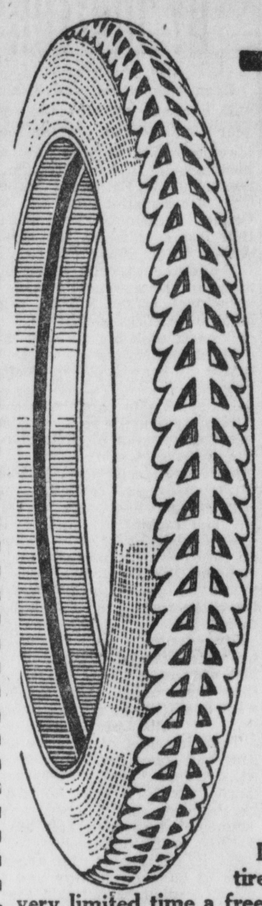

"Man, I want you to understand," she said, scornfully, addressing William W. Champion, "my name is not 'Tucker.' It's 'Turner,' I don't want one of them marriage licenses nohow."

"All right," agreed William W., defiantly. "Just take it back, boss. Cancel it; that's what you do with the document now. I don't want one of them licenses neither."

Take a good look at the new Buick Four in the parade on Saturday and then visit the salesroom at Fifth and Birch, Santa Ana, for a "close up" of this much-talked about car.

The traffic of drugs in New York City is carried on so openly that narcotic addicts recently called a strike and picketed a Broadway stand of a purveyor who was peddling cocaine, heroin and morphine at $1.50 a "deck" from an automobile drawn up against the curbing. Police found $10,000 worth of drugs in the car.

WESTERN AUTO FOR TIRE VALUES

Do you realize that the big Western Auto organization gives you tire values that are, we believe, unapproached in the West. Don't take our word for it; visit our store and find out for yourself.

FIDELITY CORD TIRES

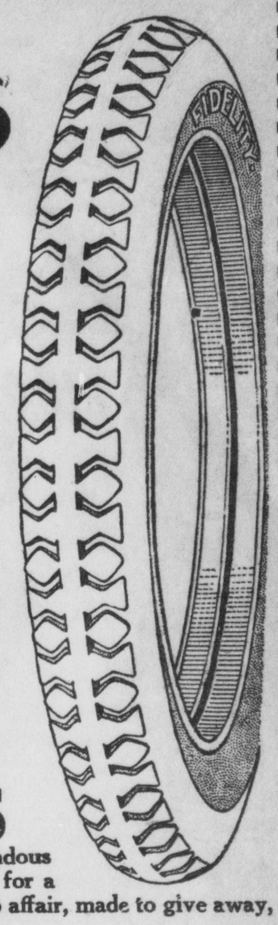

GIANT OVERSIZE

TAX PAID 30x3½ $15.50 TAX PAID

10,000-MILE GUARANTEE

This of it! A giant oversize cord tire of real quality at $15.50, tax paid. Special laminated tread and long fibre cotton used. Black tread and side wall with cream stripe. Western Auto's Catalog Price, $19.65. A truly wonderful buy at $15.50.

We also have Fidelity Fabrics, 30x3 rib at $8.95, 30x3½ non skid at $10.75.

FREE TUBES *with all* NEBRASKA TIRES

In order to get you motorists, who do not realize the tremendous tire business Western Auto does, into our store, we are giving for a very limited time a free tube with every Nebraska tire. The tube will not be a cheap affair, made to give away, but is our standard high quality tube, that is guaranteed for a whole year.

This free tube proposition is not a price reduction, it is just our way of advertising, to get you to visit our store, and get acquainted with our policy and broad guarantee and find out for yourself the reasons for ous remarkable values.

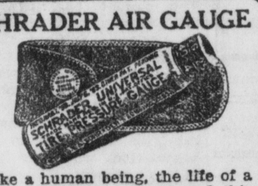

Just think, we have received this last week three carloads of tires for our Southern stores. That's one reason—let us tell you the others.

TAX PAID	OUR CASH PRICES		TAX PAID	OUR CASH PRICES	
30x3	Raised Tread	$ 8.75	31x4	Non Skid	$15.25
30x3	Non Skid	9.40	32x4	Non Skid	17.30
30x3½	Non Skid	11.60	33x4	Non Skid	18.20
32x3½	Non Skid	13.50	34x4	Non Skid	18.65

WE ALSO CARRY PHARIS AND INDIA TIRES IN CORD OR FABRIC INCLUDING LARGE SIZES—THEY ARE EQUALLY GOOD VALUE

SCHRADER AIR GAUGE

Like a human being, the life of a tire is dependent on AIR and this must be had in sufficient quantity. Buy a gauge and maintain correct pressure in your tires.

Our price—genuine Schrader Gauge, 95c

AUTO SUPPLY HEADQUARTERS

Don't let small dealers convince you that because our prices are lower that the merchandise suffers; such is not the case. We handle practically all of the very best lines and would have to charge you as much for them as they do, if we bought through jobbers, etc., and only did such a limited business. Think it over.

Champion X Spark Plugs

This is the genuine plug that comes as equipment on every Ford pleasure car and truck. Their regular price is 75c. Get a set now at

Our Price of 49c

LARGE STEERING WHEELS FOR FORDS

It is impossible to realize what a comfort a large steering wheel is until you actualy try one. Driving strain is greatly reduced and car looks more balanced.

Black Corrugated Rim Type...$3.90
Walnut Finish Rim Type..... 4.35
With Aluminum Spider..... 5.65
Same as above for Chevrolet.. 5.65

Time to Get that New Robe

Just received large shipment of beautiful warm woolly robes that are just the thing to ward off the chill of the autumn evenings.

Prices run from $9.50 to $32.50 and represent savings of about 25%.

Come in and Look Them Over

Robe Lock

Protect your robe. Get a special lock for it.....$1.25

YOU'LL NEED A SET OF WEED CHAINS SOON

Better get them before your car is damaged through skidding. We want to call this to your attention now because so many people don't think of it until they get skidding around on the wet pavement. Get your set now.

Price		Price	
30x3½	$4.50	32x4	$5.40
32x3½	4.90	35x4½	7.20

Other Sizes in Proportion

If your old chains need repairing get a pair of chain pliers, for.....60c

Hunters! Get One of These

A Van Auto Bed. Tent, Bed, Mattress and all in a handy compact unit that rolls up on the running board.

Regular price, $60.00. Our special, $23.75.

BEFORE IT RAINS Recover Your Top

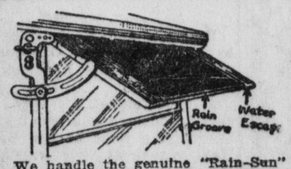

Don't wait until you get wet before you put on that new top recover. The price is so low you can't afford to be without one. They come complete with back curtain, tape and tacks.

Regular Rubber Type
Touring, $8.75
Roadster, $7.00

We have several other styles. We can supply top recovers for all cars on short notice.

SUN AND RAIN SHIELDS

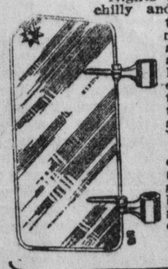

We handle the genuine "Rain-Sun" shield that is equally efficient in either. Removes the discomfort and danger of glaring sun and keeps rain from driving glass.

Ford Type .....$ 7.50
Regular Type 10.50

We Can Fit Open or Closed Cars

WINDSHIELD WINGS

Nights are now becoming chilly and this emphasizes the fact that you need a set of Windshield Wings. And also there is perhaps no other accessory that adds the class and distinction of a good set of Windshield Wings.

See our special de Luxe type as shown. Bevel plate glass, solid Brass brackets with cut-glass star or flowered pattern

at $16.50 Pr.

WEAKNESSES IN SYSTEMS TOLD BY 'DOCTOR'

Keen competition and inefficiency will eliminate within the coming year 35 to 40 per cent of the men tday engaged in the automobile business, L. H. Bennett, "business doctor" of the California Automobile Trades association, told the Orange County Automobile Trades association last evening at the garage of Albert Sitton, Fullerton.

While the expert's remarks were made to the automobile men, they were used in the broader sense of general business activity.

Bennett took his auditors through a most interesting discourse, illustrated by drawings emphasizing his points.

He pointed to carelessness on the part of automobile men as sidetracking the business of themselves and the jobbers from the path of prosperity, and declared that inefficient bookkeeping and collecting systems were responsible more or less for the sidetracking.

He declared that since he had taken up the work in which he is now engaged, that of advising automobile men as to system in the operation of their enterprises, he found that not more than five in one hundred are equipped with a bookkeeping system by which they could tell definitely and accurately how much money they were making, or whether they were operating at a profit or loss.

Tells Loss Source

Touching upon the matter of crediting and collecting, he asserted that when a dealer carries an account for more than thirty days he is financing his customer — and very few business enterprises can afford to do this, in his opinion.

"It is a trait of the automobile men to be good fellows and to let credit accounts run," said the "doctor." "Automobile men and doctors are the only groups of business men who do not push collections. Those operating in other lines of business get out and collect their bills after the accounts have been contracted.

"The three years previous to the latter part of 1920 was a period of playtime for the automobile men. It was easy to sell merchandise in those days. Unfortunately, all spent their profits and all today are facing changing conditions without that financial reserve they would have had if they had not spent their profits.

"The situation is serious. The business man who has his house in order in an economical and efficient system of operation is going to continue in business while the man who does not have his house in order is going out. The man who survives will find his competition less keen as time progresses and adjustments are made.

Must Knuckle Down

"Golf sticks must be thrown away. The man at the head of the enterprise must work. He must not only be efficient, but he must set the example himself and develop efficient organization. All must get down to brass tacks and conduct business in a thorough and efficient manner."

Announcement was made that Robert Martland, secretary of the state association, would be here October 14 to present a business situation which is developing in this state and which is declared to threaten disruption of the whole fabric of the present business structure of the nation. The matter concerns not only automobile men but men engaged in every line of business endeavor, it is said. Business men of the county will be invited to the meeting in order that they may be informed of the situation and act co-operatively with the automobile men in combatting the asserted evil.

H. D. Riley, Anaheim; Albert Sitton, Fullerton; Robert Atkinson and Earl Matthews, Santa Ana, and Stanley Mansur, Orange, were appointed a comittee to make arrangements for the special meeting October 14 and to extend invitations to men in other lines of business.

CHANDLER PERFORMS WELL ON HARD TRIP

Boosting for the Chandler even more than before, E. E. Stevens, of the Davis garage, is today back in Santa Ana after a week's grind over mountain and desert roads to Mammoth lake.

Stevens started from here last Friday night in a Chandler dispatch model that had traveled 78,000 miles. Traveling over the worst of mountain and desert roads, one stretch of which Stevens characterizes as the "worst in the United States," he made 868 miles and averaged 14 miles to a gallon of gasoline.

When he started from Santa Ana he filled up his Chandler with oil and water. Not once over the entire trip did he put either oil or water in his car, he says.

Stevens, who was accompanied by his wife, made the 434 miles to Mammoth in 18 hours and made the return trip in 16 hours.

"It was almost uncanny," he said, in describing his experiences. "We would go up those mountain roads and see other machines boiling. I would look at my water indicator and the darn thing seemed to be getting cooler. Pretty fair for a car that had gone 78,000 miles, I claim."

Stevens issued a warning to motorists making such a trip not to attempt to make the detour from Lancaster to Mojave, but to take the Willows springs road. The stretch from Lancaster to Mojave took two and one-half hours to go the twenty miles.

The Chandler man puts in a good word for the Cleveland also. He said he came across three women, driving a Cleveland, who had got off the road in the desert and were out in eight inches of sand. Stevens said he stopped to offer help and they responded that they didn't need any, because their car had been in places much worse than that and came out easily.

Stevens made the trip merely for pleasure. He said he enjoyed some fine fishing in Lake George, directly back of Mammoth lake. He caught several of the rare Lochlevin trout.

UNIQUE TEST GIVEN NEW OAKLAND CAR

B. Hays and Neal Edgar, who have the Santa Ana Oakland agency were perhaps the happiest men in town today.

A consignment of new Oakland sport models has arrived and is on the display floor of the Edgar and Hays garage at Broadway and Fifth streets.

"You may quote me as saying that I am of the opinion that these new cars are absolutely the most wonderful values for their money in the state of California," said Hays.

"The sport models sell at $1495 in Santa Ana," he continued. "They have class, speed, durability—everything. What more could one ask?"

Hays gave one of the new cars what is declared to be one of the most unique tests that local automobile dealers have yet reported. He said he throttled a brand new Oakland down to one mile an hour and jumped out of the car at Fourth and Broadway. With the car running north on Broadway without driver he talked with a friend on the corner, walked along the street a couple of blocks until he spied Fred Medbery, of Townsend and Medbery, giving the spectacle "the once over." Seeing mischief in the eyes of Medbery, Hays reached the car just as Medbery gripped the throttle to give the car the "gun."

Hays reports several deliveries during the past week, one of the new sport models to Marshall Robinson of Long Beach, a touring car to Nick Rousso of Santa Ana and a touring car to Oscar Strickland of Huntington Beach.

JOINS SALES FORCE

A. B. Cone, a veteran automobile man, has joined the sales department of the Davis garage and is now on duty. Cone comes to Santa Ana from the San Joaquin valley, where he had headquarters at Fresno.

SANTA ANA, CALIFORNIA SATURDAY, SEPTEMBER 24, 1921

Orange County Presents Concrete Evidence Of Her Great Wealth And The Striking Development Of Her Wonderful Natural Resources---"The Biggest Little County In The World" Is Smiling At You

Fairest Of The Fairs

WHEN the people of Orange county unite in any public spirited movement, there is pride in the fact that they generally "put it over" in big league style. This was so during the numerous "drives" of war-time and it is true of peace-time since. "Orange county over the top" tells the story of our achievements and Orange county will go over the top again this year, when her sweetest fruits, her choicest farm crops, her rarest flowers and the unexcelled handiwork of her citizens are grouped together to form the big Orange County Fair. Because her products are so bountiful and good, and the enthusiasm of her people so genuine and resultful, it has been named the "Fairest of the Fairs" and will no doubt live up to this claim better in 1921 than ever before. Add to this the many entertaining features of a County Fair and you have a wondrous exposition, and one that will undoubtedly bring together a larger crowd of admiring people than in any previous year.

$90,000,000 Products Show

ORANGE county, for its size, is hailed as the richest district in the world in the value and diversification of its soil production. Few crops there are, if any, which do not thrive in this favored land and as a result our great county is recognized as the premier producer of Valencia oranges, Eureka lemons, California walnuts, lima beans, sugar beets, and a large producer of almost everything else, including great quantities of oil from a half dozen different fields, with more in prospect.

Here is "Nature's Prolific Wonderland," with soil and oil products valued at approximately $90,000,000 annually, and this marvelous showing will be well represented at the Orange County Fair which opens Wednesday at Huntington Beach. Seeing the extensive exhibits of farm and orchard products, one can easily visualize the importance of the products revenue which comes into Orange county each season.

WALDORF SALAD

Peel, core and cup sour apples into small cubes; squeeze lemon juice over the fruit. Have an equal quantity of diced celery. Combine and mix with a thick mayonnaise dressing; sprinkle chopped walnuts over the top.

FRUIT COCKTAIL

Equal quantities of diced sour apples and bananas. Add four or five raisins for each service and cover with orange juice.

Second prize, Nov. 7th, $1930 Oakland Special.

RIPE TOMATO JAM

Scald and peel five pounds ripe, firm tomatoes; take out seeds, put in granite kettle with half pound of sugar to each pound of prepared tomato. Boil two lemons until soft. Remove seeds and rind and mash pulp fine; add to tomatoes, boil slowly, mashing to a smooth paste; when thick, pour in glass jars and seal or put in jelly glasses. If liked a little preserved ginger or any favorite spice may be added to suit taste.

FINEST BABIES IN ALL THE LAND WILL BE IN COMPETITION

An Orange County Baby Show will be one of the 1921 features of the Orange County Fair, and mothers throughout the district are now busy entering the names of their wee ones for this contest and free health examination.

R. L. Bisby of Santa Ana is chairman of the Baby Show and the examination will be conducted under the supervision of Dr. Maude Wilde, prominent and widely-known welfare worker of Los Angeles.

The Baby Show will be held in one of the new business buildings recently completed in Huntington Beach, on Main Street, just two or three blocks from the Fair grounds and the mothers will take their kiddies for examination on the last three days of the Fair, September 29th, 30th and October 1st.

It is expected that probably two or three hundred babies will be examined during this period, a cash prize of $50.00 is offered by the Army & Navy Store of Huntington Beach which will be awarded the most perfect boy baby examined and another $50 cash prize, from the same donor, wil be given the most perfect girl baby.

Entries are being made with Nthe Fair secretary at Huntington Beach. Among those already entered are Carol Rae McCormick, Margaret Burry, Albert Lee Greenwood, age two, Lucile Uhrig, age 6 months, a son and daughter of Mrs. Sarscellas, all of Huntington Beach; a son and daughter of Mrs. Foster of 104 N. Ross Street, Santa Ana, and many others.

SCHOOLS ARE TO HAVE PART IN BIG AFFAIR

Some interesting facts regarding the schools of Orange county will be presented in the educational department of the County Fair at Huntington Beach, Sept. 28-Oct. 1, according to a statement by M. G. Jones, principal of the Huntington Beach union high school, who is superintendent of school exhibits.

It will not be feasible to collect exhibits of students' work from the various schools because the schools have just started and have no new work to show, according to Jones. But a new plan is being worked out and he believes it should prove most satisfactory.

The new plan is to allot a given space to each school in the county, and in these spaces are to be hung pictures of the school plants, pictures of school teams, and cards giving data relating to enrollments, scope of work, etc. This feature, it is believed, will be largely of a "boosting" nature, as it is hoped to give comparative enrollment figures offive and ten years ago, to show the growth in population in recent years. Professor Jones asks that school authorities compile this data and pictures ready for exhibition at the beach fair by 10 a. m. September 28.

HUDSON AND ESSEX GOING TO THE FAIR

Townsend and Medbery, local Hudson and Essex dealers, will have probably one of the largest automobile displays at the County Fair, having reserved a space of fifty foot frontage and fourteen feet deep for their exhibit. At least five, and possibly six cars will be shown, including the popular models of both makes.

AIM OF FAIR IS TO STIMULATE INDUSTRIES

Asking for a greater expansion of agricultural and horticultural projects and the developing of industrial potentialities of Orange county, the executive committee of the 1921 Orange County Fair, in a foreword in the official premium list recently distributed, has the following to say to the residents of the district:

Designed to stimulate and encourage the production of greater varieties, larger quantities, and a better quality of agricultural and horticultural products, to promote the breeding of better poultry and livestock, to encourage business and industry, and to help in every way posible in the further development of this great community, the Orange County Fair gives promise of serving its purpose in a larger and more comprehensive way than ever before.

The tent space has been nearly doubled, with a view to providing sufficient exhibit space, and every resident of Orange county is invited to join the list of exhibitors who are responsible in a large measure for the success of this "Fairest of the Fairs." Our county is noted far and wide for the quality, quantity, and diversity of its soil and orchard production, and the Fair Committee hopes that the exhibits in all departments this year will be commensurate with the great strides made in recent years.

We believe that we should all rededicate ourselves to the highest development of the potential resources of this county and to the greatest possible increase of present facilities and wealth, in order to increase our present material prosperity and social well-being, and at the same time prepare the way for the thousands who will yet come to live and enjoy life in our midst. Let us encourage not only greater expansion of agricultural and horticultural pursuits, but also the industrial potentialities of the county, which are many, and not forgetting that Newport Harbor will be a commercial reality within a few months, ready to help every community attain its destiny.

We are depending upon the people of the whole county to lend their best efforts with us to making this 1921 Orange County Fair the great success that we all hope for.

LYNN H. COLBURN,
Chairman.
JAMES F. ROGAN,
Secretary.

TRUCKS, TRACTORS ARE TO BE THERE

Trucks and tractors such as are used on almost any farm in Orange county, will be seen at the county fair next week, including most of the popular makes. The four Ford and Fordson dealers of the county are combining in an extensive exhibit, with 40-foot frontage, and a similar sized space will be occupied by International products, sold in this county by M. Eltiste and Son.

John L. Wheeler will show two models of the popular Cletrac.

If it is possible to get it, a thirty-foot special truck feature will be put on by Damewood and Garroway of Orange, and several other truck and tractor dealers were expected to make space reservations by tonight.

Miss Bernice C. Shidelsky is making a tour of the United States for the purpose of studying divorce.

Announcing the New—

Model "F" 9-16 Cletrac
Tank-Type Tractor
$925 Here

---Chrome steel construction, new and unique principles in design. Hundreds of wearing parts eliminated. No oil or grease cups.

---In point of engineering development, Mr. Rollin H. White and his associate engineers have produced a tractor which marks a decided advance in power farming equipment.

We expect to be able to make deliveries about October 15th

Model "W" Cletrac, 12-20
$1725 Here

---Cast steel tracks and completely equipped. A bigger and stronger machine at Pre-War Prices.

THIS MODEL HAS BEEN GREATLY IMPROVED AND WILL BE CONTINUED TOGETHER WITH THE NEW MODEL "F".

---Both tractors will be exhibited at Huntington Beach Fair September 28 to Oct. 1, inclusive

9 DEPARTMENTS ARE OPEN FOR EXHIBITS

Nine big exhibit departments offer opportunity for nearly everyone in Orange County to compete for prizes at the County Fair next week. Farmers may exhibit ranch products, poultry, livestock, bees, honey, etc.

Bird lovers take great delight in the Canary Cottage.

School students will have a department of their own.

The floriculture department will appeal to lovers of flowers; the domestic arts and needlework department will gather those interested in the unusual and beautiful in drawnwork, embroidery, crocheting, etc., and hundreds of housewives will learn from the culinary and home canning department how to appeal to the appetites of their families. The various exhibit departments and their subdivisions are as follows:

DEPARTMENT A—Agriculture and Horticulture
Section 1a—Grains.
Section 2a—Beans, etc.
Section 3a—Beets.
Section 4a—Forage Plants.
Section 5a—Vegetables.
Section 6a—Melons, Pumpkins, etc.
Section 7a—Deciduous Fruits.
Section 8a—Citrus Fruits.
Section 9a—Cultivated Nuts.
Section 10a—Grapes.
Section 11a—Small Fruits, Berries, etc.
Section 12a—Semi-tropical and rare fruits.
Section 13a—Olives.

DEPARTMENT B-1—Poultry
Section 1b-1—Chickens.
Section 2b-1—Turkeys.
Section 3b-1—Ducks and Geese.

DEPARTMENT B-2—Pet Stock
Section 1b-2—Rabbits.
Section 2b-2—Pet Stock, etc.
Section 3b-2—Pigeons.

DEPARTMENT C — Culinary and Home Canning
Section 1c—Bread.
Section 2c—Cakes.
Section 3c—Pies.
Section 4c—Canned Fruits.
Section 5c—Preserved Fruits.
Section 6c—Jellies.
Section 7c—Jams, etc.
Section 8c—Canned Vegetables.
Section 9c—Pickles.
Section 10c—Dried Fruits.
Section 11c—Dried Vegetables.

DEPARTMENT D—Domestic Arts and Needlework.
Section 1d—Knitting.
Section 2d—Embroidery.
Section 3d—Drawnwork.
Section 4d—Crocheting.
Section 5d—Tatting.
Section 6d—Hemstitching.
Section 7d—Miscellaneous.

DEPARTMENT E—Floriculture
Section 1e—Professional.
Section 2e—Amateur.

DEPARTMENT F—Livestock
Section 1f—Goats.
Section 2f—Hogs.
Section 3f—Cattle.

DEPARTMENT G—Education
Section 1g—Fine Arts.
Section 2g—Manual Arts.
Section 3g—Domestic Art.
Section 4g—Grammar School Department.

DEPARTMENT H—Apiary
Section 1h—Honey.
Section 2h—Beeswax.
Section 3h—Bees.

DEPARTMENT I—Aviculture
Section 1i—German Roller.
Section 2i—Norwich.
Section 3i—Warbler.
Section 4i—Finches.
Section 5i—Parrots.
Section 6i—Goldfish.

HIGH PRICED BIRDS TO ENTERTAIN CROWD

C. C. Clark, of Fullerton, superintendent of the pigeon show to be held in connection with the Fair, has arranged with his friend, J. G. Clark of Inglewood, to exhibit some of the latter's world famous birds which have taken prizes and blue ribbons from Los Angeles to Madison Square Garden, New York.

These blue-blooded birds will not be shown in connection with local exhibits but will be placed on exhibition for the pleasure and information of the public.

Mr. Clark has promised to bring twelve birds which are worth $1000 of the Carneaux variety, many of the birds being worth $100 each.

A. C. Wieber of Santa Ana, is another exhibitor who will enter some of his parlor tumblers. These birds do a tumbling act which is alone worth going to Huntington Beach to see. They will be put through their stunts each afternoon for the benefit of the public.

Another feature of the bird show which will be well worth seeing will be the beautiful pheasants, a dozen or more, which will be exhibited by Mrs. Edgar Johnson of Fullerton.

New exhibits for the bird show are coming in each day, according to Clark and it promises to be the best thing of the sort ever seen in Orange County.

Here's Names of Leaders In Making This Year's County Fair

Lynn H. Colburn, owner of the Huntington Beach Inn and prominent real estate dealer of Huntington Beach, is chairman of the executive committee of the Orange County Fair this year, and James F. Regan, the livewire secretary of the Huntington Beach Chamber of Commerce, is secretary.

Others on the executive committee are F. H. McElfresh, Joseph Vavra, Dr. F. E. Wilson, R. C. Turner, Louis A. Copeland, R. J. Prescott, J. K. McDonald and J. J. Conrad.

Other officials who are helping to make the fair the success that it is bound to be, include the following:

Advisory Committee

J. C. Metzgar, Secretary Associated Chamber of Commerce.
H. E. Wahlberg, Farm Advisor.
R. P. Mitchell, Supt. of Schools.
E. L. Morris, County Horticulturalist.
Wm. Belding, President Orange County Farm Bureau.

Committee Chairmen

Murray Horne, Agriculture and Horticulture.
Joseph Vavra, Reception.
T. B. Talbert, Procuring Exhibit.
Domestic Art Club, Domestic Art.
Miss Florence Larter, Fruits and Vegetables.
R. C. Turner, Music and Entertainment.
Charles G. Boster, Housing.
R. J. Prescott, Manufacturing.
Ray Walker, Athletics.
Wayne Goble, Advertising.
C. E. Lavering, Finance.
George Wardwell, Pet Stock.
Hubert Howell, Poultry.
Dr. F. E. Wilson, Judges and Prizes.
James F. Rogan, Floriculture.
Andrew Moore, Livestock.
Miss Bertha Proctor, Library.
M. G. Jones, Educational.
James F. Rogan, Concessions.
W. I. Clapp, State Societies.
Kyle Howard, Autos and Tractors.
Mrs. C. E. Lavering, Aviculture.
Miss Martha Trafford, Art Department.
Mrs. T. B. Talbert, Women and Children Welfare.
George J. Brown, Apiary.
E. E. Davidson, Water Sports.
R. L. Bisby, Baby Show.

PIGEONS WILL HAVE PLACE IN BIG SHOW

Pigeons of various strange and unusual kinds, to say nothing of varieties that are known to a great number of people, are to be shown in the big fair at Huntington Beach next week.

There is more interest in pigeons than most people think. There are more fancy pigeons in the county than even keepers of ordinary pigeons can say of their own knowledge.

The county fair is to be a kind of information bureau for the scores of pigeon growers in the county and hundreds of others are sure to find the department highly interesting.

Indications today are that there will be between 250 and 300 pigeons exhibited. The pigeon is to play a larger part in the show than ever before.

Charles C. Clark, of Fullerton, himself a pigeon fancier of note, is in charge of this feature.

One of the exhibitors will be Frank Buehler of Orange, proprietor of the Superba Pigeon lofts, who is declared to have some of the finest birds in the United States. He will have a nice bunch of birds at the Huntington Beach exposition.

Warren Carhart, who is also starting a large loft, will also have a string of entries, along with Clark and many ohters. The pigeon exhibits, it is believed, will tend largely toward utility types such as Carneux, white king, runts, etc., but there will also be plenty of the fancy types, including rollers, pouters, tumblers, fan-tails, parlor rollers, and other types known only to pigeon fanciers but interesting for the general public to look at. A number of valuable prizes have been offered pigeon winners by business firms of Fullerton and Clark invites all those wishing to complete to notify him of that fact, addressing him, C. C. Clark, Fullerton.

Mlle. Hanoun, known as Turkey's Joan of Arc, is likely soon to be named as the only woman ambassador to the United States.

Women in China never kiss, and when a Chinese woman wishes to show her affection, she gently touches the hand of her beloved.

CENTERS ARE TO COMPETE FOR POSITIONS

Probably the feature of greatest interest in next week's big Fair at Huntington Beach will be the Community Exhibits Department with a dozen or more local Farm Centers competing for $250.00 in cash prizes.

These exhibits, together with the Farm Bureau display, will occupy the entire center section of one of the main tents, and here, will be shown the collective exhibits of Orange County ranchers from San Juan Capistrano as far north as La Habra and Yorba Linda.

The cash prizes offered by the Fair Committee are: First, $100.00; second, $50.00; third, $25.00; fourth, $15.00; and fifth, $10.00; in addition to the first, second and third prizes of $25.00, $15.00 and $10.00 offered by the Huntington Beach newspaper.

The score for judging community display it is announced, will be as follows:

Variety of products shown—15.
Quality of products shown—40.
Quality of products in proportion to display—15.
Artistic arrangement of display—30.
Total—100.

Individual Displays

A premium of $50 cash will be awarded displays of farm products grown in one ranch by individuals, said premium to be divided as follows: First premium, $25; second premium, $15; third premium, $10. The same score as for community displays will prevail in this department.

RICE DAINTY

One and one-half cups cooked rice; one cup grated pineapple; one-half cup powdered sugar; one cup whipped cream.

Carefully drain all juice from grated pineapple; add rice and sugar. Whip cream and fold into mixture. Serve very cold in sherbet or cocktail glasses. Garnish with maraschino cherries.

Huntington Beach Music Co.

217 Main St., Huntington Beach, Cal. Phone 155

The Pike's Peak hill-climb contests were divided into three separate events, according to the piston displacement of the entries. Hudson was entered in only one. But its time of 19 min. 16.2 sec. was faster than any other car ever made the course, regardless of class or price, except another Super-Six special, which set the unequalled record of 18 min. 24 sec.

Again Hudson Wins at Pike's Peak

Breaks All Time Records Except Its Own

A Hudson Super-Six special, entered and driven by the Hudson dealer of Oshkosh, Neb., again won the Pike's Peak hill-climb classic up the highest road in the world, defeating teams of much costlier cars, driven by such noted professionals as Ralph Mulford and others.

Hudson won the Penrose cup for the fastest time of any car in the three events. Hudson's time was 19 min. 16.2 seconds. This time has never been equalled except by another Hudson Super-Six special, which in 1916 set the record for the course of 18 min. 24 seconds.

That record still stands despite the fact that time after time the costliest special cars have struggled to match it.

Isn't it convincing evidence of Hudson's superiority, that a car entered and driven by a dealer, so decisively defeated the specially built, professionally driven teams that the makers of costlier cars sent out to win?

MANY ATTRACTIVE PRIZES ARE OFFERED BY BUSINESS FIRMS AND RESIDENTS OF THE COUNTY

Business firms and individuals of Orange County have combined to offer dozens of valuable merchandise prizes, as well as cash, to winners in the various exhibit departments of the County Fair in addition to the awards of the Fair committee.

Included in the list of special prizes are the following:

Best plate of figs—$5 cash, Lynn H. Colburn.

Best lemon pie—$2.50 cash, Dr. F. E. Wilson.

Best Jersey cow—pair rubber boots, B. T. Mollica.

Trio White Rock chickens—5 lbs. best roasted coffee, W. R. Wharton.

Best dresser scarf—$5 cash, Butcher's Pharmacy.

Best chocolate cake—one pair lady's silk hose, McElfresh Mercantile Co.

Best loaf bread baked from Crown Flour—50 lb. sack Crown Flour, Adair grocery.

Best coffee cake—2 lb. can Chase & Sanborn Best coffee, Adair grocery.

Dirtiest hands in town—3 cans Lunville Waterless Soap, Adair grocery.

Best community agricultural exhibit— $25 cash; second best community agricultural exhibit—$15 cash Third best community agricultural exhibit — $10, Huntington Beach News.

Largest pumpkin, to be delivered to the Huntington Beach News office, $5, Huntington Beach News.

Largest squash to be delivered to the Huntington Beach News office, $5, Huntington Beach News.

Six tallest stalks of corn, to be delivered to the Huntington Beach News office, $5, Huntington Beach News.

Best pair bronze turkeys—one Winchester carving set, value $7.50, Huntington Beach Hardware Co.

Best 2 pts. preserved pears—$5 cash, Hustin, Jackson & Huston.

Display best and smoothest Spanish onions—2 1-2 lb. can Hill Bros. coffee, John Dalany.

Best loaf of bread—$5 cash, John Eader.

Best nut cake—$5 cash, Talbert & Co.

There is to be distributed by a prize committee for best live stock exhibits prizes as follows: Huntington Beach Company, $50; Huntington Beach News, $10; R. J. Prescott, $10; Princess Theatre, $10; D. O. Stewart, $10; and James F. Rogan, $10; the total making one hundred dollars.

Best quart pickled peaches—5 pt. aluminum stew pan, R. J. Prescott.

Best preserved figs—$2.50 cash, A. Onson.

Best floral display—$15, Dahlia selection; second best floral display, $10, dahlia selection; Third best floral display, $5, dahlia selection, Huntington Beach Nursery.

Best trio Rhode Island Reds—one Big Ben clock, J. Parker.

Best Holstein calf under one year—$5 merchandise order, Huntington Beach Music Co.

Best pair Rhode Island Reds—$5 cash, Cafe Del Mar.

Best bedspread—$10 box of candy, Barlow's Candy Shop.

Best angel food cake—$25 Eastman Kodak, O. B. Drug Co.

The best Parker House rolls—$10 string pearl beads, L. E. Hendrickson.

Best pair Duroc hogs—$6 pair Chippeway work shoes, M. A. Turner Co.

Best center piece—$3 silk hose, Marguerite Shop.

Best hand embroidered nightgown—$3 collar and vestee, Marguerite Shop.

Best pen Black Minorcas—$5 chicken feed, Huntington Beach Warehouse Co.

Best yearling beef stock—$5 mill feed, Huntington Beach Warehouse Co.

Largest sugar beet—$5 Gillette Razor, Schwartz & Sons.

Best Toggenberg Milch Goat—$5 cash, W. L. Evans.

Best dairy cow any breed in milk and as an individual—$5 cash, Patrick H. Quinn.

Best hog any breed raised by boy or girl under 18 years old—$5 cash, R. M. Bradley.

Best running broad jump—$5 meal ticket, Home Dining room.

Best display canned fruits by individual—$10 mantel clock, B. Burstein.

The best Holstein cow—$5 cash, W. I. Clapp & Co.

Best display of grapes—$2.50, Hall & Campbell.

The most perfect baby boy—$25 gold, Army & Navy Store.

The most perfect baby girl—$25 gold, Army & Navy Store.

Best plate walnuts—$5 cash, Louis A. Copeland.

Best display automobile and accessories under $2000—$50 gold, Los Angeles Trust and Savings bank.

Best display automobile and accessories over $2000—$50 gold, First National bank.

Best pen of Black Minorcas—One gallon can of Lee's Lice Killer, A. N. Werman.

Best pen of White Leghorns—One sack of buttermilk mash, Globe Grain & Milling Co.

Best pen of Rhode Island Reds—One sack of Perfection Laying mash, F. I. Mahaffey.

Best White Minorca—$5 cash, The American National Bank, Santa Ana.

Best Barred Rocks—$10 cash, the First National Bank, Santa Ana.

SPACE IS RESERVED FOR PACKARD SIX

The new Packard Single Six, now represented in Santa Ana by Dale and Company, will be seen at the Orange county fair next week. An adequate space has been reserved and a Packard single six touring car, set in an appropriate booth, will likely be the model chosen for display. A shipment of Packards arrived this week and undoubtedly the new quality car now represented in Santa Ana again for the first time in several years, undoubtedly will attract a lot of attention.

One of the highest salaried women of the country is Mrs. Clara Porter, banker, an officer of a large trust company of New York city.

MISSION OF FAIR IS EXPLAINED TO PUBLIC IN OFFICIAL FOREWORD

Much general information of value to exhibitors and patrons of the 1921 Orange County Fair is contained in the official premium list, and exhibitors are expected to familiarize themselves with the rules and regulations and to abide by them. Things to remember about the Orange County Fair which opens next Wednesday at Huntington Beach as set forth by the executive committee, include the following:

We need the active assistance of every man and woman in the county to make this Fair what it should be. You are interested in some department of this Fair and you can help make it better by giving that department your support.

The mission of the Fair is to encourage better agriculture, horticulture, stock raising, and manufacturing. It induces men to think, and urges them to put forth better efforts for farming and stock raising. It is the place for those who have learned the lesson to demonstrate results.

THE FAIR IS JUST WHAT YOU MAKE IT. What will you do to help make it a success?

The Fair helps to increase the value of livestock, agricultural products and real estate in this county.

The Fair promotes friendly rivalry and brings greater unity to the county. It is the annual meeting place of friends, and tends to better acquaintance.

You should study the premium list carefully, and enter your exhibits in the proper classes.

AUTOMOBILES WILL BE PUT ON DISPLAY

The automobile show, held at Huntington Beach next week in conjunction with the Fair, will be a "dustless" show, according to Secretary James F. Rogan, who is getting the fair grounds into shape for the big crowds.

The tent which will house the recreation cars is forty feet wide and 300 feet long, extending the full length of the block, and occupies a nice, clean, level paved street.

The pavement, swept clean and sprinkled with sawdust, will afford almost a dustless setting for the shiny new cars which will be on display, representing the live distributing agencies of the county. Entrance is gained into the automobile tent from the ends of both of the large main tents, and this arrangement exhibitors regard as most satisfactory.

Among the cars which will be seen by fair visitors are the Packard, Studebaker, Hudson, Essex, Oakland, Dodge, Overland, Ford and Chevrolet, also several others represented in the county but which had not definitely reserved space up to the middle of the week.

By actual count 598,786 persons have seen "The Bat," the big New York success, since that play opened there a year ago, and 378,899 persons have watched the production in Chicago during the eight months it has been presented there.

MANY NEW FEATURES ARE GIVEN IN LIVESTOCK DIVISION THIS YEAR AT ORANGE COUNTY FAIR

The following information regarding the enlarged livestock department of the County Fair which includes dairy cattle and dairy products, having entirely new features, contained in the premium list , is given:

Department F—Livestock

Andrew Moore, (Wintersburg) Chairman

Rules and regulations of the Livestock Division follow:

Rule 1—Application for entries must be made on blanks furnished by this Association, and must be mailed to Superintendent prior to date of closing of entries.

Rule 2—Entries in the livestock department close on September 23rd, 1921.

Rule 3—The management will furnish a general caretaker and guard in livestock sheds. All animals will be fed and watered by caretaker, except where owners desire to do so.

Rule 4—All bulls over 12 months of age must have rings in their noses, and when in their stalls be securely fastened.

Dairy Cattle

Class I—Holstein Fresians

All animals in this class one year old or over to be registered and certificate shown to Entry Clerk.

BULLS—	1st	2nd	3rd
Three years old and over	$5.00	$2.00	$1.00
Junior Yearling	5.00	2.00	1.00
Junior Calf	5.00	2.00	1.00
COWS—			
Three years old and over	$5.00	$2.00	$1.00
Heifer, senior	5.00	2.00	1.00
Heifer, junior	5.00	2.00	1.00

GROUPS—

Four animals, either sex, get of one sire.

CLASS II—Jerseys

Same as Holsteins.

CLASS III—Guernseys

BULLS—			
Three years old and over	$5.00	$2.00	$1.00
Junior Yearling	5.00	2.00	1.00
Junior Calf	5.00	2.00	1.00

Swine Department

All animals in this class one year old or over to be registered and certificate shown to Entry Clerk.

CLASS I—Duroc Jerseys

BOARS—	1st	2nd	3rd
Three years old and over	$5.00	$2.00	$1.00
Junior Yearling	5.00	2.00	1.00
Junior Pig	5.00	2.00	1.00

GROUPS AND HERDS—

Get of Sire—Consisting of four animals, any age and any sex, all sired by one boar.

Produce of sow consisting of four animals, any age and any sex, all produced by one sow.

Aged herd, consisting of one boar and three sows, all over one year of age.

CLASS II—Poland Chinas

Same as Duroc-Jerseys.

CLASS III—Berkshires

Same as Duroc-Jerseys.

Dairy Products

CLASS I—Ranch Butter

Best sample of ranch better—one lb.—1st, $1.00; 2nd, $.50; 3rd, ribbon.

CLASS II—Cheese

Best sample of cottage cheese—1 lb., 1st, $1.00; 2nd, $.50; 3rd, ribbon.

CLASS III—Milk

The management offers a special contest for dairymen as well as owners of one or two cows. Samples of raw milk must be delivered September 28th and be in place not later than 1 P. M., of same day. Milk should be submitted in a bottle as one pint is the entry. Bottles should be sealed with hot paraffine. The award will be on the following scale of points:

Bacteria	35
Flavor and Odor	10
Visible Dirt	10
Fat	10
Solids, not fat	10
Acidity	5
Bottle and Cap	5

First, $2.00; second, $1.00; third, ribbon.

AUTOMOBILE CLUB IS TO HAVE BOOTH THERE

The Automobile Club of Southern California, always on the job to protect the interests of motorists by guiding them on their way, is lending its every aid in making Orange county's fair a success. The club magazine, Touring Topics, contains an article boosting the Fair, and temporary road signs, guiding the traveler to Huntington Beach, are being placed on all nearby roads. At the fair, this club will have a rest room and information booth for the convenience and comfort of fair visitors, among whom will undoubtedly be many fresh from the East and seeking all manner of California information.

BIRD LOVERS ARE TO EXHIBIT THEIR FINEST FEATURES NEXT WEEK

The many scores of people who last year found themselves thoroughly satisfied with the display of songsters are to have a greater treat this year than last year.

Mrs. C. E. Lavering, who had charge of the exhibit last year, is to be in charge next week.

They call her department "Canary Cottage," and the department is well named, as all of those who attend the show will readily see.

Bird owners from all over the county are invited to enter their bird pets such as canaries, finches, parrots, etc.

No entrance fee is to be charged. Prizes aggregating $29 are offered as follows:

Best male German roller, $3; best female, $1; second and third, ribbons.

Best male Norwich, $2; second, $1; third, ribbon; best pair, ribbon.

Best male warbler, $1; best pair, ribbon.

Best aviary, including best collection of birds, $5; second, $3; third, $1.

Best pair finches, $1; best display of birds of one variety, $2.

Best parrot, $3; second, $2; third, $1.

Best aquarium of goldfish, $2; second, $1.

Additional prizes are offered in the hope that they will encourage large bird exhibits from the bird fanciers of the county. For the largest display of birds the cash prize of $5 is offered and all aviarys containing ten birds or more will be offered a special prize of $2 each. The largest display of birds exhibited in small cages receives $2. Prizes for parrots are: First, ribbon and $2.50; second, ribbon and $1.50; third, ribbon and $1.00. Prize of $1.00 is offered for the best pair of finches and ribbon for second prize. Best pair of odd birds will receive an award of $1.00.

Women now can hold office in Missouri, the question having been carried by a large majority in the recent state-wide election.

GOODS MADE HERE TO BE EXHIBITED

Made-in-Orange County goods, featuring the industries which are helping to make Orange county great and which point the way to a greater industrial future, are to be a feature of the 1921 Orange County Fair at Huntington Beach next Wednesday, Thursday, Friday and Saturday. Several Santa Ana industries are represented in the list of exhibitors and each will bear the slogan "Made in Orange County," while it is expected that others, who have not as yet reserved space, will be represented when the big fair opens.

Water pumps, glassware, cultivators, farm implements, well casing, soda pop, ice cream and other articles manufactured in Santa Ana will be shown, along with a large number of articles made elsewhere but represented here by live-wire dealers, who see in the County Fair an opportunity to place their wares quickly before the eyes of many thousands of people.

The Vincent Manufacturing company, which has built up a wonderful well casing business, will have a large exhibit of well casing and attachments and the Brock glass factory, which started operations only a few days ago, will show some of its newly-made novelties, lantern globes, etc., according to announcement by the proprietor, N. V. D. Brock. Dixon's pump works, manufacturing a well known deep well pump, will have a booth showing samples, and a miniature model in action. Farm implements manufactured here by Towner's and gooseneck cultivators by the Jessen Manufacturing company will also be included in the displays.

Ice cream, milk, buttermilk and cottage cheese from the Excelsior creamery and Jester Brand pop from the Santa Ana Soda Works will be at hand for the refreshment of Fair visitors. The drink stands inside the tent will be operated by Witman's, Santa Ana.

Among the other industrial exhibitors are the Spurgeon Furniture company, which will show likely phonographs, kitchen cabinets, electric washers, etc., the Duplex Percolator company, the Huntington Beach Music company with phonographs and pianos, the Rotary Candy Shop of Huntington Beach, several real estate, oil well supply companies, etc., the Anaheim Beef company and several other Los Angeles firms have reserved space for fair exhibits.

Some space is yet available according to Wayne Goble of 312½ North Main street, Santa Ana, who has the blueprints, contracts, etc., and any Orange county firm not yet located in the big tents may yet be able to secure space there.

Miss Margaret McArdle is buyer for one of the big stele corporations in Birmingham, Ala.

STRICTLY FOR THE COUNTY AS WHOLE

The fair at Huntington Beach is designed as a county affair.

It has never been anything else but a county fair. From the beginning the people of Huntington Beach have worked to the one end—a fair representative of the entire county.

The exhibits are from all over the county.

In this event, the people of Huntington Beach are the hosts.

POTATO CROQUETTES

Pare and boil six medium-sized potatoes until tender and then drain and cover with cloth for a few minutes. Now mash and add: Yolks of two eggs, one-half teaspoon of salt, one-fourth teaspoon of white pepper, few drops of onion sauce. Beat very hard to mix thoroughly and then mold into oblong cylinders or croquettes and lay on well greased and floured baking sheet. Brush well with one well beaten egg, four tablespoons of cream. Dust very lightly with paprika and bake for fifteen minutes in hot oven.

At a mothers' meeting held recently in South Center, Kan., a ban was put on short skirts and high heels.

CLEVELAND COMPANY TELLS OF OUTPUT

The Cleveland Tractor company of Cleveland, Ohio, is making announcement of the new model tractor and tractor cultivator, which they are now placing on the market.

"This new tractor and cultivator in point of engineering development and adaptability for all kinds of work, mark a decided advance in power farming equipment," said J. L. Wheeler who will exhibit at Huntington Beach.

"Approaching the new Cletrac from the standpoint of the engineer, it will be apparent that Mr. Rollin H. White, famous truck and tractor engineer and his associate engineers have produced in this new tractor a machine of new and unique design and have developed still further Mr. White's original ideal of using high grade steels to minimize weight.

"There is nothing freakish in this new model and only tried and tested engineering principles have been employed."

HOARHOUND CANDY

Boil the hoarhound in a little water until the juice is extracted and strain through a cheese-cloth. Boil any desired quantity of sugar with just enough water to dissolve it and stir in the juice. Work the sugar with a spoon against the sides of the pan until it is thick and creamy. Pour out in a buttered pan. When nearly cold cut in squares.

S. A. WINS PLACE IN BIG PUBLICATIONS

Santa Ana is being advertised through national magazines as one of the cities of the United States in which the big Paramount feature film, "The Affairs of Anatol," will be shown. The picture will be given its first release and will be run simultaneously in hundreds of the more important moving picture houses in the country.

Conspicuous in the advertising is the grouping of the only cities in Southern California in which the picture will be given its first run. Those three cities are Santa Ana, Los Angeles and San Diego.

The film will be run at the Temple here for one week, starting with a matinee next Sunday. In contracting for the picture, E. D. Yost, manager of the Temple, "scooped" many of the larger playhouses operated in cities of greater population than Santa Ana.

CREAMED SALMON

Creamed salmon is best when the salmon is not broken too fine. It is better in biggish chunks than when minced—better both in appearance and in taste. Use plenty of butter and a good seasoning of salt and pepper.

Developing Orange County

¶ Each year the increasing importance of the Orange County Fair reflects the rapid growth of this thriving community.

¶ Since its first organization, this Bank has ever been closely identified with the progress of the district which it serves. With enlarged resources and stronger affiliations it stands ready today to play an even greater part in the agricultural and business development of Orange County.

First National Bank
OF HUNTINGTON BEACH
"THE HOME BANK"

WHY AN INTERNATIONAL?

---The International Harvester Company Truck Plants embrace an investment of $20,000,000, the largest in the truck industry of the world.

International Truck Sales to Lead

The record of the past six months of International truck sales as shown in table herewith rank International production second in the truck world. The International with its added plant and production facilities now being completed will be in first place within the next six months.

The Wall Street Journal of August 27, publishes the following official figures showing the volume of sales by manufacturers of trucks for the first six months of 1921:
(Fords, Reos, Dodge and other light trucks are not included in this list.)

WHITE	3526
INTERNATIONAL	3457
MACK	2460
AUTOCAR	1537
G M C	1292
REPUBLIC	741
PACKARD	719
COMMERCE	647
FEDERAL	516
STEWART	443
GARFORD	380
STERLING	253
DIAMOND "T"	240
PIERCE	239
CLYDESDALE	171
NASH	87
DENBY	71
GRAHAM	66
DUPLEX	65
PAIGE	60
KELLY-SPRINGFIELD	48
STANDARD M	32

This is ample reason why any truck pr ospect should thoroughly investigate the merits of INTERNATIONAL TRUCKS.

See our display of International Tractors and Trucks at the Huntington Beach Fair Sept. 28-29-30 and Oct. 1st.

HUNTINGTON BEACH, SEPT. 28-29-30-Oct. 1

Ford Trucks

The world do move and Ford Cars—Trucks and Tractors certainly do their share of the job.

As one man suggested today, my, wouldn't it be a disaster if Henry Ford should happen to quit making Fords. A Fordized ranch is the most efficient and most economical equipment it's possible to obtain. Hundreds of tests made the past two years throughout the U. S. has proven that Fordson farmed land has increased production from 30 to 50 percent. Power farming is here to stay, now you should select the tractor that produces the best results at the least expense.

We are the proud representatives in Orange County of the greatest and most beneficial manufacturing institution in the world today.

ORANGE COUNTY FAIR

The $90,000,000 Products Show

BIGGER AND BETTER THAN EVER

Another harvest season has come, and again Orange County presents her finest products that all the world may see and marvel at the wonderful richness of her soil and the skill of her citizens.

These are the golden days when Nature opens her arms and causes us to rejoice in her insurpassable fullness, and to glory in the brains and energy of man which have aided her annual task of providing for the wants of the world.

Orange County has produced nobly and well in this year of 1921 and the finest specimens of her $90,000,000 annual bounty from Mother Earth are presented for your admiration in this great products exposition.
